## PREFACE

It has been the practice since 1951 to publish for each District a Census Handbook, containing the Census Statistics for each village and town in the District together with certain administrative statistics collected from the various Departments of the State Government. This publication was compiled by the Census Department and published by the State Government. The contents of the District Census Handbook have been considerably improved during the subsequent Censuses and in 1971 this publication is being brought out in three separate parts—

Part — A — Village and Town Directory.

Part — B — Village and Townwise Primary Census Abstract ; and

Part — C — Analytical Report and Administrative Statements and District Census Tables.

The history and origin of the District Census Handbook have been given in the Introductory Note of this volume.

The present volume of Part — A has two sections — Village Directory and Town Directory. In the Village Directory, basic information relating to the villages such as Educational, Medical, Drinking water supply, Electricity, Communications, Post and Telegraphs facilities as well as information on area, staple-food, land use data and other allied information are given. In the second section viz. Town Directory, information for the Towns about the Status, growth history, functional category, Physical aspects, Municipal finance, Civic and other amenities are presented. Details about the Medical, Educational, Recreational facilities available in the towns as well as particulars regarding Trade, Commerce, Industry and Banking are also given. The population particulars of the towns as per 1971 Census together with the population of these towns since 1901 and Religious composition of the population in 1971 are also furnished.

The details other than population particulars presented in these statements have been obtained from the concerned Departments of the State Government for which I am thankful to the Collector. I am also grateful to the Revenue subordinates as well as the Municipal Commissioners for the assistance that they have rendered.

I take this opportunity to express my gratitude to Sri A. Chandra Sekhar, Registrar General, India, for the guidance given to me and for continuing the publication of the District Census Handbooks during 1971 Census also.

K. CHOCKALINGAM,  
*Director of Census Operations,  
Tamil Nadu and Pondicherry.*

## **ACKNOWLEDGEMENT**

It is my pleasant duty to acknowledge the able assistance given by the following Officers and Staff of my Office in the preparation of this volume.

1. Shri V. Arumugam, I.A.S., Deputy Director
2. Shri V. R. Chandran, Deputy Director
3. Shri M. Panchapakesan, Investigator
4. Shri Anser Ahmed, Tabulation Officer
5. Shri S. Govindarajulu, Statistical Assistant
6. Smt. R. Rukmani, Computer
7. Shri N. L. Jagatheesan, Computer
8. Shri P. Victor Jayaraj U.D.C.
9. Shri N. B. Muruganandam, U.D.C.
10. Shri N. Chandran, Draftsman.

**K. CHOCKALINGAM**  
**DIRECTOR OF CENSUS OPERATIONS**

# TIRUNELVELI DISTRICT

## VILLAGE AND TOWN DIRECTORY

### INTRODUCTORY NOTE

#### *General :*

The District Census Handbook for each district presenting the census data for the villages and towns of the District is being published from 1951 Census. Till then, the village statistics showing merely the number of houses and population by religion in respect of each village and town were published as supplement. In 1951, the general population tables, economic tables and village-wise and town-wise statistics relating to Taluks were presented as Part-I and Social and Cultural Tables as Part-II. In 1961 also, the District Census Handbook was published in two volumes. In volume-I, all the Census tables giving taluk-wise data with a narrative report were published and Volume-II was confined to present village-wise and town-wise statistics known as Primary Census Abstract which gives the basic data like population, literates, scheduled castes, scheduled tribes and the industrial classification of workers and non-workers. As these data are finalised in the first stage of tabulation itself in 1971 Census, it has been decided in this Census to present the District Census Handbook in 3 Parts.

Part-A contains the Village and Town Directory which will show the land use pattern data, basic amenities available in the villages and the conditions of the towns.

Part-B contains the Village and Town P.C.A. while part-C presents the administrative statistics collected and compiled from various departments, Census tables and a short analytical report. This method of preparing the District Census Handbook in 3 parts is also to facilitate the timely publication of the basic data relating to villages and towns which are required by various departments and research scholars.

#### *Method of presentation :*

The present volume being Part-A presents the Village and Town Directory as the titles suggest. It lists out all the villages and towns in the State.

