P R E F A C E

The Government used to compile and publish District Manuals for each district prior to 1905. The manuals became obsolete within a few years of their publication, containing as they did not only matter of a more or less permanent character such as physical characteristics, history, religion and ethnography, as also statistical matters which soon became out of date. The Government decided to replace the District Manuals by another publication known as the District Gazetteer, consisting of two volumes, A and B. The A volume contained descriptive matter and such general figures, as might be necessary to explain the text, and the B volume contained detailed statistics. They also decided that the B volume should be brought out periodically, especially after each decennial census. Between 1905 and 1927 A volumes for thirteen districts were published. In 1927 they were discontinued. B volumes for all the districts were published between 1906 and 1915. They were continued to be published even after the 1931 census. They were not published after the 1941 census.

Village Statistics, containing the results of the census for every village in the State, were first compiled and published in 1872, at the instance of Mr. C. E. Gover, who was then the Census Officer in Madras. His successor, in 1882, considered that this publication led to needless expenditure and trouble in printing the tables villageवार, but the Government decided that the Village Statistics should continue to be published. The practice of issuing Village Statistics at every census was followed subsequently. The Village Statistics merely showed the number of occupied houses and population of each village and town by religions.

The idea of preparing the present volume, viz., the District Census Handbook for each district was put forward by Sri R. A. Gopalaswami, I.C.S., Registrar-General, India, and ex-officio Census Commissioner of India, as part of a plan intended to secure an effective method of preserving the census records prepared for areas below the District level. He proposed that all the district census tables and census abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume, called the District Census Handbook, and suggested to the State Governments that the handbook (with or without the addition of other useful information relating to the district) should be printed and published, at their own cost, in the same manner as the Village Statistics in the past. In accepting this suggestion, the Government of Madras decided to print and publish the more important portion of statistical data relating to the district and to preserve the rest of the records in a manuscript volume for any future use, to which they may be put.

2. The statistical data embodied in the District Census Handbook have to be understood from the background of the changes introduced in the 1951 census. The most important and fundamental change introduced in the 1951 census consists in the substitution of an economic classification of the people for the classification based on Religion and Communities

adopted in the past. The people were divided into two broad livelihood categories, the Agricultural and the non-Agricultural. Four agricultural classes and four non-agricultural classes were prescribed as shown below :—

Agricultural Classes—

- I. Cultivators of land, wholly or mainly owned, and their dependants.
- II. Cultivators of land, wholly or mainly unowned, and their dependants;
- III. Cultivating labourers and their dependants,
- IV Non-cultivating owners of land, agricultural rent receivers and their dependants.

Non-Agricultural Classes—

Persons (including their dependants) who derive their principal means of livelihood from—

- V. Production other than cultivation,
- VI. Commerce,
- VII. Transport, and
- VIII. Other services and miscellaneous sources.

Each of the above eight livelihood classes were divided into three sub-classes with reference to their economic status as below :—

- (i) Self-supporting persons,
- (ii) Non-earning dependants, and
- (iii) Earning dependants.

These livelihood sub-classes have been defined in detail in the fly-leaf notes attached to Economic Table B-I included in this Handbook.

All non-earning dependants are economically passive, all earning dependants are economically semi-active. All self-supporting persons are ordinarily economically active but the classes and groups specified below constitute an exception to this rule—

- (1) Self-supporting persons of Agricultural Class IV,
- (2) Self-supporting persons of Livelihood Class VIII, who derive their principal means of livelihood from any source other than through economic activity, viz.—
 - (a) Non-working owners of non-agricultural property ;
 - (b) Pensioners and remittance holders ;
 - (c) Persons living on charity and other persons with unproductive occupations ;
 and
 - (d) Inmates of penal institutions and asylums.

Economically active persons engaged in cultivation are either cultivators or cultivating labourers. Economic Table B-I gives particulars of the population classified according to the eight livelihood classes and the three sub-classes mentioned above.

Economically active persons engaged in industries and services have been classified with reference to the nature of the commodity produced or service performed. They are further divided into three sections, viz., Employers, Employees and Independent Workers.

Economic Table B-III gives particulars of the economically active persons classified under the divisions and subdivisions of industries and services of the Indian Census Economic Classification Scheme.

Table C-I, included in this Handbook covers the population of sample households and Tables C-II and C-IV cover a 10 per cent sample population. The method adopted for extracting these samples has been described in detail in the fly-leaf notes attached to the relevant tables.

3. *Scheme of the Census Handbook.*—The Handbook has been divided into two parts: Part I consists of three sections, namely, Section (i) containing the General Population tables (A-series), the Economic Tables (B-series), Summary figures for Taluks (Table E), Tables I, II and III relating to Small Scale Industrial Establishments and Table L showing the Incidence of Leprosy, Section (ii) containing the Rural Statistics, and Section (iii) containing the Urban statistics, and Part II containing the Household (size) Table C-I, and Tables showing Livelihood Classes and Literacy by Age-groups (C-II and C-IV), the Social and Cultural Tables (D-series) and an abstract of non-agricultural occupations in the district. Among the tables included in the Handbook, Table A-IV—Towns classified by population with variations since 1901, Economic Table B-II—Secondary means of Livelihood under each livelihood class and Table C-II—Livelihood classes by age groups furnish information at the district level. The other population tables in the A-series, the summary figures for Taluks (Table E) and the infirmity (Table L) showing the incidence of leprosy furnish information for each taluk in the district with a district total. The rural statistics in Part I—Section (ii) furnish basic information in respect of every village and town arranged according to census tracts. In addition to the total population of the villages, and its distribution among the eight livelihood classes, information regarding the number of literates, the cultivated area, the number of small scale industrial establishments under categories, textile and non-textile and the number of leprosy cases and doubtful cases has been included.

The urban statistics in Part I Section (iii) furnish similar information except that relating to cultivated area in respect of every unit classified as city or census town in the district with ward-wise data. All other tables included in the Handbook provide information for units called census tracts with totals for the district.

4. *Census Tracts.*—A distinctive feature of the census statistics is its rural/urban break-up designed with a view to compare the conditions and characteristics of the rural and urban population. The rural areas of each district were therefore kept distinct from the urban areas. For facilitating tabulation these areas were divided into a number of rural and urban tracts. As far as possible, the rural area in each taluk was constituted into a single rural tract. In a few cases however where the taluks were small in size with reference to their population, the rural areas of more than one taluk were taken together as a single rural tract. The urban tracts have been formed out of areas declared as cities and census towns in each district. Every city was treated as a separate tract. Towns other than cities were grouped together to form non-city urban tracts. Wherever possible, the towns in each taluk were constituted into a single non-city urban tract. In cases where the towns in a taluk had a population of less than 50,000 the towns in more than one taluk were grouped

together to form a non-city urban tract. All the rural tracts in the State have been assigned numbers in one series, the non-city urban tracts in another series and the city tracts in a third series. In all the tables where the data have been furnished for tracts, the tracts have been denoted by numbers that have been assigned to them. A list of tracts into which the district has been divided and the areas comprised in each is furnished in the fly-leaf note to economic Table B-I relating to the district.

The districts, taluks and villages mentioned in the Tables and Abstracts have been shown along with the census location code numbers assigned to them for purposes of census operations.

The numbers given to the Tables in this publication correspond to those given in the State Census Report.

Elaborate notes explaining the scheme of each Table have been introduced in the fly-leaf attached to each with a view to enable the reader to get a precise idea of the data furnished in the Table.

5. *Tables relating to Small-scale Industries.*—In the year 1950 a census of Small-scale Industries was instituted under the orders of the Government. The object was to get some idea about small industries such as cottage and home industries, small establishments, workshops, etc., where articles were produced, repaired or otherwise treated for sale, use or disposal and small mines. The enquiry was confined to establishments to which the Factories Act was not applicable. Individuals who worked on their own and did not employ other people were left out of account. From the data collected three Tables were prepared and they have been included in the Handbook. Information giving village-wise and ward-wise information for Small Scale Industries have been incorporated in the rural and urban statistics. The details collected and embodied in the Tables are not to be considered accurate or exhaustive, as the enumeration staff employed had not been trained for the purpose and some cases of under-enumeration were noticed. However, the figures given in the Tables may be sufficient to give an insight into the nature of the industries prevalent in the different parts of the district.

