MADAPOLLAM

DECEMBER THE 26th. 1743.

No. 5

TO THE HONBLE RICHARD BENYON Esq^r.

PRESIDENT AND GOVERNOUR & C^t. COUNCIL OF FORT ST. GEORGE.

Honble Sir & Sirs

We advised your Honour and Council in our last of the 4th. that we agreed in Consultation to send Your Honour & C^a. Our Annual Books & Papers by the 9th. or 10th. of this Month, which accompanies this, The Papers in two Setts, The Duplicates from primo January to Ultimo November, and the other from primo January to ultimo December, the last we were willing to send as the Month is expired lest they might be required, and we also enclose as p^r. List of the Packet The Warehousekeeper's Account of Expences for December, Consultations, and Warehousekeepers Account of Cloth brought in last Month, Cash Account for the same, Ballance whereof is in Star Pagodas, Fanams & Cash, Eleven thousand, four hundred, sixty five Pagodas fourteen Fanams, forty Cash, 11465, 14.40.

Since closing our Accounts for the Month of November, We have sorted Bales Eighty Eight, as your Honour & C^a. will see p^r. the Investment, and had it not been for the late heavy Rains and high Winds Impeding, the Warehousekeeper reports We should have had more Cloth cur'd, and Embaled, but for the foregoing reasons, we have not been able to get one piece Conjeed from the 31st. of December till the 8th. Instant, But the Warehousekeeper (the Weather now favouring) designs to hasten the Cloth as much as possible.

By the Addition of December months Account of the Customs, We find the amount of the Encrease now to be Pagodas one thousand, two hundred, Seventy one, Six fanams, and eighteen Cash 1271.6.18 The reasons for which are the same as your Honour & C^a. will see in the Accomptant's Report.

Andiapah and Shacup Tomby's Ballance being in their Account Currant taken to Ultimo November, Twenty thousand, two hundred, thirty two Pagodas, twenty one fanams & forty six Cash 20,232-21-46, Since having rec'd in December an advance of Pagodas six thousand and having brought in Cloth as Per Warehousekeeper's Account for that Month Pagodas Five thousand, nine hundred & one, twenty three fanams and fourteen Cash 5,901-23-14 now by Addition of December's Account occasions their Ballance to turn out Twenty thousand three hundred & thirty Pagodas thirty four fanams, & thirty two Cash 20,330-34-32 as Your Honour & C^a. will see by their Account Currant.

The 4th. Instant Mr. Baker was sent for into Consultation and enquired of what progress he had made in the Sloop Carolina, as also in getting out to Sea the Betsey Schooner, He told Us he would give his Answer in few Days, since which the 7th. Instant Mr. Croke wrote him a Note on the foremention'd Heads, to which he return'd the enclosed Answer, which we take the Liberty to forward for Your Honour's & C^a satisfaction.

As we have given your Honour &c^a. the particulars that have hitherto occur'd, and as we suppose this will be the last we shall have the Honour to send before the Departure of our Hon'ble Governour for England, We therefore take the Liberty & Pleasure, to tender our sincerest wishes that his Honour may meet with a Healthfull, and Prosperous Voyage.

We are with much respect

TO M^R. EDWARD CROKE

SIR

In answer to Your Demand concerng. the Skooner She is now down at the Point near the Bar, & if you please to favour us with Two Chelingas to Bouy her stern that she may swim near upon an even Keel which may be done to morrow then if the Weather be fair and the Sea Smooth I intend to get her out on Munday Morning next which is the soonest I can pretend to.

S^r. As for the Carolina Sloop having but few Conveniencys ready for geting her a shore I am Providing Tackling & Necessarys for that purpose, & desire you wou'd please to prevaile with Ershapa Chitty to Lend or Sell the old Mast he hath by him; the only Timber I see about Cuddalore fit for hauling the Sloop upon; the Company having none fit to bear so weighty a Vessell: before she can be haul'd up she Lying in a hole steep too the ground must be Level'd with an easy ascent which will require some time to do and fair weather for that Work, therefore I cant say what Time 'twill Require, the People to do it with not being very Expeditious in such performances especially when Necessarys & Utinsels are to be first got in readiness for the Work.

S^r. This is all I can say on these occasions at present in answer to Your Note save only that I shall do my best to forward these Affairs so soon as I can who am

Some days ago it was reported that our Nabob Ally Kouli Cawn was recalled from his Government and to be succeeded by Oomar Kouli Cawn a Brother in law to Nizam what adds weight to this report is that the Country is at present under the Care of the dispondees, and Jemmadaurs are arrived in the several Places who prevent them Cutting the Grain till his Arrivall, the Country in General rejoice on this Occasion, but as a still Greater advance is given for this Province it's Probable as bad if not more distructive means will be made use of.

TO THE WORSH^l. JOHN HINDE ESQ^r.
DEPUTY GOVERNOUR &C^r.
COUNCIL OF FORT ST. DAVID.

WORSH^l. SIR & SIRS

I have Considered the Means Directed to be us'd for getting the Sloop Carolina overland into the Sea & am not unacquainted with the Application of the Grand Mechanical power recommended for the purpose of removing her out of the Hole She hath long floated in for I have us'd that way of purchase when Tackles alone Applied were insufficient for Hauling Vessells ashore, & into the River again, after refitting; it being the common country way in these parts used when the ground is firm and an easy Ascent chosen for that purpose, but the Carolina is in a deep Hole between two Steep Sandy Banks and will require a Considerable time of Leveling Work before any of the Mechanick Powers can fully be applied to good Purpose and when out of the Water the stand she is to go over is a very deep and loose Sand, the Sea Shore exceeding flat; the Sea usually breaking one or two hundred Yards from the shore & not five Foot water one hundred Yards from the Beach amongst the Breakers, and what means to be used to get her over the Breakers I am utterly a Stranger to; and I can find nothing in the Scheme received to get over this Difficulty; The Vessels drawing seven foot Water abaft and five before without any thing in Her.

However possible it may be to get her Safe over, I am persuaded the Risque is very great and the Charges as considerable more than equivalent to Her present worth; This difficult affair will be found an undertaking of much more Expence than what set down in that minute Calculate at the Foot of the Scheme for that Business, and I believe need not say there are many Things in Theory which seem easy to be effected Yet hardly to be reduced to Practice if at all to be done, and this if Compasssed will be with the utmost difficulty, wanting many Necessarys here suitable to the Business, as Dogs convenient for her, Crabs, thick Plank to lay under the Timbers she is to slide over, that they be not buried in the sand as also Timbers for the Dog to slide upon.

Besides the Vessel drawing so much Water and the shore so exceeding flat, unless a stage be provided to pull her upon over the surf, the foregoing Labour & charge will be in vain, and that will require a Large Supply of Timber Plank, and other necessarys not mentioned in that estimate of the Charges of this undertaking, not to mention Cordage of many sorts besides Blocks, Tackles Falls of Hawsers, Old Cables &c^t. to force the Vessel over the sand and surf.

And before this Difficult Jobb be undertaken I think it necessary to Acquaint you that the Sloop must first be thoroughly repaired, and many of her Bottom Planks taken out for she will hardly float where she is, and utterly unfit for the sea, much less to be dragged some hundred Yards overland and then over the surf.

This is what I have to offer to Your Worship &c^r. upon this Affair as may deserve Your Consideration however referring it to better Judgement I add no more but that I am with much Respect.

SIRS

Since the foregoing I thought fit to add that I have had the Opinion of several Experienced Sea men and Commanders on this Affair & they agree with me that it is next to an Impossibility to get the Sloop safe into the sea from the Place she now is lodged in being surrounded with loose driving sand.

HONBLE SIR & SIRS

We are indebted to Your Honour &c^a. for Your Favour of the 21st. Instant & One from M^r. Secretary Savage of the 20th. enclosing Invoice & Bills of Lading for 750 Bags of Rice, which we have received.

We Observe what You are pleased to say in relation to the Investment, to which we shall pay all imaginable regard. We have now the pleasure to Acquaint Your Honour &c^a. that we have made a Contract with Our Merchants for the Season.

The set of Merchants employ'd last Year Viz^t. Andeapa & Compy, not caring to engage for Salem Cloth which Our Hon'ble Masters under the name of Porto Novo Cloth seem much to want. We made Our Application to Another Set who promis'd to procure us 3 or 400 hundred Bales of that Cloth, provided we would Appropriate to them some part of the Investment that was near at hand that they might not have only the risquous part; this request tho' most reasonable in itself some what embarrass'd us, because we could not Oblige them in that respect without disobliging the former set, who had contracted for the produce of all those places, & are a set of People to be depended upon for what they will engage for & of Course not to be made dissatisfied; we had therefore only one Method, which was to point out to them (Viz^t. Andeapa & Compy) that if they would not give up one of the other places to the other set of Merchants, the Hon'ble Company would lose the Advantage of a Salem Investment & this being made Appear so plain to them & was really the case had the wished for Effect. they have agreed to provide Salem Cloth likewise & to furnish the Compy in all with 1000 Bales, at least three or 400 of which we imagin will be Salem. We have this Day had a Consultation on this Affair, where they were sent for in & have satisfied this Agreement before us all, & as we have no reason to doubt their performances of it we flatter ourselves it will meet with Your Honour &c^a's. Approbation. In consequence of which we have this day advanc'd them 10000 Pagodas, which reduces our Cash to near One thousand We therefore request Your Honour &c^a. will supply us with 20000.

TO THE HONOURABLE NICHOLAS MORSE ESQ^r.PRESIDENT AND GOVERNOUR &C^a.COUNCIL OF FORT S^r. GEORGE.HON^{BLE} SIR & SIRs

With our last of the 2^d. January we sent you Duplicate of what wrote you by the Sumatra: and this incloses our Diarys Consultations Cash and paymasters Accounts for December and January, also an Estimate of the Cost of building and repairing such parts of the Fortifications of this Garrison as immediately require it. The Terras of the Fort House and the roof of the Companys new House are leaky and very much out of Repair, but as we apprehend a Difficulty in getting of Chunam sufficient to enable us to go through the other Works before the Rains set in we purpose doing nothing more to them at present than what we Judge will be absolutely necessary for the preservation of the Timbers, therefore forbear sending Your Honour &c^a. any Estimate thereof.

About the middle of last month we received Advices of Alla Couli Chawn's being ordered to quit the Government of Rajahmundrum and Elore and a few Days since news was brought us of the Arrival of a new Nabob, We have as yet heard nothing of his Character but flatter ourselves with the Hopes of being better used than we were by his Predecessour.

