columns on Scheduled Caste and Scheduled Tribe population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in Statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the Primary Census Abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the Individual Slip of 1981 Census.

In order to avoid delay in the publication of 1981 DCH series, it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto taluk/town levels. At the beginning of the DCH, a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk level maps depicting the boundaries and other important features have been inserted at appropriate places to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri A. P. Muthuswami, I.A.S., the Director of Census Operations, Tamil Nadu on behalf of the State Government which has brone the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General(Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contiibuted in this project.

P. PADMANABHA,
Registrar General, India.

New Delhi,
26th April, 1982.

PREFACE

It has been the tradition of the Government of Tamil Nadu to publish immediately after each Census, a District Census Handbook separately for each district containing the census statistics, besides other valuable data of local importance, for the use of the State Government, district administration, research scholars and other data users. The first series of District Census Handbooks were brought out immediately after the 1951 Census and the present publication after the 1981 Census is the fourth in the series.

The data presented in this publication were collected during the census operations in February—March, 1981, the reference date being 1st March, 1981.

The District Census Handbook consists of the following two parts:—

Part-A:—Village and Town Directory and

Part-B:—Village and Townwise Primary Census Abstract.

In Part-A, apart from certain major characteristics of the district in relation to economic resources like forestry, agriculture, industries, etc., information are also available regarding certain basic amenities like education, medical, drinking water, etc., in each village.

This volume relates to Part-B of the District Census Handbook. It contains the district and village/townwise Primary Census Abstract and the Primary Census Abstract for Scheduled Castes and Scheduled Tribes.

The district Primary Census Abstract gives for each territorial unit upto taluk level in the case of rural areas and upto the town level for urban areas, occupied residential houses, households, total population, Scheduled Caste and Scheduled Tribe population, literates and main workers. The main workers are further categorised into four broad groups, viz., Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers. Information is also furnished regarding Marginal Workers and Non-Workers. The village and townwise Primary Census Abstract gives similar information for villages and wards of towns. With a view to help users to compile data relating to panchayats, break-up details are also given, wherever necessary, in the village Primary Census Abstract. Besides, there is an Appendix which furnishes at urban block level, total population and Scheduled Caste and Scheduled Tribe population.

In bringing out this publication, I have received assistance from Shri T. V. Srinivasan, Joint Director of Census Operations, Shri M. Thangaraju and Shri M. Nagappan, Deputy Directors of Census Operations and Shri R. Narayanan, Assistant Director of Census Operations, besides a large number of staff members of this Directorate.

In formulating the scope and content of the data in this publication and designing the formats for presentation of the data, I have received valuable guidance from Shri P. Padmanabha, Registrar General, India. The encouragement I have received from him at every stage of the work has contributed in a great measure to the successful publication of this District Census Handbook.

I hope the data in this volume would be found useful by the planners and other data users.

Madras,
March, 1983.

A. P. MUTHUSWAMI,
Director of Census Operations, Tamil Nadu.

ACKNOWLEDGEMENT

I have pleasure in acknowledging the able assistance given by the following officials of my office in the preparation of this volume.

Primary Census Abstract :

Shri R. Lakshminarayanan, Investigator

Smt. B. Jayalakshmi, Tabulation Officer

Shri P. G. Sankaran, Statistical Assistant

Shri S. Sridharan, Statistical Assistant

Shri G. Jayabalan, Statistical Assistant

Smt. B. Rajakumari, Computor.

Inset tables on Primary Census Abstract :

Shri T. S. Rajaram, Investigator

Shri S. Packiaraj, Investigator

Shri C. T. Rajan, Investigator

Smt. A. M. Mangayarkarasi, Tabulation Officer

Shri R. Balasubramanian, Statistical Assistant

Shri S. Thirunavukkarasu, Statistical Assistant

Smt. N. Muniammal, Statistical Assistant

Smt. V. E. Kalyani, Computor

Maps :

Shri Jogesh Dass, Senior Geographer

Shri A. Rajamani, Senior Artist

Shri N. Chandran, Artist

Shri M. Kothandaraman, Hand Press Machine Operator.

A. P. MUTHUSWAMI,
Director of Census Operations,
Tamil Nadu.

Madras,

		Inhabited	15,831	972
		Uninhabited	981	93
Number of Towns			434	44

ANALYTICAL NOTE

CENSUS CONCEPTS—RURAL AND URBAN AREAS

Census figures are generally presented separately for rural and urban areas. In the 1981 Census, the definition of an urban unit is more or less the same as in the 1961 and 1971 Censuses but for some minor variations. The urban areas of 1981 Census are :

(*a*) All places with a Municipality, Corporation or Cantonment Board or notified town areas ;

(*b*) All other places which satisfied the following criteria :—

(i) A minimum population of 5,000 ;

(ii) At least 75 percent of the male working population engaged in non-agricultural (and allied) activity ;

(iii) A population of at least 400 per km² (or one thousand per square mile).