6. Opportunity has been taken to put in a short introductory note detailing the salient points connected with the district, such as the physical features, climate, rainfall, irrigation and drainage facilities, roads and other communications, crop statistics, education, industries and other matters of general interest. The information contained in the introductory note is based on the materials furnished by Collectors of districts and Departments of Government. The District Gazetteer was also freely referred to. The relevant paragraph of the 1951 Census Report discussing the growth of population in the district has also been incorporated in the proper place.

A district map showing taluk boundaries, physical features, important roads and places with a population exceeding 5,000 is also attached.

It is hoped that this Handbook will serve as a book of reference on matters relating to the district and that it will be found useful both by Departments of Government and the public.

J. I. ARPUTHANATHAN,
Superintendent of Census Operations, Madras.

20. MADURAI DISTRICT.

INTRODUCTION TO MADURAI DISTRICT

I. (a) SITUATION AND PHYSICAL CHARACTERISTICS.

The Madurai district lies between $9^{\circ} 30'$ and $10^{\circ} 50'$ of the northern latitude and $77^{\circ} 10'$ and $78^{\circ} 30'$ of the eastern longitude, and has Coimbatore and Tiruchirapalli districts on its north, Tiruchirapalli

and Ramanathapuram districts on its east, the Ramanathapuram district on its south, the United State of Travancore and Cochin and the Coimbatore district on its west. The district consists of eight taluks comprised in three revenue divisions as noted below :—

Name of Revenue Division.	Headquarters of Revenue Division.	Taluks comprised in the Revenue Division.	Area of the taluk in square miles.	Headquarters of taluk.
Dindigul	Dindigul	{ Dindigul	894	Dindigul.
		{ Palni	625	Palni.
		{ Kodaikanal	361	Kodaikanal.
		{ Nilakkottai	410	Nilakkottai.
Madurai	Madurai	{ Madurai	268	Madurai.
		{ Melur	484	Melur.
Usilampatti	Usilampatti	{ Thirumangalam	721	Thirumangalam.
		{ Periyakulam	1,106	Periyakulam.
Total			4,869	

The district may be divided into five natural divisions, namely (1) the Hilly regions, (2) the Cum-bum valley, (3) the Black Cotton Plains of Tirumangalam taluk, (4) the Delta areas of Madurai, Melur and Nilakkottai taluks and (5) the Upland Plains of the northern portions of Melur taluk, and the taluks of Dindigul and Palni.

The district has considerable portions of it occupied by hills. A broad mass of hills known as the Palni hills in the west is the most important range of mountains in the district. The Palni Hills are an offshoot of the Western Ghats. They cover the northern portion of Periyakulam taluk, the entire Kodaikanal taluk and the southern fringes of the Palni taluk. The greatest length of the Palni range is 40 miles and the maximum breadth 25 miles. The lower ranges of the Palnis are 3,000 feet to 5,000 feet high and the upper ranges 6,000 feet to 8,000 feet high. The highest peak is Vembadi Shola which is 8,228 feet above the sea and is situated in Kodaikanal taluk.

To the south-west of the Palnis run the Cardamom Hills on the western fringe of Periyakulam taluk right up to the southern boundary of the district. They form the eastern slope of the main Cardamom Hills of the Western Ghats situated in the United State of Travancore and Cochin.

At the south-western corner of the district in Periyakulam taluk are situated a range of mountains called

the High Wavy. To the east of the High Wavy mountains a range called the Varushanadu and the Andipatti Hills run parallel to the Cardamom Hills towards the north-east along the eastern boundary of Periyakulam taluk and the western boundary of Tirumangalam taluk. Kottaimalai Peak 6,617 feet high in these mountains forms the trijunction for the districts of Madurai, Ramanathapuram and the United State of Travancore and Cochin. The Varushanadu and the Andipatti Hills are rugged and broken compared to the Palni and Cardamom Hills. From the extreme northern end of the Andipatti Hills a range of mountains called the Nagamalais strikes off towards the east on the boundary between Nilakkottai and Tirumangalam taluks and then runs south-east to within 3 or 4 miles of Madurai town. The Nagamalai is a long ridge of barren rock nearly uniform in height.

On the eastern side of the district some 16 miles to the north of Madurai stands a compact block of hills called the Sirumalai Hills in Nilakkottai taluk. The Sirumalais are about 12 miles across with peaks above 4,400 feet in height and a high plateau.

The Karandamalais which commence some 8 miles to the north-east of the Sirumalais measure about 6 miles across with low ridges and valleys. They are situated on the south-eastern boundary of Dindigul taluk and the north-western boundary of Melur taluk.

The Alagarmalais consisting of a ridge about 10 miles in length and with the highest point about 1,000 feet above the sea are situated to the east of the trijunction where Nilakkottai, Madurai and Melur taluks meet. The Natham hills are stony ridges in Melur taluk and the Ayyalur hills consist of stony ridges and hillocks on the eastern boundary of the Dindigul taluk.

There are also a number of isolated hillocks and rocks such as the Dindigul Rock near Dindigul town, the Pasumalai hill in Madurai taluk, Rangamalai (3,099 feet) on the north-western boundary of the Dindigul taluk, the Karumalai in the northern part of the boundary between Palni and Dindigul taluks and the Kondarangimalai on the northern boundary of Palni taluk.

(b) RIVERS.

The most important river of the district is the Vaigai. The Vaigai river rises in the Varushanadu Valley in Periyakulam taluk and flows north in that taluk. Parallel to it on the west, the Suruli river rising in the High Wavy mountains is joined by the Vairavanar bringing the waters of the Periyar Project. The combined river flows down the Cumbum valley in Periyakulam taluk and is joined by the Teniar coming down the Bodinayakanur valley in the same taluk. The Suruli then joins the Vaigai near the boundary between Periyakulam and Nilakkottai taluks. The Vaigai thereafter flows east-north-eastwards and is joined by the Varahanadhi and Manjalar coming down from the Palni Hills. The river Vaigai continues to flow through Nilakkottai taluk and enters Madurai taluk. It flows past Madurai city and enters Ramanathapuram district where it falls into the sea.

The Periyar system has its source at the head of the Cumbum valley. A few miles across the border between the Madurai district and Travancore at the head of the Cumbum valley the Periyar river runs in the territory of the United State of Travancore and Cochin through the Western Ghats towards Cochin. This river, most of the waters of which formerly ran to waste, has been dammed up at an elevation of about 3,000 feet and the bulk of its water is thereby collected in an artificial lake on the land leased for 999 years from the Travancore Darbar. By means of a tunnel cut through the water-shed of the hills, the waters of the Periyar have been diverted from the lake eastwards into the Cumbum valley of the Madurai district, over the beds of the rivers Vairavanar and Suruli which join the Vaigai. By means of a dam constructed across the Vaigai near Peranai in Nilakkottai taluk, the Periyar waters are drawn from the river into the main canal of the Periyar System proper. This canal is about 35 miles long and lets out 12 branch channels for the irrigation of the wet lands commanded by these in the taluks of Nilakkottai, Madurai and Melur.

The Gundar and the Kamandala Nadhi rising in the Varushanadu and Andipatti ranges drain the Tirumangalam taluk and flow in a south-easterly direction into Ramanathapuram district where they unite.

The northern portion of Melur taluk drains eastwards into the Tirumanimuthar and the Palar flowing into Ramanathapuram district and Tiruchirappalli district respectively.

The plains of Dindigul and Palni in the north of the district drain northwards into four almost parallel rivers rising in the Palnis. They are from west to east the Shanmuga Nadhi, the Nallatangi and Nangan-gai rivers in Palni taluk, and the Kodaganar in Dindigul taluk. These four rivers eventually flow into the Amaravati River, a tributary of the Cauvery.

(c) FORESTS.