Inclosed comes Mr. Pitts Narrative of Allah Couli Chawn's proceedings with him concerning the Wreck of the ship lost near Upparra for which we hope Your Honour &c^a. will use Your Endeavours to get satisfaction lest it should incourage the present Nabob to follow his Example.

Mr.^cSaunders has indented for Ten thousand pagodas which your Honour &c^a. will pergeive by the inclosed Cash Account we are not able to comply with.

Since the Sumatra's Departure we have received 20 Bales of Cloth from Upparra the particulars of which are specified at the foot hereof, It would be a great pleasure to us if we could give your Honour &c^a. any hopes of our getting Cloth from Boney, but whilst Cotton continues at the price it is, there is no room to expect it.

Inclosed comes the paymaster's Acco^t. particulars of the Ships Sumatra and Success Galley's Charges at this place.

SIR

Agreeable to Your Order I here send You the Particular Account of the Treatment I received from Hossen Cooley Cawn Uncle to the Nabob of this Country, which stand thus, The 5th. of May last past in the Evening I received a letter from Hossen Allee Begg, Durruga to the Nabob (and who with Hossen Cooley Cawn was at Pittaporum) to Inform me that Hossen Cooley Cawn the Nabobs Uncle was very desirous to see me & wondered that as he had been so long near this Place, that I did not come and see him, and to Advise me to sett out Immediately, bringing something as a Present with me, Wherefore thinking my goeing there might be of servis to the settleing the Business of this Place upon a Good footing, as also of getting off a Batta that the Merchants Complained was taken on the Pagodas of this Place, I sett out hence for Pittaporum the 6th. in the Morning, and Arrived there in about 2 hours, where on my Coming I sent word to the Durroga Hossen Allee Beg that According to his Letter I was come to wait on Hossen Cooley Cawn, upon which he sent for me into the Iner Fort, to his Tent, where he received me after the Usual manner of the Moors, and after setting with him for the space of about an Hour I desired that he would be so good as to Interduce me to Hossen Cooley Cawn, which he did, as he also was in the same Fort, and on my Coming before him he received me as usual with those People, and accepted of the Present that I carried him, so that after setting with him some Time and laying before him all that I had to say, he called me to him to give me some Beetle, and (as I thought to give me leave to return home, but on my going to receive the Beetle he told me that he knew it was the Custome of Europeans always to speak the Truth to every thing that was asked them, and that he did not doubt but I would do the same, to what I should be asket by the Durroga Hossen Allee Begg, to whom I was ordered to goe and on goeing out with an Intent to return to the Durrogas Tent I was call'd back and Ordered to come to the Cutcharee, a Choultry, (or as they call it a Place of Justice) where on my coming I found the Durroga & several other People & being ordered to sett down the Durroga began to ask me several questions in relation to the ship that was lost, as what business I had to medle with her, as they had been Inform'd she did not belong to the English, to which I answered that she did, & on that Account I used my Endeavours to save what I could out of her, on which he ask't me why I did not apply to the Nabob, and not to the Rajah, as also why I gave the Rajah anything for his Assistance. To which I first answered him that my Chief Mr. Stratton had wrote the Nabob in relation to this affair and that he had sent him, his Phirmaunds to save

what he could, and more than that, sent a Coil Braminey, with several Horsemen and Peons to Assist me and Endeavour to get what they could, & to all whom I was oblige to Pay Twelve Rupees ₹ day Batty without being 12 Cowrees the better for them, and as to my given the Rajah a Part of what was saved, it was on Account that I was informed a great deal of money was Secreted by the People of this Country, about which If I was to have wrote the Nabob he would have sent several Horsemen & Delahoits, which would be puting the Towns to much Charge, as also be the Means of making many of the People run away, which would Exasperate the Rajah so as to stop the Companys Business, all which together with the I thoughts that it was better to Loose 1 than 3 Rupees Induced me to the giving the Rajah a $\frac{1}{3}^d$ of what was saved as I knew it was in his Power to make those People who had gott any thing Valuable to refund, and farthur that the same meathod had been used in relation to a Bengall ship lost near this Place, on her Return from Persia and by which means all that could be saved was saved. To all which the Durroga said nothing, but told me I must Produce the Account of what I had saved, which I told him was not with me, but that I would send my servant for it to Upparra, which, I did, but at the same Time Desired leave to goe to the House of one of my Merchants in the outer Fort which was granted, but under the Charge 6 or 7 Peons and a Jemedar, with Orders not to let me Sleep, Eat, Drink or write, as I had Ordered a Pen Ink & Some Country Paper to be brought in order to write Mr. Saunders, but that was deneyed me so that staying till about 6⁰ Clock in the Evening when my servant return'd from Upparra with the Account I was again hurreyed away to the Cutcharee where I was obliged to sett with a Parcel of Peons & People till about 10 at Night, at which Time the Durroga (who had been till then with Hossen Cooley Cawn) came, to whom I gave the Account wrote in Intues, upon the hearing of which read, he grew in a Violent Passion and abusing me, Told me that it was not the Account of half of what was saved, Whereupon he sent for the Braminey of a Town near which the ship was lost, and who was, not only Present at the geting of what Money was saved, but had also taken an Account of the same, but upon his coming & Produceing his Account which was found to agree with what I had just before given, he was ordered to be whipt, which was done very severely, after which he was Ordered to bring the right Account as they sayed that was Faulse, whereupon the Braminey, through Fear of undergoing another whipping soon made out an Account that Pleased the Durroga, Amounting to Nine Thousand Rupees in which I cannot but remember he Charged Nine Hundred Rupees for Old Lascars Cloaths, not worth Nine But to Proceed, After the Braminey had Produced his Second and Faulse Account, the Durroga Ordered it to be read to me, which was done, after which I desired to ask the Braminey if that was the True Account and if he would swear to it, to which he answered he wou'd, whereupon the Durroga useing his Former Foul Language of Calling me Name, Told me that, that was the Account which I must Answer, and that unless I brought him that Sum of Nine Thousand Rupees Immediatly he would whip me as he had done the Braminey just before, so that Finding all the Arguments that I could use to be of no Effect I went to Consult with my servants together with the servant from Ingeram (that I finding there had made use of as an Interpreter) who all told me that the giving the money was unavoidable, so that after goeing backward and Forward to & from the Durroga, and still standing it out, I found that nothing was to be don, but that after all I should be used more I'll and Obliged to Comply at last, I therefore told him that I had no money but desired leave to write to Vizagapatam, which he would not grant, but told me that he would be Favourable and that if I would bring him Seventeen Hundred Pagodas he would speak to Hossen Cooley Cawn on my behalf that I might have leave to return to Upparra, or otherwise by his God he would Use me as he had said before, & Confine me till I complied, so that finding no Reamidy was to be had I was obliged to send for the Money by my servant, with whom the Durroga sent Two Delahoits and on their return the Durroga sent an order for the money to be brought to his Tent, where I sent it with my Braminey, Dubash, and the Ingeram Peon, who went and layed it down before the Durroga who wanted my seal to put upon the baggs, but I told him I had it not, after all it being now between 9 & 10 O' Clock the Nabobs Unkle Hossen Cooley set

out on his Journey towards Datcharam so that I desired the Durroga that I might have leave to return to Upparra, but he Told me I must goe that days Journey to Hossen Cooley Cawn, and if he would give me Leave I might return, otherwise must goe to the Nabob, to all which I was obliged to comply, and sett out from Pittapore towards the Camp which was just on the other side of Samalacoatah where on my Arrival, I was still keep under the Charge of Six or Eight Delahoints, & a Jemedar, to whom I was obliged from the first Hour to Pay in all Ten Rupees ₹ day, Thus being kept Prisoner till about 3, o' Clock in the morning I was sent for to the Durrogas Tent who Told me that if I expected to have Leave to return, I must first sign two Papers that he Ordered to be Brought and read but being wrote in Persians, not any of my People nor my self could rightly understand the Purpitt, but by what we could Learn from their way of explaining it, it was something to Indemnify him and Hossen Cooley Cawn from their ill Treatment of me, so that finding that without my Complying in that also there was no likelyhood of getting Clear of them, to which must add that I was almost spent, haveing at that Time been keep without Eating Drinking or Sleeping for Two Days and Two Nights, I sign'd that also, After which the Durroga Promised to Carry me to Hossen Cooley Cawn, and get leave for me to goe, so that he went first to him, and after being with him 2 or 3 hours (all which Time I was obliged to stay without the Tent) he sent for me and first offered me some Cloaths, which I refused Telling him his good Intent was Enough, but my Servants Perswaded me that as the Takeing them was the Finishing, & without that I should be obliged to go with them to Datcharam I was at last Pervaild upon and took them, when being carried before Hossen Cooley Cawn he told me that I must not keep in my mind what had Past but that he would take care of my Business in Future, when giving me some Beetle as usual I took leave, and returning to the Durrogas Tent he after may [*sic*] Fine Promises gave me a Phirmaund in Hossen Cooley Cawns name that I might do as I thought Proper with the Effects saved from the ship, when giving me some Beetle I took Leave with an Intent to return Home but was stopt some Hours by Hossen Cooley Cawns & the Durrogas Servants who cost me near thirty rupees more, before the [*sic*] would let me stire from the Camp, but at last about 6 o' Clock the Third Day in the Morning, I gott away, and made the best of my way home where I arrived about Three in the Evening. Thus, Sir, Agreeable to Your Order I have given you the full Particulars of my ill Treatment from Hossen Cooley Cawn & the Durroga, and was I to add that from the meaner sort of People, such as Calling Names Spitting at & abuseing me and my People it would take up as much more as I have already wrote. But, Sir, I find that I alone ame not the only one who has had the Misfortune to be Treated ill by the Government, as by a Letter the other day from Ingeram, I hear the French Gentlemen (for the Affair of their servant of which I advised you before) have been Obligated to Pay Six thousand Rupees, for which and other ill Treatment they seem resolved to quit their Settlement at Yannam, their Merchant haveing sent away their Wives & Famillys and the Gentlemen their Effects. which reasolution if they Persue I hope will be of servis to the other Settlements. by letting these People know that Europeans are sensible when they are ill Treated.