The Village Directory is presented at the taluk level and Town Directory at district level. The Village Directory is presented first followed by the Town Directory.

#### *Village Directory :*

In the Village Directory, for each taluk, a statement showing the villages, their extent, the amenities like Educational, Medical, Drinking Water Supply, Communications, Postal and Telegraphs, etc. available within each village and the land use pattern are given. In addition to this, particulars in regard to staple food, land use data and certain other miscellaneous information such as the existence of veterinary hospital, co-operative societies, banks etc., are also furnished. An alphabetical list of villages has also been prepared indicating the Location Code Number of the village for purpose of quick reference. Apart from these, the land use particulars of places comprising of non-city urban units (Non-municipal area) is given as Appendix I. A talukwise abstract showing the total number of institutions and number of villages where such basic amenities like Educational, Medical, Drinking Water Supply, Communications, Postal and Telegraphs, etc. are available has also been prepared and given as Appendix II.

The particulars relating to Village Directory have been collected from the concerned Tahsildars for each revenue village as a whole and particulars in respect of Non-City Urban Units (Non-Municipal Units) and Municipal Units have not been furnished in the Village Directory Statement. The details of the data furnished in different columns of the Village Directory and the method of collection of the data on land use pattern etc. are indicated below:—

#### **Location Code Number :**

Numbers have been assigned to the administrative units of district, taluk and village to denote their location. By a combination of these numbers, it would be possible to know the exact location of an area. The district number is given along with the name of the district on the cover page and the taluk number is shown against the Taluk name in the concerned pages. The Villages in each Taluk are arranged in Location Code order.

The Village number has been given against the name of the concerned unit and the numbers have been assigned in Arabic numerals for each taluk separately.

#### **Educational Amenities:**

|                |      |                      |
|----------------|------|----------------------|
| Primary School | ...  | Upto Vth Standard    |
| Middle School  | .... | Upto VIIIth Standard |
| High School    | .... | Upto XIth Standard   |

#### **Power Supply :**

Villages having electrification facilities for agricultural purposes only are also taken as electrified and a suitable indication in this regard has been noted in the remarks column.

#### **Communications :**

Villages having Railway Station within a mile are taken as served by train facilities. Villages connected by road are also indicated in this column.

#### **Staple Food :**

Food of the majority population of the village during the major portion of the year is taken as staple food.

#### **Forest:**

This includes all actually forested area, the lands classified or administered as forest under any legal enactment dealing with forests whether state owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion has been included under the appropriate heading of cultivated or uncultivated land.

#### **Irrigated and unirrigated land:**

Irrigated and Unirrigated covers all agricultural land and includes net area sown with crops and orchards and also current and other fallows.

As far as possible, the extent of irrigated land under different types of irrigation as river, tank and well and the total area irrigated have also been indicated.

#### **Cultivable Waste :**

This includes lands fit for cultivation, whether or not taken up for cultivation or once taken up for cultivation but not cultivated for more than five years in succession.

Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or unassessed and may lie in isolated blocks or within cultivated holdings. Lands under thatching grasses, bamboo bushes and other groves for fuels etc., which are not included under orchards or forests shall also come under this head. All grazing lands whether they are permanent pastures and meadows are not village common and grazing lands within the forest areas are included in this column.

#### *Area not available for cultivation :*

This includes land not available for cultivation such as barren and uncultivable land and land put to non-agricultural use. Land put to non-agricultural use are lands occupied by buildings, roads and railways or under water e.g. Rivers and Canals and other lands put to uses other than agricultural purposes.

Barren and uncultivable lands cover all lands, like mountains, deserts etc. lands which cannot be brought under cultivation unless at a high cost, whether such land is in isolated blocks or within cultivated holdings.

#### *Town Directory :*

Town Directory presents important and useful information like civic and other amenities available in the towns. The details relating to each of the towns have been presented in the form of 7 statements as given below :

Statement-I : Status, Growth History and Functional Category of Towns.