The above definition of urban area varies slightly from that of 1961 and 1971 Censuses in that the males working in activities such as fishing, logging, etc. were treated as engaged in non-agricultural activity and therefore contributed to the 75 per cent criterion in the 1961 and 1971 Censuses, whereas in the 1981 Census, these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion. The rest of the areas not treated as urban are classified as rural areas.

Urban Agglomeration :

Urban Agglomeration is a new concept formed during 1971 Census and this replaces the concept of town group adopted in 1961 Census. An urban Agglomeration may be explained as follows, "It must form a continuous urban spread constituting a town and its adjoining urban outgrowth or two or more physically contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns".

Census House :

A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for residential or non-residential purpose or both.

Household :

A household is a group of persons, who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so.

Scheduled Castes/Scheduled Tribes :

For the enumeration of Scheduled Castes and Scheduled Tribes in Census, the names of Scheduled Castes and Scheduled Tribes as recognised in Tamil Nadu based on the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act of 1976 (Central Act 108 of 1976) were followed. The enumerators were instructed to record a person as a Scheduled Caste/Scheduled Tribe provided the name given by the person was found in the list supplied to them.

Literates :

In 1981 Census, a literate was defined as "a person who can both read and write with undertstanding in any language". A person who could merely read but cannot write, was not a literate. It was not necessary that a person considered a literate must have received any formal education or have passed any minimum educational standard.

Work :

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Main workers and marginal workers :

A worker was identified with reference to a reference period preceding the census. The reference period prescribed was one year preceding the date of enumeration. Certain types of work such as agriculture, household industries like, gur making etc., were carried on, either throughout the year or only during certain seasons or part of the year, depend-

ing on local circumstances. In such cases, what we were concerned with was the broad time span of the agricultural seasons preceding the enumeration. Workers can be full time workers or seasonal workers or marginal workers. If a person has done any work during the reference period and if he had worked for the major part of the year i.e., if he had worked for 183 days or more, he was considered to be full time worker (main worker). If a person had done any work during the reference period and if he has not worked for the major part of the year i.e., if he had worked for less than 183 days, he was considered to be a marginal worker.

The main activity of workers has been classified into four categories viz, cultivator, agricultural labourer, household industry and other work.

Cultivator :

For purposes of Census, a cultivator is a person who is engaged either as an employer, single worker or family worker in cultivation of land owned, or held from Government, private persons or institutions, for payment in money, kind or share. Cultivation includes supervision and direction of cultivation.

Agricultural labourer :

A person who work in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but merely works in another person's land for wages and has no right of lease or contract on land in which he or she works.

Household industry :

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods, it has been ascertained whether/it is a household industry.

Household industry is defined as an industry conducted by the head of the household and/or by the members of the household at home or within the village in rural area, and within the precincts of the house in urban areas. A larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would, or has to be registered under the Indian Factories Act.

Non-workers :

All persons who have not been treated as workers, i.e. persons who have not worked any time at all during the reference period of one year preceding the date of enumeration, have been considered as non-workers. These cover all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year, full time students and children attending school, all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age, persons retired from service or rentiers, beggars, vagrants, convicts in jails or inmates of a penal, mental or charitable institution and all non-workers who may not come under any of the above categories.

Scope of Primary Census Abstract :

The Primary Census Abstract, as it is called presents basic data for each village or segment of a village (in cases where such village segments form different panchayats) in the " Village-wise Primary Census Abstract " and for each Ward/Divisionof a Town in the " Urban Primary Census Abstract ". The format of the Primary Census Abstract for the villages and towns in 1981 has been slightly modified as compared to the 1971 Primary Census Abstract.

The Primary Census Abstract gives such basic information as area in hectares/sq.km., occupied residential houses, number of households, total population, Scheduled Caste and Scheduled Tribe population, literates, main workers, division of main workers into cultivators, agricultural labourers, workers in household industry and other workers, marginal workers and non-workers in respect of each unit. The Urban/Village Primary Census Abstract gives this information for each village and each urban ward. With a view to ensure comparability and to enable data users to derive the figures either for a revenue village or panchayat according to their requirements, the data are presented for segments of villages also. Wherever portions of one village happen to be in two or more panchayats the segment wise data have to be used separately or added with some other segment data so as to derive panchayat data. For example, if portions of a revenue village bearing L.C. No. 10 form part of two panchayats, the figures are given separately for each

portion of the village against L.C. No. 10a/b and b/b. The total figures for the entire revenue village by adding the figures given against both the segments viz. 10a/b and 10b/b given in the village Primary Census Abstract. If, instead, the panchayat figures are required, the data for the concerned village segment or segments relating to the panchayats concerned, are to be added up to arrive at the total figures for the respective panchayat.