This being all that I have to say on this Head have only to add my Humble request that You will be Pleased to represent it to the Gentlemen at Madrass. Being with Great Respect

SIR

Your Most Obedient & most
Humble Servant

HONBLE SIR & SIRs

Under cover of the 11th. Ultimo I inclos'd Your Honour & c^a. Duplicate Invoice and Bill of Lading of Sundrys Φ Sumatra, since which we have been alarm'd with the report of 30000, Morattas being at Paulwancha Baudalacherum a place about 15 omminum on this side Golconda this struck so great a terrom [*sic*] into the Country people that those of Metehlepatam put their effects on board Vessells, and had its continued a few days longer an entire stop to business must have ensued, but three days past we had the agreeable news of their being retir'd.

The latter end of last month our Nabob resign'd the Government and is succeeded by Oomar Cooley Cawn Brother in Law to Nizam who arrived at Rajahmundrum a few days afterwards, the affairs of the Government one not yet settled, but the rents which were last Year 270000 are now 300008 an advance'd so great upon a people allready loaded with Oppression that the Country must be ruind his Deran is Naugarou, Bucces Under our former Nabob, Affairs here at present are easy and my best endeavours shall not be wanting to continue them so.

The price of Cotton still continues very high but we have the prospect of a good crop this Season when I shall if possible correct the thinness in the Ordinary Cloth which the excessive dearness of that Commodity and the Miserable distitute condition of the Weavours has occasion'd.

Inclosed is Cash and Journal Parcels for last month. I am with great respect

We are favour'd with Your Letter of the 6th. Instant & two from Mr. Secretary Savage the first enclosing Invoice and Bill of Lading for Stores and the other advising of a supply of ten thousand 10,000 Pagodas which is not yet arrived.

We esteem ourselves very happy that our Contract with Andeapah meets with Your Honour &c^{as}. Approbation, as he has promised us one thousand 1000 Bales we hope we may depend upon his performance of the same as he is a Person generally look'd upon to be rather frugall than lavish of his Promises, unless as Your Honour &c^a. are pleased to Observe Something should intervene that cannot be avoided, and in such case we must submit though at present we see no likelihood of any Accident of that nature.

The Distance of Salem and the Different Government it is under to this are no doubt inconveniencies but as Andeapah has undertaken an Investment there on Mature Deliberation, we hope he will be able to Conduct it so properly as to procure our Honble Masters a Quantity, of what they are pleas'd to Order under the name of Porta Nova Cloth. He tells us he has sent eleven thousand 11000 Pagodas thither for this Purpose & as he is etseem'd a prudent Man as well as a responsible one we shall advance him as frequently as appears to us for our Honourable Masters Interest, and at the same time According to your Orders spirit him up to encrease the number of Bales of Salem Cloth particularly & what other parts of the Investment we can that will be consistent with Our Honourable Masters Interest which is at present what we have to trouble you with and that we are most respectfully

HONBLE SIR & SIRS

Enclosed is Duplicate of our Last sent @ Ship Mercury, and agreeable to what therein advised, we now dispatch to Your Honour &c^a. the Porto Bello Sloop with 800 Bags Salt Petre and 17 Bales Peice Goods, & 6 Leagers of Bengall Arrack Amo^{te}. as @ Invoice Enclosed to C Rup^s. 29732. 2. —

We thought proper to send these Bales and 18 more on the Bombay Sloop, as they Arrived too Late, to go on the Exeter, and may be of some service in case of Your dispatching a September Ship to Europe.

Having been obliged to take a quantity of Bengal Arrack upon our Honble Masters Account & meeting with a very bad Vend for it we have Laden 6 Leagers on each of these Sloops which we request Your Hon^r. &c^a. will dispose of for the Most it will yeeld and Credit us for the produce, If Your Honour &c^a. can dispose of a Further Quantity We desire you will please to advise us as in such case we propose to send some on the Sumatra, which Ship we presume will go from hence to Your Presidency in July or August.

Having taken into Consideration what part of the Treasure design'd for this Place (on the Arrival of the Ships from Europe) to have Coined into Rupees, We did not think proper to Come to any Determination till we could be at some Certainty in regard to the State of this Country, We shall therefore write Your Hon^r. &c^a. over land on this subject.

As We have a pretty large Quantity of Red Wood remaining in our Warehouse We request Your Hon^r. &c^a. will not send us more than 4000 M^{ds}. for this Ensuing Season.

The Sumatra arrivd here the 21st. of February and brought us Your Honour &c^{as}. Letter of the 9th. inclosing Invoice and Bill of Lading for Treasure, Wares and Stores laden upon her which were delivered in good Order.

We take particular Notice of the List of Investment sent us and shall give immediate Directions to our Merchants that they do not provide a greater quantity of fine Goods than is therein specified. We shall also have due regard to your Honour &c^{as}. Instructions about the 15000 Pagodas deposited here for the use of Ingeram Factory and shall use our best Endeavours to prevent the Merchants of each Settlement interfering with one another 'though we are sorry to say it is a thing has been so often attempted without success that we almost despair of effecting it.

The 14th. of last month we were advis'd that a body of Morattas were come to Paulansa Badratchelum the place of their rendezvouz two Years since, which greatly alarm'd the people to the southward, but not many days after to their joy and our surprize we heard of their being to the Northward of Chickacul, and that they had made some Attempts to plunder the Kill Rajah's but were repuls'd. Whether their design be upon this Country or to proceed to Cattack as is currently reported in order to reinstate Bachar Allah Chawn in that Subahship we are not as yet able to learn, nevertheless we think it behoves us to put ourselves in a Condition to repell any

Attempt they may make upon this Settlement, and for that reason we have thought proper to Augment our Military force by adding to it Ten more Topasses, and have given orders for Carriages to be made for the new Guns Your Honour &c^a. sent us down last year. We have also taken into pay 40 Lascars whom we have employed in removing Stones from a Rock on the North side of the Town whereon we purpose to mount the Aforesaid Guns which will be a great Security to the place, As this Business will be done in a very few Days and we should hear they have quitted their Designs of molesting this Country we shall discharge all Supernumerarys, and be particularly Carefull not to put our Honourable Masters to any farther Charge than there is an absolute Occasion for.

The Differences between our Nabob and the Gomesara Rajah are at last made up, and some are of Opinion when he returns he will call Vizaramrauze to Account for not Accompanying him.

We are sorry we can't as yet engage for any Number of Bales without having an Eye to Disappointments arising from Troubles in the Country or Cotton's continuing Dear either of which may probably happen and impede us in the performance of our Business, however as the Boney Merchants give us hopes of doing something ere long We take the Liberty to request Your Honour &c^a. will send us between thirty and forty thousand Rupees and a further supply of twenty thousand Pagodas.

The 29th. Ultimo imported here the Ship Mermaid from Pegue, On her came a Corporal and seventeen Topasses who being desirous of returning to Madrass We have advanced (for their travelling Charge) the Corporal eight and the Topasses four Rupees each.

Inclosed comes Diarys & Consultation, Cash and paymasters Accounts for last month.

I am to Acknowledge the receipt of Your Honours &c^{as}. favour of the 9th. Ultimo @ Sumatra to which I shall now reply.

Agreeable to the Leave you are pleasd to grant for the Fence &c^t. accommodations I shall immediately set about that work and be very carefull in the execution of it, in regard to the expence Materials and Cooley.

I am greatly oblig'd to Your Hon^r. &c^a. for the supply you are pleased to send me I am sorry the Ordinary Cloth proves so very bad which I shall use my utmost endeavours to rectife though tis with Concern I observe the Cheif occasion of this to be the prodigious advance upon the Country and badness of the Government so sensibly felt by the people that whole towns lie uninhabited the difference in the price of Cotton within these three Years is so great that I believe by a just calculation the Merchants cannot possibly be gainers by the Ordinary Investment, due regard shall be had to the List of Goods for 1744 and no endeavours wanting to induce the Merchants briskly to bring in Cloth.

Some time ago we were alarmd with the report of the Morattos entering this Province but since hear of their having been at Narrain Gattu a narrow pass near Chickacull from whence after a small skirmish with Kistna Diu they are retreated, I have desired the Gentlemen at Vizagapatam to be constant and particular in their advices on this occasion, and upon the least surmise of their return shall take the best methods I can for the security of our Honble Masters effects.

HONBLE SIR & SIRs

The Sloop Experience arrived here the 7th. with the Honble Company's Money and other Effects agreeable to her Invoice; I have read the List of Investment with the Orders relating there to and shall endeavour to Obey them as far as the Obstacles that lye in my way will permit me; and as by the last Invoices that went hence it might be reasonably concluded that either here were a great many such or I had been very negligent, I think it fit the board should be informd why the Business has gone on so heavily lately. The Honourable Company demands Ordinary Cloths by which sortments their Merchants now a days get little or nothing especially when Cotton is at forty Pagodas the Candy as was the Case this last year and in a Country depopulated with Oppressive Government more than was ever known before, in consideration of which I agreed to take so many Corge of Fine Cloths (whereby they get somewhat more) along with so many Corge of Ordinary; the former they brought in but very little of the Latter and that extremely bad, whereupon I came to a resolution to keep to the proportions stipulated with them as the only inducement that could Answer the Honble Company's demands; and as they brought in no Ordinary I would take in no Fine; I have us'd all my endeavours and shall continue them, but should the ensuing Investment prove as the last be pleas'd to impute it to the same cause, as I hope Your Hon^r. & c^a. have no reason for an unfavourable Opinion of my Management, and continual Excuses are trifling and impertinent.

The Morattas it seems were entering this Country which obliged Mr. Andrews in my Absence to Freight a Vessell for the Company's Effects as enterd in the February Accounts now enclos'd, but as they are gone to the Northward, I have dismiss'd the other Vessell in obedience to your Orders under the 27th. February, and shall follow the rest being with great Respect

We are very sorry to Acquaint Your Hon^r. &C^t. that Yesterday Andeapah sent us word, that on the arrival of his Gomasta, with the first Parcell of Money, at a Place Called little Salem, a days Journey from great Salem, the place where he was to make the Investment of the Porto Nova Cloth; he was advised by great Numbers of people who were fled from thence, that there had been 20000 Morattes who had plunder'd the Country, & drove the Inhabitants out of it; that tho they were then divided & part of them gone to Tritichianopolly there was yet about 5000 left at Salem who Continued their Depredations, & Rendred it utterly unsafe to proceed with the Company's Money, which they advise us they brought back, & is safely Arrived at Portonova, which is a great Satisfaction to us as it is that by their Accounts we have Yet hopes that these troubles will subside, & that there will Lie yet an Opportunity of doing some business there, tho this is a very great as well as an unexpected Disappointment, especialy as we are Informed there was a large Quantity of Cloth ready made in the Weavers hands, waiting for Purchacers which they are now plundred off.