The forests consist of about a quarter of the area of the district. The area of forests in each taluk is furnished below in square miles :—

Name of taluk.	Reserved forests.	Estate forests taken over.	Estate forests not taken over.	Total.
Palni	21.40	87.86	19.90	129.16
Kodaikanal	238.75	..	..	238.75
Dindigul	76.01	..	39.82	115.83
Nilakkottai	61.30	78.13	..	140.43
Melur	98.02	..	..	98.02
Periyakulam	98.60	30.00	86.00	214.60
Tirumangalam	13.14	139.96	..	153.10
Maduras	6.46	..	..	6.46
Total	614.68	335.95	145.72	1,096.35

The reserved forests consist of deciduous and ever-green species with rolling downs of coarse grass interspersed with high level temperate sholas in sheltered valleys forming the sources of several perennial streams. The estate forests taken over are of scrub jungle with scattered sholas in the upper reaches mainly denuded.

(d) CLIMATE AND RAINFALL.

The upper Palnis have a climate of their own with low temperature all round the year and fairly heavy rainfall during both the south-west and the north-east monsoons. The southern portion of the Periyakulam taluk which is known as the Cumbum valley is cooler than the plains of the district and has a very pleasant climate during the south-west monsoon. The hottest part of the year in the plains occurs during the months of April to June. The monthly mean of daily maximum, daily minimum, the highest recorded and the

lowest recorded temperature and the monthly mean rainfall for the years 1881 to 1940 and similar particulars and actual rainfall for the year 1951 as recorded at Madurai are furnished below :—

Month.	1881—1940.					1951.				
	Temperature.				Mean rainfall (inches).	Temperature.				Actual rainfall (inches).
	Mean of		Highest record- ed.	Lowest record- ed.		Mean of		Highest record- ed.	Lowest record- ed.	
	Daily Maxi- mum.	Daily Mini- mum.				Daily Maxi- mum.	Daily Mini- mum.			
January	85.8	68.4	94	60	0.78	86.7	69.6	95	64	0.48
February	90.3	69.5	101	61	0.53	91.3	67.9	95	63	0.00
March	95.3	72.5	107	63	0.70	96.6	74.2	102	64	0.36
April	97.8	76.7	107	67	2.16	95.1	77.1	100	72	5.93
May	98.8	78.0	107	64	2.74	100.5	78.9	104	74	0.67
June	97.1	78.0	108	64	1.57	97.8	78.8	102	75	0.02

August	62.7	51.9	70	47	7.00	64.4	52.8	69	51	3.98
September	62.7	52.0	71	48	7.28	65.2	53.0	69	51	10.17
October	62.1	51.2	70	43	10.24	64.1	52.2	67	49	5.42
November	60.9	49.4	71	39	10.19	61.4	51.2	65	45	9.39
December	61.7	47.2	73	37	5.16	62.5	47.1	69	41	0.45
For the year	63.8	50.7	82	37	66.48	64.1	51.2	71	41	73.13

The particulars of the average annual rainfall and the average number of rainy days in a year for the taluks are given below :—

Taluk.	Average annual rainfall (inches).	Average number of rainy days in a year.
Paim	31.11	44.2
Kodaikanal	66.48	107.1
Dindigul	29.33	46.9
Nilakkottai	30.04	47.2
Melur	37.37	54.3
Periyakulam	30.12	52.8
Tirumangalam	36.64	47.4
Madurai	33.59	50.9

Madurai—1A

(e) SOILS.

The district consists of a section of the plain stretching from the eastern slopes of the Western Ghats to the sea.

The soil is in the main red ferruginous loam or sand but black cotton soil is found in the river valleys and south of Tirumangalam as a continuation of the fertile black cotton soil of Sattur in Ramanathapuram district and the north-eastern taluks of Tirunelveli district. In Periyakulam and Palni taluks there are patches of similar black soil. The tops of the Kodai Hills are covered with black soil with a dark yellowish

clay substratum. The distribution of the soils in each of the taluks is given below on a percentage basis :—

Taluk.	Black clay loam and sand.	Red loam and sand.
Palni	6.5	93.5
Dindigul	2.8	97.2
Nilakkottai	6.4	93.6
Melur	0.4	99.6
Periyakulam	9.0	91.0
Tirumangalam	60.8	39.2
Madurai	17.4	82.6

The total settled extent under black soil in the district is 203,048 acres and that under red soil 2,142,163 acres.

(f) IRRIGATION AND DRAINAGE FACILITIES AND LIABILITY TO FAMINE.

The chief irrigation source in the district is the river Vaigai through which the waters of the Periyar are let in and drawn into the Periyar system main canals by means of a dam at Peranai in Nilakkottai taluk and distributed to a vast system of tanks and channels through 12 main branch channels. Excluding the tributaries of the Vaigai and the Shaanmuga Nadhi in Palni taluk the other rivers flowing through the district are not of much use to the district as irrigation sources. The irrigation facilities in the various taluks are dealt with below :—

Palni taluk.—The river Shanmuga Nadhi and the rainfed tanks are the irrigation sources in the taluk. Irrigation from wells is also resorted to. The wells in this taluk are generally much bigger than those in other taluks.

Kodaikanal taluk.—The Manavanur channel and the Berijam lake are the main sources of irrigation.

Dindigul taluk.—The Mullipadi river and a large number of rainfed tanks irrigate the lands in this taluk. There are also a number of wells in this taluk.

Nilakkottai taluk.—The river Vaigai and the Periyar channels and tanks are the sources of irrigation.

Melur taluk.—The Periyar channels irrigate the southern part of the taluk. A large number of small rainfed tanks in the northern part of the taluk supply water to the small ayacuts under them. Wells in wet lands also supplement the precarious sources of irrigation.

Periyakulam taluk.—The river Suruli carrying the drainage of the Cumbum Valley and the waters of the Periyar are the sources of supply for the wet lands. Some tanks fed by the Berijam swamp in Kodaikanal taluk irrigate the lands commanded by them.

Tirumangalam taluk.—Wet cultivation is carried on from wells and rainfed tanks.

Madurai taluk.—The Periyar channels, the Nilsayar channel from the Vaigai and tanks fed by them are the chief irrigation sources in this taluk. There are also some minor irrigation tanks.

The particulars of the number of minor and major irrigation sources and their ayacuts in each taluk are given below :—

Taluk.	Minor irrigation sources.	Ayacut in Acres.	Major irrigation sources.	Ayacut in Acres.
Palni	39	2,480.77	20	7,513.32
Kodaikanal	..	..	..	..
Dindigul	1,203	14,600.98	10	2,613.00
Nilakkottai	162	4,633.39	35	14,829.58
Melur	1,623	22,882.77	Periyar channel.	49,844.00
Periyakulam	123	4,171.38	3	18,500.00
Tirumangalam	249	14,265.58	26	6,961.00
Madurai	111	4,305.90	73	52,484.72
Total ..	3,510	67,340.77	167	1,52,744.62

A major portion of the district depends upon seasonal rains failure of which may cause distress.

(g) AREA CULTIVATED WITH FOOD CROPS AND COMMERCIAL CROPS.

The food crops are paddy, Cholan, Cumbu, Ragi, Korra, Varagu and Samai. The Chief commercial crops are groundnut and cotton. Gingelly and tobacco are also grown in limited extents. The extent of cultivation of the food crops, pulses and commercial crops in the various taluks of the district in 1948-49, the last normal year for the district, is furnished in *Annexure I*.

A word may be said about the plantation crops of the district in view of the large area occupied by the hills. The lower Palnis contain groves of jack, orange, lime and other fruit trees. In the Sirumalais as well as the lower Palnis are grown the famous hill plantains. The other crops of the upper Palnis, the Sirumalais and the Cardamom hills are coffee, cardamom, and ginger. English vegetables and fruits are grown in Kodaikanal hills and the upper Palnis. Paddy is grown in the hills by diverting streams into fields of narrow terraces decked one below the other like a broad stair case.

(h) COMMUNICATIONS.

(i) Roads.