Statement II: Physical Aspects and Location of Towns (as on 1969)

Statement-III : Municipal Finance (as on 1968-69)

Statement-IV : Civic and other amenities (as on 1969)

Statement-V : Medical, Educational, Recreational and Cultural Facilities in Towns (as on 1969)

Statement-VI : Trade, Commerce, Industry and Banking (as on 1969)

Statement-VII : Population by religion (as per 1971 Census)

#### *Location Code Number :*

To distinguish the town from the village the Location Code Numbers have been given in Roman numerals and these numbers have been assigned in a continuous order for the District as a whole.

#### *Census Definition of Towns :*

Places having the following characteristics have been treated as urban :

1) A Municipal Corporation area or a Municipal area, a Town Committee or notified Area Committee or a Cantonment Board;

2) If it does not have the above administrative status then it should have the following urban characteristics.

a) A minimum population of 5,000 (estimated for 1971)

b) A density of not less than 400 per sq. km. i.e. 1000 per sq. mile

c) 75% of the male working population should be in non-agricultural sector.

Even, places which do not satisfy the above criteria, if in the opinion of the concerned Collector are fit to be declared as urban have been treated as urban. The urban area having population of less than one lakh is known as "Town" and the area having population of more than one lakh is called "City"

The number of towns covered by the Directory in Tirunelveli District are 52. Among these the areas treated as towns for the first time during this Census are given in Annexure (1).

### *Definition of concepts and terms used in Town Directory :*

#### *Urban Agglomeration :*

An urban agglomeration is a continuous urban spread constituting a town and its adjoining urban out growths or two or more physically contiguous towns together with continuous, well recognised urban outgrowths, if any, of such towns.

The details of urban agglomerations in this district with its constituent units are given in Annexure (2).

#### *Standard Urban Areas :*

Rural and Urban areas contiguous to the towns and cities having population of 50,000 and more which have at present influence and inter-action with the core town and also places which are likely to have such influence and inter-action have been delineated as standard urban areas. Thus all areas contiguous to the core town of population of 50,000 and above having any or all of the following characteristics have been included.

a) Predominant urban land use ;

b) Intensive inter-action with the urban centres as reflected in commutation for the purposes of work and secondary education facilities; extension of city bus service; sale of commodities; like milk dairy products, vegetables (other than those transported by rail or truck-haul) and purchase of food grains, cloths and general provisions etc. by the consumers directly ;

c) Anticipated urban growth as a result of locational decisions relating to industry, market, transport and communications, administrative and servicing functions ;

d) Existence of big village with a large proportion of working force engaged in non-agricultural industrial categories.

Thus, the standard urban area can be defined in short as the projected growth area or city, as it would be in 1991, taking into account not only the towns and villages which would get merged into the city but also the intervening areas which are potentially 'urban'

The list of Standard Urban Areas in this district are given in Annexure (3).

#### *Statement-I : Civic Administration Status :*

It denotes whether a town is a corporation or a municipality or a Panchayat or a township.

### **Functional Category :**

Based on the percentage of workers in broad types of economic activities, the functional category for the town has been determined. The workers are characterised into 9 industrial categories which is based on the nature of economic activities carried on in an establishment. The following are the 9 industrial categories.

- I. Cultivators
- II. Agricultural Labourers
- III. Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
- IV. Mining and Quarrying
- V. Manufacturing, Processing, Servicing and Repairs
  - (a) Household Industry
  - (b) Other than Household Industry
- VI. Construction
- VII. Trade and Commerce
- VIII. Transport, Storage and Communications and
- IX. Other Services

These 9 categories have been re-grouped into 5 broad functional categories. They are as follows :—

(i) **Primary Activities (Cultivation and Allied Activities):**

Comprising of industrial categories I, II, III and IV.

(ii) **Industry (Manufacturing, construction and allied activities)** Comprising of industrial categories V (a) and (b) and VI

(iii) **Trade and Commerce :**

Comprising of industrial category VII.

(iv) **Transport:**

Comprising of industrial category VIII.

(v) **Services:**

Comprising of industrial category IX.