We are Informed the Dutch Settlement at Negapatam is surrounded by the Tanjore people on Acco^t. of a former dispute & that the French at Correcall are alarmed at it, & have sent to Pondicherry for Assistance, on which M^r. Dupleix has sent 3 Ships 2 Sloops 100 Soldeirs & 50 Peons with Amunition.

Your favour dated the 7th. Instant We received the 9th. We do not hear of any disturbances in the Country at any other Place than Salem, every where else the Investment seems to go on without any interruption and Andeapah promises he will Supply us with about six hundred 600 Bales by the end of August in case Your Honour &c^a. should think proper to send a September Ship. We request you will be pleas'd to send us a Supply of ten thousand 10000 Pagodas.

The Ship Dauphin belonging to the French Company imported at Pondicherry the 5th. Inst^t. she left France the 5th. October. The best Account we have from Pondicherry is that she landed there at one time 47 & at another time 49 of their Chests of Silver, some Stores & Ammunition & a large Quantity of Liquors; The Forces they sent to Carricall we are informed have done the Country People considerable Damage having at one time killed 350 of them and are continuing there to take further Satisfaction.

The Boat House, Carpenters Yard & other small Necessary Buildings being pull'd down in the Year 1741 when the Moratta's were near us & none being since erected for the Uses they were put to, the Boats lying bare upon the Banks of the River & the Workmen working under Cadjan sheds which are not only very inconvenient to them but also lyable to Fire. We beg leave to represent to Your &c^a. the great Necissitys we are in for such Conveniencies, We have pitch'd upon a Spot of Ground where the old Boat House stood to the Westward of the Fort near the Riverside, as the properest Place for such a Design, but the Freshes have for two or three Years past greatly fill'd that part of the River with sand which it must be cleared of & the Bank well staked. The charge of which with the Buildings we compute will amount to near four hundred Pagodas This being so Necessary a Work we earnestly beg Your Hon^r. &c^{as}. Permission to set about it as soon as Possible.

Enclosed we send Your Honour &c^a. our Accounts of Expences for February, Consultations, Warehousekeepers Account of Cloth brought in & Cash Account for last Month the Ballance of which is Twelve thousand nine hundred sixty Pagodas twenty eight fanams and Forty One Cash 12960. 28. 41.

We have received Your Honour & c^{as}. favour of the 24th. Ult^o. & according to the Permission therein given us we shall set about building the Boat house & c^a. and shall take all the care we can that it may be done with as much Frugality as possible & that it be built strong and durable.

We shall likewise do the best we can for our Honble Masters Interest in regard to the Carolina Sloop.

By a Person that has been sent to Salem on Purpose to enquire into the State of that Country we have but a very bad Account, That the Place has been entirely evacuated & Plunderd only the Fort & one or two Houses remaining. That the Forces are retired some small Distance from thence but the People that are in the Fort live in a continuall dread of their returning, & that there is no likelihood of any Business being done there as yet.

The Neptune Cap^t. Le Bode Pere arrived at Pondicherry from France the 28th. Ult^o. by our Accounts from thence She brought 122 of their Chests or Casks of Bullion on the Companys Account and a Couple on private Accounts.

We have received Your Hon^r. &C^a. Favours of the 22^d. July, 11 & 26th. August & 2^d. February.

The Warwick Captain Robert Misenor was dispatched hence for Great Britain the 20th. November & the Princess of Wales Cap^t. Thomas Harry the 24th. Jan^{ry}.

We perceive Your Honour &C^a. are Acquainted with the loss of Ship Princess Louisa and by private advices overland we learn the Winchester was lost on the Coast of Brazill but the People and Cargo Saved.

The St. George Captain Robinson from Bengall arrived here the 4th. Instant and Sailed for Surat the 7^h. She will be returned directly from thence with a Loading of Cotton, But we have not yet heard of the Winchelsea's being on this Coast.

The Hardwicke Captain John Hallet Commander, Mess^{rs}. Hyde, Hadley, and Pinnell Supra Cargoes imported here the 31st. Ultimo from Great Brittain, and according to the Honble Companys Orders is now Dispatched for China having taken on board Three hundred Bales of Cotton, and is to receive at Tellicherry Six hundred Candies of pepper and Some Sandall wood if procurable, her whole Stock being to be made up Two hundred Sixty thousand Rupees.

We now dispatch the Montagu to Bengall with Two hundred twenty Bales of Cotton from this Place, and at Tellicherry there are Two hundred eighty Bales more, but as the Advices from thence give us hopes of a Considerable quantity of Pepper, We have left it to the Chief and Factors to put on board what can be spared, reserving a proportional quantity of [Cott]on or to fill her with Cotton as they shall think most for the Hon^{ble} Companys Interest.

We congratulate the Honourable Nicholas Morse Esq^r. on his Succeeding to Your Presidency and doubt not affairs both Publick and Private will prosper under his Management.

We shall duly Credit your Presidency for what Advanced Captain Dunster at Vizagapatam.

Being Obliged to wait for M^r. Pitt's Answer to some particulars relating to the Ship Jaggernaut Persand is the Reason We have defered thus long replying to Your Honour &c^{as}. Favour of the 23^d. March. We are now to Acquaint you that M^r. Pitt took charge of the Wreck upon the Application that was made to him by the Mate of the said Ship in behalf of M^r. Cotesworth Chief at Ballasore whom he said was one of the Owners and M^r. Stratton on the same Account applied to the Nabob and obtained his Phirmaund for the Security thereof. After this the peddaporam Rajah laid Claim to the Wreck, and M^r. Stratton thinking it more for the Interest of the Owners to Accommodate Matters with him than Complain to the Nabob of his Behaviour signified the same in a Letter to M^r. Pitt, and the Terms they agreed on were that the Rajah should receive a third part of all the Money and Gold Dust that was saved which he accordingly did, The Nabob some time after hearing what had passed sent for M^r. Pitt to Pittaporam and told him that though he had given his phirmaund for the Security of the said Wreck he had been since informed the Ship

did not belong to the English, and what confirmed him in the Belief of it was our coming to the abovementioned Terms with the Rajah, which he said we had no Occasion to have done after receiving his Phirmaund: Now whether Mr. Cotesworth was a party concerned in this Ship or not we cannot pretend to say but that Mr. Pitt received Letters from him concerning the Wreck we are well Assured of, and as Mr. Stratton by whose Order Mr. Pitt acted is now in Madrass We think it is in his power to set this Affair in it's true Light. Inclosed is a Copy of Mr. Pitt's Account of what was saved and what is now remaining in his hands with the Amount of each particular as they were then valued, but 'tis probable the Coir may have received Damage by lying and not worth so much at present therefore if Your Honour &c^a. Approves of it will Order that and the rest of the things to be sent hither and valued a second Time before we enter them on our Books.

In pursuance to Your Honour &c^{as}. Orders We have considered on what Mr. Stratton has wrote concerning the Additions he thinks Necessary to be made to the Fortifications of this Garrison as well as Repairing some other parts thereof, and shall now reply to the several particulars as they stand in his Paper.

First We are of Opinion the Houses lying between the Fort and the Sea Side ought to be pulled down for the Reasons Mr. Stratton has given, also that a Battery fronting the Fort, In Case of a War with any of the European Powers will be very usefull, but otherwise of no signification.

Upon removing the Stones at the Black Rock in order to mount 3 of our new Guns as mentioned in our Letter of the 4th. Ultimo We perceived a Battery might be raised thereon at a very small Expence and considering the great Security it would be of to the place We resolved that the same should be set about which being now compleated amounts to no more than Rupees 495 $\frac{1}{4}$. This Battery Commands the passage place as well as covers the greatest part of the Town and is by far more Serviceable to it than any that has been hitherto erected therefore We flatter ourselves Your Honour &c^a will not disapprove of what we have done.

The powder Magazine lying so near the River in the Time of the Freshes is very damp, but as the Battery at the Black Rock puts it out of all danger of being Surprised, and a Guard House having been built within 53 Yards of it not longer ago than last June where a Corporal and 14 Men are constantly kept We think there is no absolute necessity of putting our Hon'ble Masters to the Charge of building another, but should Your Honour &c^a. think otherwise We are of Opinion that the rising Ground near to the Guard House is the properest Situation for it.

A Godown to keep the Company's Stores in is greatly wanted and the Walls of the old one by the Riverside are so decayed that 'tis impossible to make them serve again.

The Terrass of the Fort House is so leaky that there is an absolute necessity of repairing it before the Rainy Season comes on and as the Expence will be but small We hope Your Honour &c^a. will not be displeased if we should set about it.

Since Mr. Stratton thinks the Work We sent an Estimate of with our Letter of the 11th. February may be done at a Cheaper Rate We beg Your Honour &c^{as}. Leave to remark that Benyon's Battery and Middle Point erected in the Year 1742 with a very small Addition to Martins point amounted to Pag^s. 1128. 22. 40 the first is of very little Service to the place and the Second none at all, and instead thereof if only a Wall had been run from Martin's Point to the Mettah Gate, another across the Rock upon which Benyon's Battery is built and the platforms on each side the Mettah Gate raised a proper height the Town would have been equally as secure, and the Charge of doing it added to that of rebuilding the Seaside Battery would not have exceeded that Abovementioned Sum.

Having now laid before Your Hon^r. &c^a. the most material Repairs of this Garrison We beg leave to refer you to the enclosed paper delivered us by Captain Tornery for some farther Particulars which he think necessary to be done.

As We apprehend it will be a difficult matter for us to make a Just Calculate of the whole Cost, and as Your Honour &c^a. has been told that no body here is Capable of forming a Plan of the Battery proposed to be erected fronting the Fort We hope you will pardon our not sending an Estimate as you directed us, but if Your Honour &c^a. thinks proper to repose a Confidence in us our best Endeavours shall be used to make the Expence of what you shall be pleased to order to be done come out as little as possible.

Herewith come two Indents for Wares and Stores wanting at this place which We request Your Honour &c^a. Compliance with when any proper Conveyance offers.

Inclosed comes our Diarys and Consultation Cash and paymasters Accounts for last month.