Several roads lead to places outside the district. There are roads to Coimbatore and Dharapuram in Coimbatore district, to Karur and Tiruchirappalli in Tiruchirappalli district, to Tirupattur, Aruppukottai, Sivaganga, Sattur and Srivilliputtur in Ramanathapuram district and to Vandiperiar in the United State

of Travancore and Cochin. There are 1,831 miles of roads in the district consisting of 110 miles of National Highways, 67 miles of Provincial Highways, 705 miles of major district roads, 178 miles of other district roads, 491 miles of village roads, 14 miles of P.W.D. roads, and 266 miles of municipal roads. Their talukwise mileage and classification except in the case of municipal and P.W.D. roads is furnished below :—

Taluk.	National highways.	Provincial highways.	Major district roads.	Other district roads.	Village roads.	Total miles.
Palni	32	55	38	64	189	
Kodaikanal	77	7	41	125		
Dindigul	47	16	118	43	340	
Nilakkottai	21	78	6	72	177	
Melur	74	36	34	144		
Periyakulam	118	38	64	220		
Tirumangalam	16	19	114	28	177	
Madurai	26	71	10	72	179	
Total	110	67	705	178	491	1,551

Communications to the interior villages are inadequate in the taluks of Palni, Kodaikanal, Periyakulam, Tirumangalam and Madurai.

(ii) Railways.

There are 136½ miles of meter guage railway of the Southern Railway in the district. The south-east line from Madras passes through Dindigul, Nilakkottai, Madurai and Tirumangalam taluks to Tuticorin, Tirunelveli and Trivandrum. A line branches off from Dindigul junction to Coimbatore traversing Palni taluk and another line branches off from Madurai junction to Dhanushkodi in Ramanathapuram district. The line from Madurai junction to Bodinaikanur which was dismantled during the last war is being relaid. At present the taluks of Palni, Dindigul, Nilakkottai, Tirumangalam and Madurai are served by railway. The district headquarters and taluk headquarters of Madurai and the taluk headquarters of Palni, Dindigul and Tirumangalam only are Railway stations. Palni station serves the out agency of Dharapuram in Coimbatore district. Kodaikanal road railway station in Nilakkottai taluk serves the out agency at Kodaikanal as well as the out agencies at Periyakulam and Theni in Periyakulam taluk. The out agencies at Periyakulam and Theni are only for parcels and goods traffic while that at Kodaikanal is available for passengers service also.

(iii) Posts and Telegraphs.

There are 29 post and telegraph sub-offices, 26 non-combined sub-post offices and 412 branch post offices in

the district. Their talukwise distribution is furnished below :—

Name of taluk.	Branch post offices.	Non-combined sub-post offices.	Post and telegraph sub-offices.
Palni	42	3	3
Kodaikanal	5	1	2
Dindigul	105	6	2
Nilakkottai	55	5	5
Melur	54	2	2
Periyakulam	60	4	8
Tirumangalam	63	1	2
Madurai	28	11	5
Total ..	412	26	29

II. (a) (i) GROWTH OF POPULATION.

The particulars of population of the district and taluks in 1941 and 1951 and the percentage of variation are furnished below :—

Name of district and taluk.	Population.		Percentage of variation.
	1941.	1951.	
Madurai district	2,473,866	2,891,817	+16.9
Palni	263,853	272,002	+ 3.1
Kodaikanal	33,698	40,250	+19.4
Dindigul	488,719	554,767	+13.5
Nilakkottai	243,476	277,187	+13.8
Melur	190,345	224,211	+17.8
Periyakulam	501,396	584,430	+16.6
Tirumangalam	349,875	374,465	+ 7.0
Madurai	402,504	564,505	+40.2

"The population has registered an increase of 16.9 per cent, as against 13.2 during the previous decade. Except for the Periyar delta, this is a dry district. Palni is a purely dry taluk, and has had a number of adverse seasons in succession, and this is reflected in its low increase of 3.1 per cent. The increase of 17.8 per cent in Melur cannot be a matter for surprise, as most of the villages in this taluk are in the Periyar delta and there has been migration, into this taluk, of labouring classes from the neighbouring drought-affected areas in Ramanathapuram district. Thirumangalam is a dry taluk and has also suffered due to the failure of the North-East Monsoon since 1947-48, and there has been migration from this taluk, of labouring classes for work and food. Hence the low increase of 7 per cent in this taluk. Kodaikanal taluk has shown an increase of 19.4 per cent. The extension of large scale plantain cultivation on the hills which is a speciality in this taluk has attracted immigrants from the plains, though the European population in Kodaikanal settlement has gone down appreciably. The large increase of 40.2 per cent in Madurai taluk is largely due to Madurai City which, next to Madras, is the largest City in the State. It is the headquarters of two districts, viz., Madurai and Ramanathapuram, a great pilgrim centre, and also a centre where there are ample educational facilities and also medical facilities. It continues

to be a prosperous and important textile and dyeing centre. One of the largest spinning mills in the world which is situated in this taluk, viz., the Harvey Mills, is located in this town and there are also other spinning mills and power loom factories. This is also one of the largest and most important handloom weaving centres in the State. As in other districts, the imposition of controls and food rationing has attracted a large number of families into this town.

The number of immigrants in Madurai district, as enumerated at this Census, is, 160,732 and they came mostly from Ramanathapuram district (81,113) and Tirunelveli district (33,298)."

(Extract from the Census Report—Part I.)

(ii) VITAL STATISTICS.

A statement showing the details of births and deaths and deaths due to various causes for the decennium 1941–50 in the district is furnished in *Annexure II*.

The average birth and death rates of 32.2 and 21.1 per mile registered in the district during the decade 1941–50 were practically the same as those of the State. Except for the comparatively high birth rate of 35.0 registered in 1942, there has been very little variation from the average birth rate in the district. The death rate after decreasing steadily from 22.1 in 1945 to 16.3 in 1949 has increased sharply to 22.0 in 1950, partly due to prevalence of severe epidemic of cholera. The average death rate of 3.4 per mille from respiratory diseases during the decade was very high when compared to the rate of 1.9 for the State. The average mortality rates from smallpox and fevers were below normal, while that from dysentery and diarrhoea were normal.

The maternal mortality rates recorded show a definite decrease year after year, and the average rate for the decade was 5.7 per 1,000 live births which is less than 8.1, the rate for the State.

(b) MEDICAL RELIEF ARRANGEMENTS.

A list of hospitals and dispensaries in each taluk is given below :—

Name of institution.	Number of beds.
Palni Taluk—	
1. Government Hospital, Palni	35
2. Special Armed Police Hospital, Palni	10
3. Local Fund Dispensary, Idaiyakottai	..
4. Local Fund Dispensary, Keeranur	..
5. Local Fund Rural Dispensaries of Indigenous Medicine, Thalaiyoothu	..
6. Local Fund Rural Dispensaries, Kallimandayam	..
7. Local Fund Rural Dispensaries, Virupakshi	..
Kodaikanal Taluk—	
1. Government Hospital, Kodaikanal	30
2. Local Fund Dispensary, Pannaikadu	..

Name of institution.	Number of beds.
Dindigul Taluk—	
1. Dindigul Government Hospital	50
2. Local Fund Dispensary, Kannivady	..
3. Local Fund Dispensary, Vedasahdud	..
4. Local Fund Indigenous Dispensary, Vadamadurai	..
5. Local Fund Indigenous Dispensary, Shanarpatti	..
6. Local Fund Rural Dispensary, Sithayankottai	..
7. Southern Railway Hospital, Dindigul	..
8. Leper Dispensary, Dindigul	..
Nilakkottai Taluk—	
1. Local Fund Dispensary, Alanganallur	..
2. Local Fund Dispensary Batlagundu	4
3. Local Fund Dispensary, Nilakkottai	..
4. Local Fund Hospital, Sholavandan	4
Melur Taluk—	
1. Local Fund Hospital, Melur	4
2. Local Fund Dispensary, Natham	..
3. Local Fund Rural Dispensaries of Indigenous Medicine, Karungalakudy	..
4. Local Fund Dispensary Vellalapatty	..
Periyakulam Taluk—	
1. Government Hospital, Periyakulam	34
2. P.W.D. Dispensary, Thekkady	..
3. Municipal Hospital, Bodinaikanur	4
4. Local Fund Dispensary, Andipatty	..
5. Local Fund Dispensary, Chinnamanur	..
6. Local Fund Dispensary, Cumbum	..
7. Local Fund Dispensary, Gudalur	..
8. Local Fund Dispensary, Thevaram	..
9. Local Fund Dispensary, Uthamapalayam	12
10. Local Fund Dispensary, Devadanapatti	..
11. Holy Redeemer Dispensary, Theni	34
Tirumangalam Taluk—	
1. Government Hospital, Usilampatti	20
2. Local Fund Hospital, Tirumangalam	4
3. Local Fund Dispensary, Saptur	..
4. Local Fund Rural Dispensaries of Indigenous Medicine, Kallikudy	..
5. Local Fund Rural Dispensaries of Indigenous Medicine, Sindupatty	..
6. Local Fund Rural Dispensaries of Indigenous Medicine, Elumalai	..
7. Local Fund Rural Dispensaries of Indigenous Medicine, T. Kallupatti	..
Madurai Taluk—	
1. Erskine Hospital, Madurai	605
2. Municipal Dispensary, East Madurai	..
3. Municipal Dispensary, Ponnagaram	..
4. Municipal Dispensary, North Avani Street	..
5. Municipal Dispensary, D.T.P.	..
6. Municipal Dispensary, West Gate	..
7. Municipal Dispensary, North Masi Street for Women and Children	..
8. Local Fund Dispensary, Tiruparankundram	..
9. Willis F. Pierce Memorial Hospital, Madurai	110
10. American Mission Hospital for Women and Children	120
11. Clark Caroline Hospital, Pasumalai	15
12. Mills Dispensary	..
13. Southern Railways Hospital, Madurai	18