In cases where the percentage of workers under anyone of the above five broad categories form 40% or more of the total workers, the concerned category alone would have been indicated against this column. If the percentage is less than 40, then the next predominant category is also taken into account and if the total of the two forms 60% or

above, both the broad categories would have been indicated. If the total of the two major categories falls below 60% then the third predominant category is also taken into account and then the name of all the three concerned categories would have been indicated.

A town where only one functional category has been indicated can be described as 'Mono-functional town' i. e. to say a town having only one predominant function. A town against which two broad categories have been recorded is known as Bi-functional town' i.e. to say town having two functional categories. A town in which three functional categories have been noted is known as Multi-functional town' i.e. to say a town which has more than two predominant functional categories.

### Statement II.

The physical and locational aspects as in 1969 have been covered in this statement. Under physical aspects annual rainfall and temperature figures are furnished. For annual rainfall, figures were collected for minimum period of 20 years for the District and the average was worked out. The temperature figures were obtained for 25 years from the Meteorological Department for the District and the District average figures are given for the towns. Regarding Hill Stations separate figures were furnished for rainfall and temperature. For Col. (7) nearest city with population of 1 lakh or more is furnished according to 1971 Census. For the other cols. figures obtained from the Executive Officers, Municipal Commissioners and Tahsildars are given. In Col. 12, the zero within the brackets denotes that the referent town is enjoying road transport facilities.

### Statement III :

This refers to the "receipts and expenditure" of Municipal Finance for 1968-69. The various sources of receipt and expenditure are furnished in terms of hundreds.

### Statement IV :

The civic and other amenities existing in the towns as on 1969 are given. For cols. other than electrification the data were obtained from the Executive Officers and Municipal Commissioners of the concerned towns. Electrification particulars were obtained from the Electricity Board, Madras.

#### Electrification :

##### i) Domestic Connection :

This refers to the number of services given to houses for domestic purposes, for fans, lighting etc.

##### ii) Industrial Connection :

This refers to the number of services effected to L. T. Industries such as workshops flour mills, oil mills, grinding machines, cotton ginning, Engineering Industries etc.

##### iii) Commercial Connection :

This refers to the services given to the shops, business houses, public institutions like offices and schools and commercial establishments.

iv) *Road Lighting Points :*

This refers to the number of points of street lights which will be maintained by the Board and for which consumption charges will be paid to the Board by respective local bodies. For some town Panchayats, the number of services effected alone has been furnished under street lights and not the points.

V) *Other connection :*

This refers to the number of services effected for agricultural purposes.

*Statement V :*

In this statement Medical, Educational, Recreational and Cultural facilities of the towns as on 1969 were furnished. The data for Educational facilities were obtained from the Executive Officers and from the University of Madras.

*Recognised Shorthand typewriting and other vocational training institutes :*

The term 'recognised' means institutes recognised by some statutory authority like Education Department, Commerce Department, Labour Department etc. of the Government or by some Government or autonomous bodies, Public sector Projects etc. Cinemas refer only to the permanent Cinema Theatres and do not include touring cinemas.

In col. 13 under 'Others' to the total number of Training Schools, Agricultural Institutes, Blind Schools, Arts and Crafts Schools, Deaf and Dumb Schools are furnished. The above data were collected from the Director of Public Instruction.

For other cols. the figures were obtained from local officials.

*Statement VI:*

In this statement, trade, commerce, industry and banking facilities in the towns as on 1969 are furnished. Banking particulars were obtained from the Reserve Bank of India. The number of agricultural and non-agricultural credit societies were collected from the Registrar of Co-Operative Societies.

*Statement VII:*

The religion wise population as per 1971 Census are furnished and these have been compiled from the Census records.

## ANNEXURE-I

Names of the Towns included in the list of the Towns for the first time during 1971 Census

## TIRUNELVELI DISTRICT

| Sl. No. | Name of Town    | L. C. No. | Name of Taluk |
|---------|-----------------|-----------|---------------|
| 1.      | Alaganeri       | XXV       | Tirunelveli   |
| 2.      | Athimarapatti   | XIV       | Tuticorin     |