We are with the greatest Respect

HONBLE SIR & SIRs

TO THE HONBLE NICHOLAS MORSE ESQ.^r.
PRESIDENT AND GOVERNOUR &C^t.
COUNCIL OF FORT ST. GEORGE.

HONBLE SIR & SIRS

We have just now received Your Honour &c^a. Favour of the 14th. and a few days since what You were pleased to send us with the 30 Recruits which came here the 12th. The Serjeant and Corporal are on their way back again.

We Yesterday made a Contract with Irshapah Chitty for 400 Corges of Salampores at Pag^s. 20½ ₹ Corge brown and $\frac{1}{2}$ Pagoda Commission which is $\frac{1}{2}$ Pagoda cheaper than Andeapah would Contract for, they promise these 100 Bales to be compleated in August and give us hopes of a further Supply by Jan^{ry}., but are to give us a more certain Account of this in about 15 days.

Our Merchants having a pretty large Quantity of Turn'd out Cloth upon their hands we have discoursed them about resorting & taking in some of the best of it at an Abatement in the price, they seem'd for some time unwilling to consent to any abatement but the Cloth being resorted & we having picked out 407 p^s. of Chemanaickpollam & 247 of the Worriarpollam which (though somewhat inferiour to the lowest Number) we think equal to the prices they offer to let us have them at Viz^t. 44 Pag^s. ₹ Corge for the former & 43½ the latter we are to desire the directions of Your Honour &c^a. herein it's should You not think proper to Accept the Offer we beleive the Merchants will find a ready market for it, elsewhere.

The Arrival of two French Ships so early as April with a large sum of money on them has enabled them already to begin an Investment at Pondichery to the detriment of that of our Hon'ble Masters but as our Merchants have had so early and so large an advance even in such Manner as they themselves have desired we hope they have in return for this indulgence put our Investment in such forwardness as not to be much prejudiced by what the French now order.

HONBLE SIR & SIRs

The King of Travencore having been very pressing with us to gett him Credit for five thousand Surat Rupees (5000) at Madrass to provide him some Looking Glasses and other furniture for a pallasce that he has lately built and having paid us down one thousand Rupees and given an Obligation for the remainder of that Sum when received at Madrass we must request Your Honour &c^a. will pay the bearer that Sum of five thousand Rupees and Charge it to Bombay Presidency, & that when he the bearer has bought the looking Glasses &c^a. that your Hon^r. &c^a. will lett him lade them on any Ship bound to this Coast in October but should you not have an October Ship for this Coast please to inform the Bearer and probably he may give over his Scheme and not provide the Glasses &c^a. nor receive the Money.

We should not have proceeded in this irregular manner of drawing on Your Presidency for Money did we not apprehend that our refusing the King this small favour might be attended with ill Consequences to our Honble Masters Affairs at this Settlement, for the King of Travencores late Success against the Dutch has made him very absolute & he woud but ill brook a refusal of this nature.

Our Last to Your Honour &C^a. was by the Bombay Sloop under date the 29th. February Duplicate whereof comes enclosed.

We are now to Acknowledge the receipt of Your favour of 9th. February @ Sumatra, which Ship arrived here the 15th. Ultimo, by her we received the two Chests of Rupees the produce of the Dutch Dollars sent you by the Montfort which on surveying came out right We are sorry the Sumatra's late arrival wou'd not admitt of our giving her the necessary repairs and dispatching her directly back to your Honour &C^a. but We shall return her as soon as the Season will permitt with the Patcharee Rice and the several Stores You have been pleased to Indent for for the use of the West Coast, and We shall bring to your Credit the Amount of the Freight Laden on her agreeable to the List received.

It is with great Concern We are now to advise Your Honour &c^a. of the Confusion this province is in Occasion'd by the return of a very Considerable Army of Morattoes under the Command of Boscarpundit who made himself Master of the City of Cuttack and from thence march'd into this province and by the advices we have had of the progress of his Army he must by this time be very near Muxcidavad We learn from the Gentlemen at Cossimbuzar under Date the 28th. past that Allybey one of Boscarpundits Officers with a thousand Horse pass'd by their factory that day and was gone to the Nabob (who lay with a Considerable force encamp'd at Lolbog) with terms of Accomodation but it was much doubted whether they were such as he would accept of, but in case he should think proper to come to any terms with these people we have the strongest reasons to beleive we may meet with a disappointment in the sale of our Hon'ble Masters Bullion by the Mints being shutt up as was the Case last Year for some Months after the Morattoes quitted the Country wherefore We are to Request Your Honour &c^a. will please to Coin all the Bullion that may Arrive by any of our Honourable Masters Ships this Season design'd for the use of this Presidency, and send us two thirds in Arcot, and one third in Madrass Rupees.

We are obliged to your Honour &c^a. for the News you give us of the Haislingfield & Harrington and of Commodore Ansons Success.

It will be a great pleasure to us to find by Your next that the treaty which Nazer Mul Mulk and the Morattoes were entering into is Concluded as we hope it will dissipate all fears and occasion Your provins to Continue in quiet.

HONBLE SIR & SIRs

The favour you did us the 10th. & 11th. Instant we have received and the Supply of 10,000 Pagodas arrived safe with the Latter We have likewise the pleasure of M^r. Secretary Savages of the 13th. Advising of a further Supply of the like sum which we shall send Peons to meet.

We have given the necessary Orders in relation to the Washers and Beaters, and hope that there will be no delay in the Investment on that or any other Account.

We are thoroughly sensible of the difficulty Your Honour &c^a. lie under on Account of the scarcity of Gold, and have not, and shall not write for supplies till absolutely necessary, We have immediately advanced Andeapah this Ten thousand Pagodas, whose Ballance was reduced to less than it was at the begining of the Investment; he proposes to bring in Two hundred Bales the beginning of this Month and We hope he will Continue to supply us briskly in future. We have now six hundred Bales in hand, and the Merchants are about Thirty thousand Pagodas in Advance, besides what is advanced for the Salempores, which we mention that Your Honour &c^a. may form a Judgement of what further supplies will be necessary in order to Accomodate Your Provision to Our Honble Masters Interest.

By Our Advices from Pondicherry we are informed that the Bourbon which Ship imported there the 7th. Instant has brought 119 Chests, and 11 Casks of Silver, each Chest computed to be worth about Two thousand five hundred, and each Cask Three thousand Pagodas, which is Ordered to be coined into Six hundred & forty thousand Rup^a., she brings advice that there are three Ships more expected from Europe, of which one is for that place the other two for Bengall. Our Advices further add but we know not what to make of it, that the Company have ordered all their Debts to be clear'd in India because a New Company is going to be erected & this to be withdrawn.

On the 4th. Inst^t. we sent for Nella Tomby, Irshapa Chitty and Shacup Tomby to demand half their Ballance as the Six Months time of their Indulgence was expired they said they had Petitioned for 12 Months and that they have Accounts to Settle with the other Partner who is at Madrass, and being then told it was proper they should go thither to settle their Accounts they made many Objections thereto thô it was what they themselves proposed a few days before.

We Observe Your Honour &c^{as}. Permission for taking in what turned out Cloth we shall think proper for Our Honble Masters purpose, which we shall make what use we can of to their Advantage, and advise your Hon^r. &c^a. of from time to time.

The French have ordered a Large Quantity of half Pieces for Blue Cloth at Chinamanaickpollam, and take almost anything they make which has engaged some of the Weavers from making our Cloth, they are likewise contracting for Long Cloth there & have offered higher prizes than we give which makes our Merchant uneasy and complain but we'll do the best we can.

In Answer to Nella Tomby &c^a's excuse for not paying the Company's Ballance, we beg leave to refer Your Honour &c^a. to him as he purposes to set out for Your Place in a Day or two; and Irshapah Chitty and Shacup Tomby say they will do so in a few Days after him.

Since our last by the pulteney we have received Your Honour &c^a. Favour of the 26th. April, with Copy of two Paragraphs of the Hon^{ble} Court of Directors Commands relating to the Edgbaston, as also List of Ships Arrived, and of those taken up for India.

The St. George imported from Bengall the 4th. of April and proceeded to Surat the 7th. for Landing her Cargoe, from thence she was dispatched the 11th. May. The Winchelsea Arriving here so late as the 26th. April we apprehended it too great a risque to send her to Surat, and therefore with consent of the Freighters landed their Goods here, with the other Articles of her Cargo, and reladed a quantity of Cotton with which she proceeded to the Bay on the 13th. May.

The Augusta imported here from Mocha the 7th. Instant and brought us a Letter from the Supra Cargoes of the Edgbaston who arrived there the 3^d. May. They write us they are Apprehensive they shall not be able to purchase more than two thousand Bales of Coffee. By the above mentioned Copies of the Paragraphs sent us by your Honour &c^a. we perceive, should only that quantity be purchased and we have not Sufficent Tonnage, it is to be consigned on some other Ship to your Presidency, but as we cannot expect the Edgbaston to Arrive before the beginning of September, and some time will be required for transhiping the Coffee to another Ship which cannot arrive with you in time to receive any Goods, we shall therefore compleat such ship's Tonnage and dispatch her directly to great Britain.

The President & Council of Bengall not being able to dispose of the Success Galley, returned her hither ordering her to call at Tellicherry she left the Pilot the 26th. Febr'y. and arrived at Tellicherry the 20th. April from whence she sailed the next day but did not reach this Place till the 15th. of May.

The Success Galley having lost an Anchor at Vizagapatam, in case the same be found, we desire it may be sold, and this Presidency credited for the Amount.

The Inclosed Packet for the President & Council of Bengall, we request Your Honour &c^a. will forward by the first Opportunity.

Enclosed Your Honour &c^a. have Triplicate of what wrote you under the 5th. In regard to the Deficiency of the Salt Petre by the Bombay Sloop we shall adjust the same with the Master of her, this we have not been able to do as yet as he has been obliged to be down, the River waiting for the Honble Company's Shipping.

We shall have due regard to the List Your Honour &c^a. have sent us of such Articles as you believe are most wanted at the West Coast when We dispatch the Lapwing thither.