There is X-Ray therapy and an X-ray apparatus for screening at the Erskine Hospital at Madurai. The Erskine Hospital has the following special departments attached to it—(1) Ophthalmic, (2) Tuberculosis, (3) Skin, (4) Leprosy, (5) Orthopaedic, (6) Venereal diseases and (7) Dental clinic. There is a blood bank in the hospital. The Government have approved

the proposal to supply Radium needles to the Hospital. The Government Headquarters Hospital as well as all the hospitals in the district run leprosy clinics. Nine beds are provided in the Government Headquarters Hospital for leprosy patients. The Swedish Mission Dispensary at Dindigul is intended solely for leprosy patients.

(c) WATER SUPPLY AND DRAINAGE.

There is protected water supply in the towns of Madurai, Periyakulam, Bodinayakanur, Kodaikanal, Palni, Dindigul and in Pannaikadu village in Kodaikanal sub-taluk. In Dindigul town water supply is got from wells sunk in the Oddukkam valley. But the supply is inadequate.

The particulars of the number of public wells in each taluk constructed under the Rural water supply scheme are furnished below :—

Name of taluk.	Number of public drinking water wells constructed.
Palni	148 (Government)
Kodaikanal	5
Dindigul	140
Nilakkottai	49 (Government)
Melur	65
Periyakulam	567
Tirumangalam	64 (Government)
Madurai	245

There are open drainage arrangements in Dindigul, Kodaikanal, Madurai, Periyakulam and Bodinayakanur towns and in Pannaikadu village.

(d) FAIRS AND FESTIVALS.

A list of fairs and festivals in each taluk in the district is furnished below :—

Place where the festival or fair is celebrated.	Name of the festival or fair.	Period of observance.	Other activities connected with the festival.
Festivals.			
Palni Taluk—			
1. Palni	Thaipoozam	10 days in February	
2. Do.	Mariamman Festival	One week in March	
3. Do.	Panguni Uthiram	10 days in April	
4. Do.	Skandashasti	7 days in October	
5. Do.	Thirukarthigai	7 days in November	
6. Salaipudur Athicombai.	Uchimahaliyammam Festival and Cattle Fair.	First week in June, one week	Cattle from Coimbatore, Dindigul and other places are gathered and sold.
7. Idyakottai	Mariamman Festival and Cattle Fair.	First week of April, one week	
Kodaikanal taluk—			
Poomparai, Vilpatti, and Thandigudi.	Panguni Uthiram in Murugan temples.	Panguni (March-April)	
Kodaikanal	Mariamman Festival	Chitrai (April-May)	
Perumamalai, hamlet of Adukkam.	St. Joseph's Festival	Chitrai (April-May)	
Kodaikanal	Ramzan	Vaigasi and Ani (June)	
Pannaikadu	Sri Rameswamy temple Festival.	Vaigasi (June)	
Kodaikanal	St. Mary's Festival	Avani (August)	
Dindigul taluk—			
1. Agaram (8 miles from Dindigul).	Muthalamman Festival	3 days in September and October.	A Cattle fair is conducted for one week on the occasion.
2. Athur (10 mile from Dindigul).	Vandikaliyammam Festival	Panguni (March-April) for 10 days.	A Cattle fair is conducted during the festival.
3. Thadiycombu	Soundaraja Perumal temple annual Festival.	Adi (July-August)	A Cattle fair is also conducted along with the festival.
4. Vadamadurai	Do.	Do.	Do.
5. Dindigul	Mariamman Festival	15 days in Masi—Panguni (March).	
Nilakkottai Taluk—			
Old Batlagundu	Mariamman Festival	One week in the month of Vaikasi.	About 10,000 worshippers gather. A cattle shandy is held during the festival.
Nirethan	Cattle Fair	One week in the first half of March every year.	Do.
Palamedu	Weekly Shandy	Every Saturday.	
Melur taluk—			
Tiruvadur	Thirumareinathaswami Ratha Uthavam.	10 days in the Tamil month of Vaigasi.	
Alagarkoil	Car Festival	July-August	Pilgrims from far off places attend the procession. This is an important festival for the Kallar community.
Kottampatty	Weekly Shandy	Every Tuesday	
Melur	Do.	Every Monday	
Natham	Do.	Every Sunday	

Place where the festival or fair is celebrated.	Name of the festival or fair.	Period of observance.	Other activities connected with the festival.
<i>Festivals—cont.</i>			
<i>Periyakulam Taluk—</i>			
1. Devadanapatti (Madurai Periyakulam Road).	Sri Kamakshiamman festival,	One week from the date of Mahasivarathri.	People from all over the district assemble here. Brass vessels are exhibited for sale during the festival.
2. Veerapandi (Theni—Kumili Road).	Sri Mariamman festival	.. Last seven days of the first Tamil month Chitrai.	About 4,000 people (all over from Periyakulam taluk) assemble here. There is a cattle fair in which fine bulls and cows are made available for sale.

Madurai Taluk—

1. Madurai Town	Chitra festival	7 days in the Tamil month of Chitrai (April-May) each year just before and after full moon day.	This festival starts with the Thirukalyanam of Sri Meenaksi and Chockanathar (the popular and ancient dieties of the city) in the great temple of Meenakshi. This is immediately followed by a procession of the newly wedded couple in a car around the temple. The idol of Sri Alagar is brought from Alagarkoil, 12 miles away from Madurai. A very large number of devotees from all parts of the district and outside participate in the festival. This is the biggest festival in the district. A cattle fair is also conducted by the Madurai Municipality for about two weeks. Exhibition held during the festival attracts crowds.
2. Madurai Town	Teppam festival	One day in the month of Thai (Poosam day).	There is a big beautiful tank with a mandapam at the centre in the eastern corner of Madurai Town. It is said to have been dug by King Thirumalai Naik during his reign. A decorated temple-shaped car built of wood, is floated in the tank and steered round the mantapam which is fully illuminated. Large crowds gather here and participate in the festival.
3. Tirupparankundram ..	Panguni Uthiram	March every year	There is a big cave temple at the foot of a rock at Tirupparankundram 6 miles away from Madurai town. Devotees from all parts of the taluk go over here and take part in the festival. Special buses are arranged during festival days.
4. Do.	Skanda Shaasti festival ..	October and November of every year.	
5. Do.	Thirukarthigai	November-December	

Place.	Fairs.	Days on which shandy is held.
Madurai town	Shandy on every Sunday and Thursday. Cattle fair is held on Thursday. Annual Cattle fair is conducted during Chitra festival.	
Thenur	Shandy on Monday.	
Appan Thiruppathi	Shandy on Friday	
Valayankulam	Shandy on Saturday. Weekly Cattle fair on every Friday.	

III. EDUCATIONAL INSTITUTIONS.

A statement showing the number of various kinds of educational institutions in each taluk is given in *Annexure III*.

IV. INDUSTRY.

(i) Cottage and Small-scale Industries.