An appendix presented in the case of the Urban Primary Census Abstract gives 1981 population, Scheduled Caste and Scheduled Tribe population for each enumerator block of the town. This is meant for the use of administrative and election authorities in urban areas. Such data are also required by urban planners and researchers for conducting other studies in selected blocks.

Mode of presentation :

The consolidated figures for the district and each taluk are given in the beginning for total, rural and urban areas followed by each town/urban agglomeration under the caption 'District Primary Census Abstract'.Then follows the Primary Census Abstracts for Scheduled Castes and Scheduled Tribes. An alphabetical list of revenue villages is then given along with the Census Location Code Numbers of 1981 Census followed by the Village-wise Primary Census Abstract. In the foot note given at the end of the Village-wise Primary Census Abstract, the villages included in municipalities or census towns are indicated. In an annexe the names of villages and their constituent panchayats are given. Then, follows the Urban Primary Census Abstract. In an appendix to the Urban Primary Census Abstract the population and Scheduled Castes and Scheduled Tribesfor each Enumerator Block of a town are given. The arrangement is followed for each taluk and independent sub-taluk in the district.

Maps :

Apart from the *District Map given as frontispiece, map for each taluk showing* the village Location Code numbers alongwith their boundaries have also been included at the appropriate places. As compared with the maps presented in 1971 District Census Handbook several improvements have been effected in the maps presented in this volume. All towns are shown in the District and taluk maps with shading screens and also spheres according to the population size of towns.

Area figures :

In the District Primary Census Abstract the area figures are given in square Kilometres for total, rural and urban areas. In the Village-wise Primary Census Abstract, the area figures for each Location Code Unit are given in hectares up to two decimals. The area figures for each town in square kilometres is also given at the end of the Urban Primary Census Abstract. In the District Primary Census Abstract, the area figures of the District total represent the " Geographical Area " figures supplied by the Surveyor-General. Figures for urban areas are those supplied by the Local Bodies and revenue authorities. The urban area of a district has been arrived by adding the urban area figures of each taluk within the district. Area figures for the rural areas of District/Taluk are derived by subtracting the urban area figures from the total area of the District/Taluk. The total of the area figures of the taluks will not tally with the district figures because the taluk area figures represent the 'Land Use' area and are derived from the figures supplied by the Tamil Nadu Directorate of Survey and Land Records, while those of the district represent " Geographical Area " supplied by the Surveyor-General of India. The total of the village area given in the Village-wise Primary Census Abstract may not tally with the rural area of the taluk given in the District Primary Census Abstract as the taluk area figures take into account hills, forests, rivers, etc., where as the village area may not include the same. For conversion, the ratio is 100 hectares=1 square kilometre.

It is hoped that the pattern of presentation of basic census particulars for each district as explained above and adopted in this volume would be found convenient by data users.

A brief analysis relating to certain population characteristics is made utilising (the information collected in the Village and Town Directory and) the census data in the Primary Census Abstract. A number of tables have been designed for this purpose. The tables are generated at the district and taluk level for the rural areas and in regard to urban areas, townwise particulars are presented.

TABLE—1

POPULATION, NUMBER OF VILLAGES AND TOWNS, 1981.

Serial number	Name of Taluk	Population									Number of Villages		Number of Towns
		Total			Rural			Urban			Total	Inhabited	
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

Table 1—Furnishes taluk wise and sexwise population of rural and urban areas and total number of villages (inclusive of inhabited villages) and towns of Salem district. Salem taluk has the highest population, while Yercaud has the lowest of all the taluks in Salem district, Namakkal has recorded the highest rural population of 496,860 and Salem taluk has the highest urban population viz. 557,465. Numerically, Salem taluk has the maximum number of villages of 190 in which only 10 are uninhabited. Mettur has the lowest number of villages viz. 50. Salem has as many as 26 towns, while Attur, Sankari and Namakkal taluks have only one town each. There is no town at all in Yercaud taluk.

TABLE—2

DECADAL CHANGE IN DISTRIBUTION OF POPULATION.

Number of Taluk.	*Population*						*Percentage decadal (1971–81) variation*		
	1971			1981					
	Total	*Rural*	*Urban*	*Total*	*Rural*	*Urban*	*Total*	*Rural*	*Urban*
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

Salem	775,116	324,031	451,085	900,286	342,821	557,465	+16.15	+5.80	+23.58
Attur	389,485	347,916	41,569	419,157	368,640	50,517	+7.62	+5.96	+21.53
Rasipuram	221,562	174,967	46,595	248,448	193,969	54,479	+12.13	+10.86	+16.92
Sankari*	290,867	243,801	47,066	328,038	287,863	40,175	+12.78	+18.07	−14.64
Tiruchengodu*	293,992	201,669	92,323	387,646	228,646	159,316	+31.86	+13.22	+72.56
Namakkal	480,875	435,835	45,040	536,642	496,860	39,782	+11.60	+14.00	+11.67
Salem District	**2,992,616**	**2,197,234**	**795,382**	**3,441,717**	**2,446,054**	**995,663**	**+15.01**	**+11.32**	**+25.18**

* One Village (113 Irukalur Pudupalayam) of Tiruchengodu taluk (1,021 P 527 M 494 F) has been transferred to Sankari taluk with effect from 1st February, 1977. (Salem Collectors, Proceedings ROC. 45696/75. Gl. dated 26th January, 1977.)