We advised Your Honour &c^a. under Date the 7th. April last, that we had wrote to the Gentlemen at Ballasore in regard to the Ship that was Lost at Uppara said to belong to Mr. Cotesworth in Answer to which they Advise us that the said Ship belonged to Gopenaut add, the Company's Merchant at that place, and that the Respondentia Creditors were Mess^{rs}. Davis and Cotesworth, the former for 3000 Rup^s. and the latter for 5000, but on enquiry of Mr. Davis he tells us he had only 1000 Rupees on her at Respondentia, and has never received any Salvage, The Gentlemen at Ballasore have sent us the following Letters Viz^t. SIR

Your Favour of the 10th. Ult^o. came to hand And it is with great Concern that I am obliged to inform you of my haveing latly mett with much Trouble on Account of the Ship that was lost near this Place, The Moors Government of this Country

haveing (under a Pretence that she did not belong to any Gentlemen, but to some black Merchants in Beng[al] & that as such I had nothing to do with her) demanded the Sum of 1700 Pagodas which according to the Exchange of this Country makes 6375 Rupees, and which Sum after much Trouble and Imbroiling the Companys Affairs I was obliged to give them, being as they Pretended only a Part of what was saved, & saying that they had much befrended me in not taking more. But, that what they have taken is far beyond the Amount of what has been saved, & was in hopes You, and the Owner, would have been Informed from one of the Mates (Daniel Simon) who I kept here till nothing more was to be gott, with a view that he should be able to give the Owner a Satisfactory Account, as well as vendicate me, but I am sorry to find he has not done either, as appears by your writeing that you have been Informed of the Hulls being allmost dry, which was broke to peices in few howers [sic] after She Struck the Ground. As the Treatment I have mett with has been represented to the Gentlemen of Madrass, & as yet no Answer return'd. I must be obliged to desist haveing any thing further to do in this Affair untill the receipt of Orders from thence, but shall not fail to take all Possible Care of what has been saved, and of imbraceing the first Oppertunity to advice You of the Orders I receive. Had that Matt Daniel Simon acted as he ought he would have informed the Supercargoes Mother of the Death of her Son, & not have given her the Trouble of Sending a Pair of Peons, who by their Foolish talk that the Ship belonged to Needaram, gave the Moors a handle which otherwise they would have been Stranger too.

As I doubt not but that You will be so good as to Advise Gopanaut of this Affair has been the of my not writeing him.

As I design myself the Pleasure of writeing You by the next Conveyance have now only to add my Wishes for Your Health & Success and am

TO THE HOÑBLE NICHOLAS MORSE ESQ^R.

PRESIDENT AND GOVERNOUR & C^T. COUNCIL OF FORT ST. GEORGE.

HOÑBLE SIR & SIRS

We have been favoured with your Several Letters of the 26 June 4th Winchester 30th. d^o. 4th Montague and 9th. Ultimo by the Durrington with the several papers and Packets mentioned therein.

We are much Obliged for the Supplis of Rupees by the above Ships which have been duely surveyd and found to come out right excepting in Chest N^o. 256 by the Winchester which came out three Rupees Short.

We remark that Your Honour & c^a. have taken out the Copper by the Prince of Wales and entend sending it us on some after Conveyance.

In Compliance with Your Hon^r. & c^a. request we would have filled up the Sumatra with Patcheree rice but that Sort (as well as all others) having been so excessive Dear and Scarce we have not been able to procure it therefore determined to lade on her such Rice as we had reserved for our Garrison in the late Troubles. and are now dispatching her to your honour & c^a.

We observe that you have taken out the Pepper designed us on the Montague and the reasons given for it We shall demand the difference of what Invoiced from Tellicherry and landed at Your place of Captain Freeman if not to be found when the Ship is unladen.

As Yet we have no News of the Duke of Dorset had she been Arrived we Should have complied with Your Honour &c^a. request in regard the Guns and Medecines on board her for Your place.

Being Informed by private hands that the Gentlemen at Bombay had a very Extraordinary Quantity of Pepper provided on the Mallabar Coast We came to a resolution to propose to them to send as many of the Ships Consigned Us as there would be sufficient of that Article to full them up with and to be dispatched directly from thence to Europe before the receipt of this The President and Council at Bomboy had given direction to the Gentlemen at Tellicherry to advise Us what Quantity of Pepper they should have remaining In Consequence of which they wrote Us they should have Two Thousand five hundred Candys after supplying the hardwick and reserving a Quantity for next Years Shipping Finding this sufficient Tonnage for two Ships we have determined to send Two thither lading on board them their Charter party proportion of Redwood and Salt Petre of which the Enclosed Packet is to advise the Gentlemen at Tellicherry therefore request Your Honour &c^a. will please to forward it thither by Cossids with the Utmost Expedition.

It is with great Concern we are to Acquaint Your Honour &c^a. of an Entire Stop being put to our Investment by the Nabob who has made a very Exorbitant Demand on Us as well as on the French and Dutch. Our Gentlemen at Cosseimbuzar are now treating with his Ministers in order to Accomodate this Affair which We apprehend cannot be Effected without paying a large Sum of Money. The return of the Marrattoes in the beginning of the Season and this unfortunate Affair have already done great prejudice to our Investment and till this is finished we cannot be at any Certainty what Number of Bales we may expect from the Subordinate Factorys or from the different Aurungs where our Merchants Gomastahs are Employed.

This Waits on Your Honour &c^a. by the Mercury and we have delivered the captain of her a Box packet for our Honble Masters which you will please to forward to them by your September Ship Duplicate of this goes by the Sumatra which we likewise desire you'll forward by the other September Ship in case you dispatch two if not by one of your Ships in January.

HONBLE SIR & SIRs

The 16 . ultimo we received Your Favour of the 20th. June Duplicate of which came to hand the 1st. Inst^t.

We observe Your Honour & c^a. Orders concerning the Wreck of Ship Jaggernaut Persand and have wrote M^r. Pitt in Case he should not have an Opportunity of sending it hither before the Monsoon Changes to make an Outcry of it there giving the French and Dutch Notice thereof.

The great quantity of Rain that has fallen here of late has made our Washers so backward in their Business that we have been afraid to deliver them the Fine Cloth Your Honour & c^a. is desirous of having half washed lest on that Account we should be obliged to detain the Ship longer than Your Honour & c^a. might approve of.

A few Days since we received advices from M^r. Pitt at Upparra that the French have received a farther Supply of seventy thousand Rupees and twenty thousand Pagodas and that they give at least ten Rupees ~~per~~ more than we do for their Ordinary Long cloth and six more for their Ordinary Salampores and as his People tell him very ingeniously that they can no longer afford to bring in Ordinary Goods We don't believe it will be possible for us to send up forty Bales in December unless Your Honour & c^a. should think proper to take off the Restriction You have been pleased to lay us under in regard to the Fine Cloth.

Herewith comes our Diarys and Consultation Cash and Paymasters Accounts for the month of June also a packet from the Presidency of Bengall.

HON^{BLE} SIR & SIRS

Enclosed is the Invoice and Bill of Lading for the Hon^{ble} Company's Goods now sent on the Morton, who would have been dispatched from hence at the time you were pleased to appoint, had not the excessive Rains which have continually fallen for some time past, made it impracticable either to Congee or dry the Cloth which lay with the Washermen, and a good Part of it that had been Cur'd at the time when the Tanks were Allmost Empty became so Yellow that, I have been obliged to Wash out the Congee again since the Freshes have again fill'd them so that no Part of this Invoice is entirely Cured.

The Remains of Last Year's Contract for Chay Goods have lain ready at Metchlepatam with a Boat to transport them from thence hither for a long time, but the New Government there which is not so favourable to our Affairs as Emawm Sahib was, have deny'd me permission to Shipp them off under a Frivolous Pretence that they must have the Fouzdars Orders for it and he is engag'd in a Quarrel with Some Polligars to the Southard of the River Kistnah so that I can do no more than [en]deavour to Mollify them against December.

There are fifteen Bales of Cloth in [the] Invoice which I have inserted as midling; it was a Parcell of very bad 23 Punjum Cloth which I turn'd out upon the Merchants and has lain on their hands a long time so that some of their Ballances was wholly swallow'd up in it; and thinking it most for the Honble Company's Interest to have them eas'd of that Burthen I took it off and enter'd it according to its Value and hope Your Honour &c^a. will Approve of my having done so; as also of my sending up a Bundle of Chints Ordinary intended for a tryal; the Cloth is rather too Coarse so that it has been impossible to prevent the Colours from running, but I have Orderd some to be made finer which shall be painted against January.

From the 1st. (When I wrote last) to the 6th., the Morton has been detain'd by the Freshes, and now one Mahmud Beag whom the Government at Metchlapatam has sent Fouzdar of Narsapore pretends to Stop the Bales a whole Season as he did once before in M^r. Goddard's time. He demanded contrary to all Custom, Juncan on a Cargo of Grain that I have provided for her Owners and which had allready been paid to the Government at Mogeltoor by the Persons who brought it to the Factory, but rather than impede the Company's Affairs or on the other hand, be the first who should give the Moors a Precedent for infringing our Priviledges or using our Nation worse than they have even hither to done, I chose to let it lye here, and Ballast the Vessell with Sand by this means having warded off all his Pretences, I applyd several times for his Order to the Pilotes to Carry her over the Barr but he absolutely

refuses it ; Wherefore that I may obey Your Orders under the 23^d. July and not lose the Tides on this full Moon after which it will be unadvisable to dispatch the Vessel over the Barr I have Order'd the Master of her to take that charge upon him, and have assisted him with the properest Persons and Boats I can get for that purpose. I have also sent a Protest on the Occasion to this Man, to the Fouzdar of Metchlapatam, and a third to a Body Calld Coupaneese & Wakaneese appointed at Metchlepatam to give Golcondah intelligence of all transactions there ; that they may not be ignorant of the extremities I have been drove to should Your Honour &c^a. think they merit a representation to a Superiour Power.

The Honourable Company's Merchants at this Factory having severall times represented to me the difficulties they Lay under as to the Ordinary Cloths and that as Cotton bore such a high Price it was impossible for them to deliver them According to the Present Allowances without becoming Bankrupts; I did not however think proper to trouble Your Honour &c^t. with their repeated Remonstrances till I could well inform myself if they were well Grounded, and finding that even the Dutch are at this Juncture obliged to Vary their Politicks and not only Advance the Prices but even what they allow is now paid their Merchants in Madrass Pagodas instead of Porto Novo ones as formerly, and the Diff^{ty}. of Batta reckon'd at 5 & Cent instead of Nine which is their Current Exchange in this Country I say finding a People so averse to innovations in these Points oblig'd now to give way, I think it reasonable to represent the Case to Your Hon^r. &c^t. and request that You will be pleas'd to Allow them something more on the Ordinary Sorts.