A statement showing the number of important cottage and small scale industries in each taluk and the number of persons employed in them is furnished in *Annexure IV*.

(ii) *Large-scale Industries.*

There are no large-scale industries in Kodaikanal, Melur and Periyakulam taluks. The large-scale industries in the other taluks and the number of persons employed in them are furnished below:—

Name of taluk.	Name of Industry.	Number.	Number of person employed.
Palni ..	Rice Mills and Ginning Factories.	7	105
	Match Factory ..	1	60
Dindigul ..	Cotton Ginning and Pressing.	7	541
	Coffee curing works ..	3	136
	Tobacco and Cigar Factories ..	20	1,097
	Tanneries ..	20	280
	Match Factories ..	2	167
	Cotton spinning and Weaving.	1	393
	Iron-safe Manufacture ..	8	185
Nilakkottai ..	Sugar Factory ..	1	350
	Cotton Ginning ..	3	113
Madurai ..	Rice Mills ..	39	675
	Cotton and Spinning and Weaving.	16	17,570
	Handloom Weaving Factory ..	12	179
	Knitting Mills ..	1	685
	Dress Manufacture ..	5	173
	Transport Equipment ..	17	1,227

V. ITEMS OF GENERAL INTEREST.

Madurai is one of the largest pilgrim centres in South India. The famous temples of Goddess Minakshi and Lord Sundareswar situated in the heart of the city are sacred to the Hindus.

The Thirumala Naik Palace and the Moonakshi temple at Madurai are famous for their high architectural beauty.

Madurai was famous as a seat of learning from very early times. It is said that the Pandya capital was the home of the Tamil Sangam (Academy), which sat in judgment on literary works. The New Madurai Tamil Sangam, a flourishing literary society, was established in 1901. Its object is the improvement of the Tamil language. The sangam possesses a library, containing some of the ancient manuscripts.

Another famous pilgrim centre in the District is Palni, where the temple dedicated to God Sri Subramanya attracts large crowds of devotees throughout the year from all parts of India.

There is a temple called Alagarkoil at the foot of the Alagar hills in Kidaripatti village of Melur taluk which attracts a large number of pilgrims for the Chitra festival in April-May. The hills also contain a spring which is used for rearing beautiful flower gardens near the temple.

Madurai, Palni, Dindigul, Kodaikanal, Bodinaickanur and Periyakulam are the municipalities in the District.

There is a Tamil-Nad Polytechnic Institute at Madurai.

Kodaikanal at an average height of 7,000 feet is a sanatorium and hill station attracting a large number of visitors during summer.

ANNEXURE I.

[Vide item I (g) of the Introduction.]

STATEMENT SHOWING THE PARTICULARS OF THE AREA CULTIVATED WITH FOOD CROPS AND COMMERCIAL CROPS IN EACH TALUK OF THE DISTRICT FOR THE YEAR 1948-49.

NOTE.—Subdivision—(i) Number of establishments.
(ii) Number of persons employed in them.

PART I.

Section (1).

A—GENERAL POPULATION TABLES.

A-I—Area, Houses and Population.

This table shows for the rural and urban areas of each taluk and for the district, the area, the number of inhabited villages and towns, occupied houses and the total population with distribution by sex.

2. The district area shown in column (2) of this table is that supplied by the Surveyor-General of India. Area figures furnished by the Central Survey Office, Madras, have been adopted for the taluks. The total area of the taluks as furnished by the Central Survey Office, Madras, shown within brackets in column (2) differs from the area of the district furnished by the Surveyor-General.

3. "Village" is the revenue administrative unit within defined boundaries. This table gives particulars in respect of all villages containing one or more groups of

habitations. Villages with no habitations are not included in this table.

4. "Town" is a place of usually not less than 5,000 inhabitants, possessing distinct urban characteristics. Cantonments have been treated as forming part of the towns in which they are situated. The following places not having the population minimum of 5,000 have been treated as towns for the reason that they possess definitely urban characteristics:—

(1) Peraiyūr—Tirumangalam taluk.

(2) Keeranur—Palni taluk.

5. "House"—Every dwelling with a separate main entrance has been treated as a house for census purposes.

Taluk.	Area in square miles.	Villages.	Towns.	Occupied houses.			Population.

20. MADURAI DISTRICT.

A-II—Variation in Population during fifty years.

This table compares the population of the district and of each taluk in the district as ascertained at the Census of 1951 with the corresponding figures of the five previous censuses. The figures recorded at the previous censuses have been adjusted for subsequent territorial changes, if any, in order to afford a correct basis for comparison. The adjusted figures show the population of taluks and the district as constituted at present.

2. The main territorial changes that occurred during the decade are :—

(1) The inclusion of the following villages from Karur taluk of Tiruchirappalli district into the Dindigul taluk of this district :—

Location Code number and name of the Village.	Location Code number and name of the Village.
1 Landakattai.	4 Thirukurnam.
2 Gudalur.	5 Vellodu.
3 Theendakal.	6 Alambadi.

Location Code number and name of the Village.

- 7 Kottanatham.
8 Karungal.
9 Dholipatti.
10 Palayam.

Location Code number and name of the Village.

- 11 Mallapuram.
2 Karikali.
3 Ulliakottai.
4 Chinnulupai.

and (2) the transfer of the following villages from Tirumangalam taluk of this district to Sattur and Srivilliputtur taluks of Ramanathapuram district :—

Tirumangalam to Sattur taluk.

1 Vellore.

Tirumangalam to Srivilliputtur taluk.

- | | |
|----------------|--------------------|
| 1 Mathur. | 5 Marukalamkathan. |
| 2 Thambipatti. | 6 Thulukkappatti. |
| 3 Kodikulam. | 7 Ammapatti. |
| 4 Ayakulam. | |

Taluk.	Persons.	Variation.	Net variation 1901-1951.	Males.	Variation.	Females.	Variation.

20. MADURAI DISTRICT.

A-III—Towns and Villages classified by Population.

This table shows the total number of inhabited towns and villages in each taluk of the district distributed on population basis under three main heads with sub-heads under each as follows :—

(1) Towns and villages with less than 2,000 population :—

- (a) Population with less than 500.
- (b) Population between 500 and 1,000.
- (c) Population between 1,000 and 2,000.

(2) Towns and villages with population of 2,000 to 10,000—

- (a) With population of 2,000 to 5,000.
- (b) With population of 5,000 to 10,000.

(3) Towns and villages with population of 10,000 and above :—

- (a) With population of 10,000 to 20,000.
- (b) With population of 20,000 to 50,000.
- (c) With population of 50,000 to 100,000.
- (d) With population of 100,000 and above.

II. For definition of “Town” and “Village” see fly-leaf to Table A-I.

20. MADURAI DISTRICT.

A-IV—Towns classified by Population with variation since 1901.

This table shows the population (with distribution by sex) of cities and towns of the district at each of the last six enumerations.

2. The following towns have been treated as cities for the 1951 census:—

- (1) Madurai.
- (2) Dindigul.

3. The cities and towns have been arranged in this table according to their population in 1951 under the following six classes:—

Class.	Limits of Population.
I	100,000 and over.
II	50,000 to 100,000.
III	20,000 to 50,000.

Class Limits of Population.

IV	10,000 to 20,000.
V	5,000 to 10,000.
VI	Under 5,000.

4. Where possible, the former population of places treated for the first time as towns in 1941 and at this Census, has been extracted from Village Statistics. Where this could not be done, the columns have been left blank.

5. The population of towns for previous Censuses are those then recorded. No adjustments have been made for intervening changes in area.

6. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M),(P),(C), respectively within brackets.

7. Towns newly appearing at this Census have been printed in *italics*.

§ Some area was transferred from Madurai district to Ramanathapuram district between 1901 and 1911.

20. MADURAI DISTRICT

A-V—Towns arranged talukwise with Population by Livelihood Classes.

This table shows the analysis of the Urban population in towns by livelihood classes, instead of by communities as in the previous Census.