Table 2 records the decadal changes in the distribution o Rural/Urban population for the different taluks of Salem district. It may be seen that all the taluks have registered an increase in population during the decade 1971-81. The percentage decadal variation is more than the district average of 15.01% in Omalur, Salem and Tiruchengode taluks with 16·66%, 16.15% and 31.86% respectively. Yercaud taluk has the lowest decadal variation of only 6.26%. Sankari taluk has the highest percentage of decadal variation of rural population with 18.07%, while the lowest is found in Salem taluk viz. 5.80%. Tiruchengodu taluk has the highest percentage of decadal variation of the urban population during 1971-81 with 72.56% while Omalur has the lowest with only 8.18%.

TABLE—3

DISTRIBUTION OF VILLAGES BY POPULATION RANGES

Range of Population	*Number of Villages in each Range.*	*Percentage of Villages in each Range*
(1)	(2)	(3)
Less than 200	55	5.66
200— 499	109	11.21
500— 1,999	348	35.80
2,000 — 4,999	336	34.57
5,000— 9,999	108	11.11
10,000+	16	1.65
Total	972	100.00

This table provides useful data on the distribution of villages by population ranges. It is seen that more than one third of the total number of inhabited villages viz., 348 (35.80%) are in the population range of 500—1,999, closely followed by 336 villages (i.e. 34.57%) in the population range of 2,000—4,999.

The population ranges 200—499 and 5,000–9,999 are having 109 (11.21%) and 108 (11.11%) villages respectively. 55 villages (i.e. 5.66%) are in the population size of less than 200, while 16 (i.e. 1.65%) villages are having a population of more than 10,000.

TABLE—4

DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (Per sq. km.)	*Total Number of villages in each density range.*	*Percentage of villages in each density range.*
(1)	(2)	(3)
Less than 10	6	0.62
11—20	5	0.51
21—50	15	1.54
51—100	33	3.40
101—200	169	17.39
201—300	207	21.30
301—500	272	27.98
501+	265	27.26
Total ..	972	100.00

This table gives the distribution of villages of Salem district by difierent ranges of density. It is seen that the maximum number of villages viz., 272 (i.e. 27.98%) are found in the donsity range of 301–500, closely followed by 265 (27.26%) villages in the density range of 501 and above, while the least number of only 5(0.51%) and 6 (0.62%) villages are found in the density ranges of 11—20 and less than 10 respectively.

TABLE-5

PROPORTION OF SCHEDULED CASTE POPULATION TO TOTAL POPULATION IN THE VILLAGES.

Percentage range of Scheduled Caste population to total population	*Number of villages in each range*	*Percentage of villages in each range*
(1)	(2)	(3)
Nil	127	13.06
5 or less	133	13.68
6—10	94	9.67
11—15	113	11.63
16—20	113	11.63
21—30	226	23.25
31 and above	166	17.08
Total ..	972	100.00

This table shows the proportion of Scheduled Caste population to total population in the villages of Salem district. It is seen that in the percentage range of 21—30 of Scheduled Caste population to total population, there are 226 villages, followed by 166 villages in the range of 31 and above, and 133 in the range of 5 or less. The lowest number of villages viz., 94 is found in the range of 6 to 10 per cent.

The percentage of villages is the highest with 23.25% in the range of 21—30, while the lowest percentage of villages viz. 9.67% is found in the range of 6—10.

TABLE-6

PROPORTION OF SCHEDULED TRIBE POPULATION TO TOTAL POPULATION IN THE VILLAGES

Percentage range of Scheduled Tribe population to total population	*Number of villages in each range*	*Percentage of villages in each range*
(1)	(2)	(3)
Nil	660	67.90
5 or less	114	11.73
6—15	20	2.06
16—25	18	1.85
26—35	6	0.62
36—50	18	2.06
51 and above	136	13.79
Total ...	972	100.00

This table furnishes similar data of Scheduled Tribe population in the villages of Salem district. It is noted that in the percentage range of 51 and above, there are 136 villages, followed by 114 villages in the range of 5 or less. The lowest number of villages viz., 6 is found in the range of 26—35%.

The percentage of villages is the highest with 13.79% in the range of 51 and above, followed by 11.73% in the range of 5 or less while the lowest per cent of village viz., 0.62% is found in the range of 26—35.