HONBLE SIR & SIRs

About ten days ago the Nabob of this Country sent me an Order by two Peons to send the Honble Company's Maldaar to his Camp, which I did; and he has wrote to me as follows. That the Nabob requires me to buy Five hundred Teak Timbers of him, and upon his remonstrating the unreasonableness of such proceedings he was Answer'd if the Europeans staid in the Country they must do so, some more some Less, that if I refus'd to take them he would find People to lay them in the Factory and take money for them afterwards, and if they chose rather to leave the Country

they might do so, lastly that I having taken three hundred Timbers in Alla Coche Chawn's time, I must not refuse to releive him of these: it is true that I did so with a View of keeping matters quiet and easy without troubling the Board on such an Occasion; but I did wrong for the Honble Company's Affairs and my own too as Appears by the consequences and their lying still upon my hands; I therefore beg I may have your Honour &c's Positive Orders concerning this Affair as soon as possible I have related circumstances without venturing to insert my own Reflections, but I cannot help humbly begging leave to observe further, that if we Accomodate matters thus with these Nabobs the Honble Company will very soon be furnish'd with more Timbers than Bale Goods; unless we will patiently stand the Brunt of all their insults and Afironts as the Dutch did in the East Government who indeed thereby now escape Scott free; in truth we are not now much better us'd than they were, the Ingeram Vackeel has been beat and Buffeted one of the Merchants Plundered the Maldaar of this Factory as well as that is now a Prisoner and they have impos'd Paddy on the Washermen and other Servants here at such a Rate that they are all run away.

HONBLE SIR & SIRS

We have not since our last been favour'd with any Letters from Your Honour & c^t.

The Edgbaston Cap^t. Stephen Cobham Arrived the 1st. Instant from Mocho with a full Loading of Coffee, and the 10th. Instant the King William Captain Joseph Phillips directly from England, she left Portsmouth the 23^d. April.

The Grantham homeward bound from Bencoolen was lost with her Cargo off Folkston, and the Nottingham designed for this place was lost off the Isle of Thanet but her Cargo was saved.

The Hampshire Man of Warr run foul of the Fort St. George the 31st. March off St Hellens carried her head away, the main piece of her Cut Water & Captain Acton feared the Bowsprit was sprung, so that he must go into harbour if not into the Dock.

The Severn and Neptune from Benjarr with the Swift Snow from Madagascar were Arrived in England, and the Duke of Lorrain at Kinsale in Ireland; but the time when the Honble Company have not mentioned.

Besides the Ships mentioned by Your Hon^r. & c^t. the following Ones are taken up for India Viz^t.

Wager	..	..	498	Charles Raymond	..	..	} Coast and Bay.
Godolphin	..	..	480	John Stevens	..	..	
Benjamin	..	..	360	Benj ^a . Way	..	..	Bengall.
Porto Bello	..	..	320	Benj ^a . Fisher	..	..	Benjarr.
Northampton	..	..	498	Duncomb Backwell	..	..	Bombay and China.
Orford	..	..	300	Edmund Smyth	..	..	Bencoolen and Benjarr.

Captain Phillips informs Us, the Fort St. George was repaired and would be ready to sail the end of April if Convoy offered, the Elizabeth was in the Downs waiting for Convoy, where the Benjamin was daily Expected; and it was thought the Royal George Cap^t. Field, would be taken up for the Coast and Bay, That the Wager run ashore upon the South Sand head which obliged her to be Dock't, but she would be ready to sail early in May and the Northampton would be dispatched in June.

The Northampton is to bring the Nottinghams Cargo and be sent from hence to China; As by this means we shall have one ship the less to provide for, We are to observe to Your Honour & c^a. the Gentlemen at Tellicherry did by directions from hence in April last, advise the President and Council of Bengall two thousand five hundred Candies of Pepper exclusive of what carried by the Montagu could be spared for any ships they might think proper to send & we now compute an addition of one thousand (1000) Candies can be made to that quantity of which we now advise them & that we presume they will mutually concert with Your Honour & c^a. the Ships to be sent for receiving the same that the Honble Company be not disappointed by Ships being sent from both places.

The Honble Company in their last Commands have been pleased to confirm to Mr. Joseph Smith (the person sent to the Assistance of your Garrison) all the Employments he held here and to make his Allowance one hundred and forty Rupees (140) £ month, as he is so deserving a Man.

We enclose Your Honour & c^a. his Majestys Declaration of Warr against the French.

It is probable Your Honour & c^a. may have long before this reaches You received the same advices by the Shipping from Europe directly to your side of India, but lest any Accident should have happened we thought it might not be improper to acquaint you with these particulars.

The Godolphin Captain Stevens left Portsmouth in Company with the King William, and parted to the Eastward of the Cape of Good Hope the middle of July.

Notwithstanding we have constantly informed our Merchants of the Great Conveniency it will be to our Honble Masters, to have some Salem Cloth in their Investment, & of Your Honour &c^a. repeated Orders [to us on] that Subject, we have never been able to bring them to any Contract, but on the Contrary they want to introduce a new Custome of the Company's running the risque of the Money, as they pretend the French Company do; with this & other Pretences they have amused us upwards of 2 Months, Since the Trade of that place has been Open, which has obliged us to look out for some body that will engage to provide Cloth there, as well to secure a parcell for our Honble Masters, as to raise some Emulation in our Merchants, who ought to be Ashamed when they have all the other Branches of the Investment that lye commodiously for them, to refuse running the little risque that Attends this.

One Suncha Latchmiputty having Offered to provide us about 200 Bales of that Cloth at the Market Price to be of the best sortment made there & full len[g]ths & breadths by the end of January next & he being a man of a Substantial Family we have as it is late in the Season advanced him Three thousand 3,000 Pagodas & if it meets with Your Honour &c^{as}. Approbation shall proceed upon the Contract.

The Charmant was dispatched from Pondichery the 14th. she had on board as we are informed 250 Bales of Cloth 200 Candy of Redwood & 20 Chests of Rupees & is bound to the Malabar Coast & from thence to Europe, The Fleury a Country Ship, Sail'd in Company with her & had on board 20 Chests of Rupees & Fanams & was bound likewise to the Malabar Coast, she had besides her Compliment of Seamen 50 Soldiers on board.

Since my last of the 6th. I find the Nabob intends this Factory shall be Loaded not with Five hundred but One thousand Timbers as well as Ingeram, but being unwilling to pay the Charges of Sending them down the River he has alter'd his resolutions and sent the Vackeels Prisoners to each of us demanding Payment for them where they lye or money to defray the expence of sending them: I have sent the Honourable Company's Merchants to Metchlapatam and Shippd What Cloth is here on a Vessell not that I thought the Latter in any Danger, but merely to convince these People, that I preferr'd leaving the Factory, to a Compliance with their demands without Your Orders: it is true the Honourable Company's Investment is Stopp'd all this while at both Places, but they are as sensible as we of the Advantages that Accrue to their Country by it, and nothing would prevail with them to desist sooner than a dread of having the Factorys left distitute, and if that method or some other that you may think more effectual be not made use of this Year, I am of Opinion they will force us to put that Actually in execution either the next or the Year following.

the Dispatch of the Galatea we have been able to take but 23 and that indifferent: We shall advise Your Honour &c^t. by the next Opportunity if they give us hopes of performing better and in the mean time shall omitt nothing on our Parts that may in any shape contribute thereto.

As Your Honour &c^t. advises us of War being declared with France We shall duely observe Your Orders and use our utmost Endeavours to prevent the Enemy making any attempt upon this place, but for want of a Battery by the Sea Side our Road lyes intirely exposed, and it will be out of our Power to protect any Vessel therein, We have already laid before Your Honour &c^t. the Necessity of rebuilding our Sea Side Battery, and you have been likewise told how usefull it wou'd be in Case of War with any European Power to have one erected fronting the Fort: We therefore request Your Honour &c^t. will be pleased to let us know Your pleasure concerning these matters and we shall be carefull to act agreeable thereto.

We have placed Tappy Peons (two at each station) as far as Ganjam to the Norward and Ingeram to the Southward.

We have received Your Honour & C^{as}. Favour of the 25 Ult^o. the Contents of which we shall duely observe & now take this Opportunity to enclose our Acco^{ts}. of Expences for September Consultations Warehousekeep^{rs}. Account of Cloth brought in & Cash Account for last month the Ballance of which is Thirteen thousand Six hundred Fifty Seven Pagodas Twenty one fanams & Eight Cash 13657.21.8.

Your Honour &c^a. will please observe in the List of Callicoes brought in last month there is an Article called Long^a Cloth Sheally which is in reality a Chemanaick-pollam Cloth but provided at a Village a little Distant from the other called Sheally; it is we think Considerably better, & Costing but half a Pagoda & Corge more than the other we have Sorted it & distengished it by the Name of the place.

Our Sorting place is extreemly small & inconvenient having only one Small Veranda on each side that more than three persons Cannot stand to sort in & the others are oblig'd to sort with the sun in their Faces & these Verandas are now always so full of brown Cloth that in case of the least rain the Bales that are packing are liable to be damaged for want of immediate & proper shelter, for these reasons we request Your Honour &c^{ts}. permission to Build a Veranda on Pillars in the middle of the Compound as is at Fort St. George from East to West for the Goods to be sorted in & the side Verandas to be used for keeping the Brown Cloth in & sheltring Bales white Packing in uncertain Weather.

Your Honour &c^t. will please to Observe by our Consultation of the 29th. Ult^o. that the Factory House at Cuddalore not having been repaired for many Years is in a bad Condition & that a proper repair will amount to 400 Pagodas we shall wait your Honour &c^t. Orders on that Affair.

We had a very Fresh Gale of Wind the 5th. in the Morning when it blew from the South East pretty hard & sunck several Boats on the River among which were two of the Companys that are in Constant use but they are Weighed & on the whole our Honourable Masters have Sustained but little Damage.

HOÑBLE SIR & SIRs

The Council at Tellicherry having receiv'd the news of the Declaration of War between England and France immediately gave advice thereof to the Council at Mahe, and offer'd them an exact observance of the Treaty made between those two Settlements in 1728 by M^r. Braddyll & M^r. De Lorme, which was renewed by M^r. Wake & M^r. Mahé de La Bourdonnaye in 1742. But the aforesaid Treaty not appearing

sufficiently clear, in regard to the manner of the conduct of the two Settlements to each other in time of war; M^r. Geekie, Gov^r. of Tellicherry was desired to make such an eclaireissement therein as he judge[d] necessary: In Answer to which that Governour sent a Proje[ct] of a Treaty to be ratified by their respective Superiours.