2. Under the Indian Census Economic Classification Scheme, the people have been divided into two broad livelihood categories, viz., the Agricultural Classes and the Non-Agricultural Classes. There are four Agricultural classes and four Non-Agricultural classes as shown below :—

(i) *Agricultural Classes.*

- I. Cultivators of land wholly or mainly owned and their dependants.
- II. Cultivators of land wholly or mainly unowned and their dependants.
- III. Cultivating labourers and their dependants.
- IV. Non-cultivating owners of land, agricultural rent receivers, and their dependants.

(ii) *Non-Agricultural Classes.*

Persons (including dependants) who derive their principal means of livelihood from :—

- V. Production (other than cultivation).
- VI. Commerce.
- VII. Transport.
- VIII. Other services and miscellaneous sources.

3. In this table the figures for the agricultural livelihood classes I to III are not given separately but have been clubbed together.

4. The towns in each taluk of the district are arranged in the order of their population as in Table A-IV.

5. Municipality, Panchayat and Cantonment are indicated by the use of the letters (M),(P),(C), respectively within brackets.

6. For the definition of a "Town" see fly-leaf to Table A-I.

7. Towns newly appearing at this Census have been printed in *italics*.

The data contained in this table have been given for each taluk in the district.

2. The areas shown in column (2) of the table for the district and the taluk "total" are the latest figures furnished by the Central Survey Office, Madras. The areas given for "rural" are those furnished by the District Officers. The areas for "urban" have been obtained by deducting the figures for "rural" from those for district and taluk "total".

3. The district area furnished by the Surveyor-General, India, which has been shown in Table A-1 could not be adopted in this table as talukwise figures have not been furnished by him. The district areas given by the Surveyor-General differ in varying degrees from those furnished by the Central Survey Office, Madras.

E—Summary figures by taluks.

4. Previous census figures of population have been adjusted with reference to the inter-district transfers. The rural and urban population figures have been taken as they were at the 1941 and 1931 Censuses and as they are at the present Census, regardless of the changes of rural areas into urban areas and *vice versa* from Census to Census, for the purpose of calculating percentage variation between 1931 and 1941 and between 1941 and 1951. For calculating density for "rural" and "urban" for 1941, the areas of the towns, newly formed at the present Census rounded to the nearest square mile have been deducted from the areas given for urban in column (2) for 1951 and added to the areas given for rural, in the districts and taluks where new towns have been recognized.

Taluk.	Area in Sq. miles.	Population.		Percentage Variation.		Density.				Livelihood classes.

20. MADURAI DISTRICT.

B—ECONOMIC TABLES.

B-I—Livelihood Classes and Sub-classes.

This table shows by Rural Urban break-up for each census tract in the district the distribution of population, sex-wise, among the eight livelihood classes and the three sub-classes, viz., self-supporting persons, non-earning dependants and earning dependants under each livelihood class into which the economic characteristics of the people have been classified under the I.C.E.C. Scheme—vide fly-leaf to Table A-V.

2. The areas comprised in each of the Census tracts into which this district has been delimited for purposes of Census tabulation are given below :—

Rural Tracts.

No. 178.—All the villages and panchayats not treated as census towns in Palni and Kodaikanal taluks.

No. 179.—All the villages and panchayats not treated as census towns in Dindigul taluk.

No. 180.—All the villages and panchayats not treated as census towns in Nilakkottai taluk.

No. 181.—All the villages and panchayats not treated as census towns in Melur taluk.

No. 182.—All the villages and panchayats not treated as census towns in Periyakulam taluk.

No. 183.—All the villages and panchayats not treated as census towns in Tirumangalam taluk.

No. 184.—All the villages and panchayats not treated as census towns in Madurai taluk.

Non-City Urban Tracts.

No. 56.—Palni, Ayakudi and Keeranur towns in Palni taluk, Melur and Natham towns in Melur taluk, Kodaikanal town in Kodaikanal taluk, Sholavandan, Batlagundu (Vattlagundu) and Nilakkottai towns in Nilakkottai taluk.

No. 57.—Periyakulam, Bodinayakanur, Cumbum, Gudalur, Chinnamanur, Allinagaram, Uttamapalayam, Kombai, Thevaram and Andipatti-Jakkampatti towns in Periyakulam taluk, Tirupparankundram town in Madurai taluk, Tirumangalam, Usilampatti, Elumalai and Peraiyur towns in Tirumangalam taluk.

City Tracts.

No. 27.—Dindigul city in Dindigul taluk.

No. 28.—Madurai city in Madurai taluk.

3. The livelihood classification is based on the principal means of livelihood of the self-supporting persons, the principal means of livelihood for earning and non-earning dependants being the same as that of the self-supporting persons on whom they are dependant.

4. "The principal means of livelihood" is the means of livelihood which provides the largest or the major part of the income in the case of self-supporting persons who have more than one means of livelihood. In the case of other self-supporting persons, it is the only means of livelihood.

5. A person has been regarded as "self-supporting", if the income secured by the person is sufficient at least for his (or her) own maintenance at the level of living adopted by him (or her) at the time of the Census. The income secured may be in cash or kind. Anyone who is not a "self-supporting" person in this sense has been regarded as a dependant. An 'earning' dependant is a person who secures an income which is not sufficient to support him (or her). A person who does not secure any income either in cash or kind, is a 'non-earning dependant.'

6. The non-earning dependants include persons performing housework or other domestic or personal services for other members of the same family household, but do not include "unpaid family workers" or persons who take part along with the members of the family household in carrying on cultivation or a home industry as a family enterprise. These latter persons have been classed as either self-supporting or earning dependants according to the share of income attributable to them.

7. The self-supporting persons shown in Livelihood Class VIII include also persons who derive their income otherwise than through productive activity, i.e., persons coming under the following groups, details for which are given in the fly-leaf to Economic Table B-III :—

(1) Persons living principally on income from non-agricultural property ;

(2) Persons living principally on pensions, remittances, scholarships and funds ;

(3) Inmates of jails, asylums, alms houses and recipients of doles ;

(4) Beggars and vagrants ; and

(5) All other persons living principally on income derived from non-productive activity.

20. MADURAI DISTRICT.

B-II—Secondary means of Livelihood.

This table gives for the district the number of persons, in each of the eight livelihood classes mentioned in economic Table B-I, who possess a secondary means of livelihood ; and cross classifies them (according to the nature of such means of livelihood) under the same eight livelihood classes.

2. The secondary means of livelihood shown for self-supporting persons is the means of livelihood next in

importance to their principal means of livelihood. In respect of earning dependants, it is the means of livelihood which provides the earning, or the largest part of their income if they have more than one source of income.

3. Non-earning dependants and self-supporting persons who have no secondary means of livelihood are excluded from this table.

Number of persons deriving their secondary means of livelihood from.

This table gives figures for each Census tract in the district. The areas comprised in each census tract have been specified in the fly-leaf to economic table B-I. In this tables the self-supporting persons in the four Non-Agricultural Classes given in Economic table B-I are distributed in the various divisions and subdivisions of Industries and Services under the Indian Census Economic Classification Scheme, according to their secondary Economic Status, namely, Employer, Employee and Independent worker.

3. (An) Employee (is) a person who ordinarily works for some other person for a salary or a wage, whether in cash or in kind in order to earn his livelihood.

4. (An) Independent worker (is) a person who works on his own without being employed by anyone for a salary or wage and who does not also employ anyone else in order to earn his livelihood.

5. Under the New Indian Census Economic Classification Scheme all Employers and Independent workers have been classified with reference to the Commodity produced or services performed by them individually. As regards Employees, all persons engaged in Production, Commerce, or Transport (and not being domestic servants) have been classified with reference to their own activity and without reference to that of their employer. Domestic servants have been classified in one subdivision without reference to the nature of their work. All other Employees (including all managerial and supervisory employees, clerical services, messengers, watchmen and unskilled labour of every description) have been classified with reference to the commodity produced or services rendered by their Employers.

6. The Non-agricultural classes classified in Economic Table B-I, correspond to the divisions and subdivisions into which they are distributed in this table as follows:—

Division and subdivisions of the Indian Census Economic Classification Scheme.

Division 0.—Primary Industries not elsewhere specified.
Division 1.—Mining and quarrying.
Division 2.—Processing and Manufacture of Foodstuffs, Textiles, Leather and products thereof.
Division 3.—Processing and Manufacture—Metals, Chemicals and Products thereof.
Division 4.—Processing and Manufacture.—Not elsewhere specified.

Class VI.—Commerce . .

Division 6.—Commerce.

Class VII.—Transport . .

Subdivisions 7-0 to 7-4 of Division 7—
Transport Storage and Communi-
cations.

Class VIII.—Other services and miscellaneous sources.

Division 5.—Construction and Utilities.
Division 7.—Transport, Storage and Communications with the exception of subdivisions 7-0 to 7-4.
Division 8.—Health, Education and Public Administration
Division 9.—Services not elsewhere specified.

Class VIII also includes persons who derive their principal means of livelihood from miscellaneous sources (otherwise than through economic activity), e.g., income from investments, pensions and family remittances, proceeds of begging and other unproductive activities. These are not however, included in this table as it is limited to Industries and Services. Hence there will be a difference to this extent between the total self-supporting persons of the Non-Agricultural classes in Economic Table B-I and the total of this table. The reconciliation will be effected by adding the figures given in the next paragraph.

7. Details of persons who derive their principal means of livelihood otherwise than through productive activity and who are included under livelihood Class VIII mentioned in the fly-leaf to Economic Table B-I are given below:—

SMALL-SCALE INDUSTRIES.

I—Distribution of Small-scale Industries by Tracts.

This table gives for each census tract, the number of small-scale industrial establishments under categories, non-textile and textile, with details for perennial and seasonal establishments.

2. The table covers only those establishments, to which the Factories Act does not apply. It relates, therefore, to all associate activities, where articles are produced, repaired or otherwise treated for sale, use

3. The areas covered by each census tract in the district have been given in the fly-leaf to Table B-I.

Tract number.	Total number of Establishments.			Number of Non-Textile Establishments.						Number of Textile Establishments.					
	(1)	(2a)	(2b)	(2c)	Perennial (9 months and over).		3 months and over but less than 9 months.		Less than 3 months.		Perennial (9 months and over).		3 months and over but less than 9 months.		Less than 3 months.

30. MADURAI DISTRICT.

II—Employment in Textile Establishments.

This table gives for each census tract the number of persons employed in the textile establishments shown in Table I. The occupations have been grouped with reference to the scheme of grouping adopted in the Indian Census Economic Classification Scheme.

2. 'Boys' and 'Girls' referred to in the table, refer to persons below 15 years of age.

3. The areas covered by each census tract in the district have been given in the fly-leaf to Table B-I.

NOTE.—The symbols 'W.T.' and 'P.T.' adopted in this table stand for 'whole-time' and 'part-time.'

Number of persons employed.

III.—Employment in Non-Textile Establishments.

This table gives for each census tract the number of persons employed in non-textile establishments referred to in Table I. The establishments have been grouped with reference to the scheme of grouping adopted in the Indian Census Economic Classification Scheme.

2. As in Table II, 'Boys' and 'Girls' refer to persons below 15 years of age.

3. The areas covered by each census tract in the district have been given in the fly-leaf to Table B-I.

NOTE.—The symbols 'W.T.' and 'P.T.' adopted in this table stand for 'whole time' and 'part-time'.

20. MADURAI DISTRICT.

INFIRMITY.

L—Incidence of Leprosy by Livelihood Classes for Taluks.

This table shows for each taluk in the district the incidence of leprosy among the population, males and females by the eight livelihood classes.

2. Figures are given separately for leprosy and doubtful cases. The former refers to clear cases of leprosy while the latter to suspected cases of Leprosy.

3. Information regarding the number of leprosy cases and doubtful cases in each village/town of each tract has been given in the appropriate Rural and Urban Statistics.

Taluk.	Agricultural Classes.

Section (II). Rural Statistics.

This is an abstract giving a complete list of villages and towns in each taluk in the district with sex-wise distribution of population in each livelihood class in the villages alone. Among the other items of statistical information furnished, those relating to occupied houses, households, inmates of institutions and houseless persons and literates, were obtained from the National Register of Citizens prepared for each village from the information recorded in the enumeration slips. Village-wise statistics of textile and non-textile establishments collected

in the course of the Census of Small Scale Industries and the number of leprosy cases and doubtful cases are also given in the abstract.

2. For detailed explanation of the livelihood classes I to VIII see fly-leaf to general population Table A-V.

3. The area included in each Census tract in the district has been furnished in the fly-leaf to Table B-I.

4. A list of villages with a population exceeding 5,000 but treated as rural is given as an appendix.

Location Code number and name of Village or Town	Area in sq. miles.	Occupied Houses.		Total number of persons enumerated (including inmates of Institutions and houseless persons).		Inmates of Institutions and houseless people.		Literates.	
		Number of houses.	Number of households.	Persons.	Males.	Females.	Males.	Females.

CITY TRACT No. 28, MADURAI TALEUK—cont.

20. MADURAI DISTRICT.

PART II
C—HOUSEHOLD AND AGE (SAMPLE) TABLES.

C-1—Household (size).

This table has been prepared in respect of a population covering the members of sample households selected from the entries in the National Register of Citizens on the basis of one household for every one thousand households. The sample households selected include roughly every tenth household in every hundredth house-numbering block in the Rural areas and every fiftieth household in every twentieth house-numbering block or locality in Urban areas.

2. The Agricultural and the Non-Agricultural classes refer to the four Agricultural and the four Non-Agricultural classes given in Table A-V. The backward Classes include

the Scheduled Castes, the Scheduled Tribes and other classes not treated as Non-Backward by the State Government for the purpose of 1951 Census. Anglo-Indians are included among the non-backward classes.

3. Columns (2) to (5) of the table relate to all the households and household population in each census tract while columns (6) to (17) relate to the sample households selected.

4. The figures have been given for each Census Tract (vide fly-leaf to Table B-I) in the district.

Tract No.				Total number of households.	Total household population.			Total number of sample households.	Sample household.			
					Persons.	Males.	Females.		Sample of household population.

20. MADURAI DISTRICT.

C-II—Livelihood Classes by Age-groups.

This table shows the livelihood distribution by age-groups for rural, urban and district totals in respect of a sample population based on a ten per cent sample taken out when the enumeration slips were initially sorted. The ten per cent sample was taken out as follows :—

Each enumeration pad which consisted generally of 106 enumeration slips was broken and the slips relating to displaced persons which had been noticed during the process of the preliminary scrutiny were removed from the pack of slips for being dealt with separately. The pack was then "cut" as in a card game. The lower portion was placed above the upper portion and the slips were dealt into two pigeon-holes one marked "G" and the other marked "S" as follows :—

The first five slips were placed in the pigeon-hole "G", then one slip was placed in the pigeon-hole "S". Thereafter for every nine slips placed in the pigeon-hole "G", one slip was placed in the pigeon-hole "S" until the total number of slips left was less than 9 and these residuary slips were all put into hole "G". All the slips contained in the pigeon-hole marked "S" were taken out, counted and marked as 'Sample' slips.

2. No smoothing formula has been adopted in preparing the table as in previous censuses and the figures have been tabulated as actually returned in suitable age-groups.

3. The figures under age 'O' represent infants below one year.

Age-group.	Sample of population.			Livelihood classes.					
	Persons.	Males.	Females.	Agricultural classes.					
				I. Cultivators of land wholly or mainly owned and their dependants.	II. Cultivators of land wholly or mainly unowned and their dependants.	II. Cultivating labourers and their dependants.

Madurai—25A										

20. MADURAI DISTRICT.

C-IV—Age and Literacy.

This is yet another table prepared in respect of the ten per cent samples of the general population. (Vide Fly-leaf to Table C-II).

2. Age-groups 0 and 1 to 4 given in Table C-II have been combined into one age-group, and the age-group 5 to 14 has been split into two sub-groups 5 to 9 and 10 to 14. Persons of age-group 0 to 4 are treated as illiterate.

3. The figures are given for each Census tract (Rural and Urban) in the district, but not analysed by religion as in the previous censuses.

4. 'Literates' are those who are able to read and write any simple letter in any language.

5. Persons who are partly literate, i.e., persons who are able to read only, have been included among the illiterates. Details for such persons are given below :

Tract No.	Total.		Age, 5—9.		Age, 10—14.		Age, 15—24.		Age, 25—34.	
	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.