Herewith you have Copys of the Articles of the Treaties of 1728, & 1742 also of that proposed by M^r. Geekie. As we are persuaded that you are as Zealous for the good of your Company, as we are for Ours, You will make no Manner of difficulty in corresponding with the Views we have of increasing it more.

It wou'd certainly be doing wrong to Your Perspicacity, to represent to you here, what an advantage it will be, for the Common benefit of both Comp^ys, That no Act of hostility should be committed, in sight of the Mallabar Coast; This is what has made us resolve, that it will be proper that the ships belonging to both Companys, and all those fitted out in India, under the Colours of either Nation, may navigate freely from Anjengo to Goa, within the distance of forty leagues from Land.

This Treaty, made under the good pleasure of our Companys & respective Sovereigns, admits of no difficulty on our part, from the Authority we have over the Captains of the French Company's Ships and those fitted out in India under the Colours of his most Christian Majesty.

We therefore desire you, Sirs, to inform us, if you can also come into the same measures with us, and in consequence thereof, give your orders to the Captains of the English Comp^ys Ships, & to those fitted out in India under the Colours of His Britannic Majesty. In a word, Gentlemen we desire You to inform us how far you can can cooperate on this Occasion for the Common Good of both Companys.

We could also have wished to have included in this Treaty the Ships of the French King, but that exceeds our Powers, because some May come into India, which may not be under our Orders.

We wait for the honour of your Answer, to give our orders on this Subject to Chandernagore and Mahe.

PROJECT of a Treaty to be concluded between the Settlements of Mahe & Tellecherry, sent by M^r. Geekie to M^r. Moracin 8th. September 1744.

A perfect Amity subsists between us until now; And as in one of the Articles of the Treaty made between Mess^{rs}. de Lorme & Braddyll in 1728 it is stipulated, That if, in time to come, War should be declared between the two Crowns, we should not molest each other in the two Settlements of Tellecherry & Mahe, nether by Land nor Sea, with in Sight of the Flag of each Nation; We have agreed to extend that condition along the Coast from Anjengo to Goa; reciprocally promising each other, to forbid all Vessels fitted out under our Orders to molest one another on any pretence whatsoever; and we respectively promise to write to Bombay & Pondichery to get the above agreement ratified, and even if possible to extend the same Agreement, for the Ships that are under the orders of our Respective Generals in India.

These motives have induced us, Gentlemen, to Acquaint you with a new Resolution that we have taken

By a letter from the Company dated at Paris the 14th. April 1744, which we received the 28th. Ult^o., we are acquainted with the Declaration of War, made by the King, our Master, against the King of England Elector of Hanover; and they tell us at the same time, that (notwithstanding, War is broke out in Europe) they should be very glad, that a good Harmony and intelligence, might Subsist between the Trading Nations in India.

After having maturely reflected and deliberated upon the Intentions of our Superiours, We have thought that we could not more properly fulfill their Views than by maintaining Peace and good Intelligence from this side of the Cape of Good Hope as far as China and beyond it. We should be very glad, Gentlemen, if you cou'd come into the like Agreement, which could not but be advantageous to our Companys.

We have the honour to make the same proposals to the Gentlemen at Bombay and those at Calcutta; And also to acquaint you, that Our Orders, on this occasion, are already dispatched to all our Settlements, and to all our Ships, as well those of

the Company as Private Ships, Strictly forbidding them to be the Aggressors in any shape whatsoever, and to keep themselves only on the Defensive; in a word, not to make use of the Rights of War, unless the English attack them first, within the limits of the Seas beforementioned.

Thus, Gentlemen, if you will give the like Orders, to every thing under your Subordination, it will not be our fault, if the trade of the two Nations, on this side of the Cape of Good Hope, is not carried on with same tranquility, as if our respective Sovereigns were in full Peace.

Herewith goes a letter that we have the honour to write the Gentlemen of Council at Bombay, which we desire You to forward to it's Address.

We have the honour to be with respect

HO^NBLE SIR & SIRs

Since our last to your Honour &c^a. under Date the 7th. August (Duplicate of which is enclosed) We have been favoured with two of Yours of the 23^d. Instant @ Beaufort and Duke of Dorsett.

On the 22^d. Instant the Hoⁿble Company's Ship Princess Augusta Arrived here from Fort Marlborough not being able to gain her passage to your place, She Sailed from thence the 7th. August, The Worshipfull Robert Lennox Esq^r. came on her for the Benefit of his health, In a Letter from the Gentlemen of Fort Marlborough we are advised that the Colchester sailed from Batavia in July for England with 6,000 Pecul of Benjar pepper, the Banjareens had most barbarously cutt off a French Brigantine called the S^t. Joseph Cap^t. Furnier Commander, and destroyed the whole Crew, The Severn, the Duke of Lorain, Neptune Grantham & the Swift, all which Vessells had lost their Season have been Safe at S^t. Helena, The Statford Cap^t. Baker bound for China was met in the Streights of Sunda by the Princess Augusta the latter end of July, and the Caesar Storeship was at Batavia, they have indented for 4000 Gunny Bags & 1000 Bags of Rice which we shall supply them with by the first Opportunity, We purpose Sending the Princess Augusta directly to you with Rice if in the Interim we do not receive from you any orders to the Contrary.

Your Honour &c^a. Indent for packing Stuff shall be Complied with by the first Opportunity from hence.

Agreeable to your request we shall acquaint the Captains of the Ships we may send you in December to have their Compliments of Men, and to Supply themselves with what Salt Petre they may want at Low frèight here.

We observe the price Your Honour &c^t. have disposed of some part of the Copper received @ York at, and the Quantity you have Kept, this article (as well as all other Europe Goods) has bore no price here for some time on Account of the troubles with the Nabob, We shall write Your Hon^r. &c^a. and give you our Sentiments on this head by our Ships in December.

From the quantity of Bales your Hon^r. &c^a. expect & the Pepper you have remaining in your Warehouse We Apprehend We shall be obliged to dispatch three Ships to your Presidency this Season should we find it necessary to Lade any further quantity of Salt Petre on them than the Charter party proportion at the high Freight, we shall Consign the same to you that it may be taken out in case you have Bales to Lade in the room thereof, By these Ships we shall likewise Supply you with the usual Quantity of Salt Petre and fill up their Tonnage with good Rice if procurable.

We have at length accomodated matters with our Nabob but were not able to Conclude with him before the 15 Instant this has been a most Expensive Affair and indeed a very unfortunate one in regard to the Honble Compy's Investment, an Entire Stop having been put to our Business, and Numbers of the Merchants Gomastahs Seized on by the Government, with their money & Effects, but have since been released, these violent measures will make it very late, before the Goods can be got in, and we cannot at present from any Exact Calculate of what Quantity of Bales we may Expect.

HONBLE SIR & SIRs

We received Your Favour of the 12th. October the 2^d. Instant, and are here to Acquaint you that the Upparra Merchants give us hopes to beleive they will mend their hands e're long, though they have not been able to do any thing all last Month on Account of the Differences that have arisen betwixt the Nabob and the Rajah's

of that Country, The latter have possess'd themselves of two or three small Forts and killed some of the Nabob's People, which occasioned Several of the Banyans imployed in the Cloth Business to quit their Places of abode and retire this Way for fear of being Plunder'd, but as matters are likely to be soon Accommodated betwixt them We shall do all that lyes in our power to make up for the lost Time.

We shall look out for a good Conveyance for our Cloth and have due regard to the Directions Your Honour &c^t. has given us in relation to the Dispatch thereof.

We have paid Captain Bright Sixty 60 Pagodas for the freight of the Treasure that came hither on the William and Sarah, and shall charge Ingeram and Madapollam for their proportion of the same.

The Packet for Bengall was immediately forwarded, and we took Care when we stationed the Tappys to send two Peons to Ganjam in order to proceed to Balasore in Case there should be no Tappys placed by the Gentlemen of Bengall.

HONBLE SIR & SIRS

I received your Letter of the 19th. October on the 3^d. of November and that dated 31 October on the 5th. It is not the Loss that may happen by our taking of Timbers this once which induced me to be so strenuously against a Compliance with these impositions, but a firm Opinion that our taking them for the sake of an Investment a few months will only putt off the evil for a Year and that the Practice once introduc'd thô in the time of a bad Government must be continued even should a good one Succeed, as the Gentlemen at Yanam found it in Annawerdie Cawn's time, they have now some thousands of Timbers that were formerly forc'd on them, lying there as not knowing what to do with them and are become so sick of their easiness with the Government that positive Orders are come from Pondicherry not to take these now in question: it is reported that the Nabob is coming to a place near Ingeram and that when the English and French come to Vizit him he will bring this Affair to a Conclusion One way or other, whatever they comply with must be agreed to by this Factory, so that we cannot be much longer in Suspence.

With your Letter of the 31st. October M^r. John Andrews delivered me the Broad Cloth and Perpetuanoes with the Invoice and Sett out from hence the 20th. I shall have due regard to what you are pleas'd to write about M^r. Banks and am very respectfully

HON^{BLE} SIR & SIRs

In my last address to Your Hon^r. & C^t. I advis'd of the badness of the Govern-
ment, since which the Nabob has been at Pettaporam, where insisting on a Large
Sum from the Rajahs, the Latter being unable to comply with such an unreasonable
demand, being drove to despair levyed near 4000 Peons, cut of several of the Nabobs
people and pillag'd some Towns adjacent but at last in an encounter the Peddaporam
Rajah was kill'd and the rest immediately dispersd, this with the continual trouble
given to our Factorys & Merchants has put a stop to business for some time and tis
with difficulty I can prevail upon them to advance the Weavours; In these unsettled
times no endeavours shall be wanting, but should the Government continue bad it
will be with great hazard and difficulty business can be carryed on.

The French take in any Cloth that comes, they have a Ship of about 200 Tons
and a Brigantine in the River said to be bound for Pondicherry, the Dutch are making
an Investment at Corkinara in Ordinary and Fine Goods though as yet in no great
forwardness.

The Bales to be sent Your Hon^r. & C^t. shall be loaded in the River and care taken
to give the Cap^t. such orders as may be suitable to the times.

Inclosed is Cash and Journal Parcels for October and November and Merchants
