From the Secretary to the—. Submitting a correspondence with the Collector of Madras relative to a proposed change in the mode of conducting the Salt monopoly at Madras, and recommending sales at the pans by periodical public auctions, instead of the present mode of selling by retail at the Cotaurs.—Proposing also that the Depot of Salt for exportation be under the charge of the Master Attendant instead of the Collector. The Collector objects to some parts of the proposed new system as militating against his private interests.

Cons., 2nd May, No. 2, p. 1370.

To the—. That the probable saving from the proposed change in the mode of conducting the Salt monopoly at Madras seems to be over-rated. The construction of new platforms would be expensive—the storing place being increased in number and further removed from the Collector, greater precautions against theft and fraud would be necessary—there would be a second monopoly, and retails would be ruined. By increasing the price of salt at the Cotaurs more revenue would be produced, with fewer objections—no change to take place—under the present system the Collector by visiting the Cotaurs might prevent a second monopoly, occasioned by undue preference in purchase to retailers, which must be the cause of the high and variable price of salt noticed in his letter. That the charge of the Export salt Depot is foreign to the duty of a master attendant who is already sufficiently employed. To prevent expense the salt should be stored in one place, and that near the beach—the Collector of Madras to be consulted on these points. The principles of economy shewn in the proposed change are applauded with a hope they may always influence their recommendations.

Cons., 2nd May, No. 3, p. 1379.

The Collector of Vizagapatam submits a proposal from the zemindar of Palcondah to surrender the zamindary to the charge of the Collector for a term of 7 years under certain stipulations. - From the Secretary to the*— With an Extract from their Proceedings on the question of raising the monopoly price of salt—It is stated to be the opinion of the Board that the Government in ordering, and the Court of Directors in approving the reduction of the price were misled by erroneous information; that a correspondent benefit to the consumer has not been produced by the reduction; that the increased sales of late are to be ascribed to improved management rather than to a greater demand arising from a reduced price; and that the consumption of a family costs too little to induce any apprehension that raising the price will be attended with hardship to the people or a diminution of the demand. An increase of Revenue to the extent of 4,00,000 Rupees per annum at the present average of sales will be the result of raising the price—which measure is recommended by the Board. Extract from the Minutes of— In answer to the Rajah of Mysore's claim to compensation for ceasing to collect the duties at Hunnur and Bilghi, alluding to the operations of Government in February 1827—1st, that the collections at neither places are noticed in the Treaty with the Nizam—2nd, that the Treaty nowhere assigns a specific amount of Revenue to the Rajah, stating the principles of the Treaty—3rd, that the Rajah was not one of the Contracting parties—4th, that the collection of Bilghie produce by Mysore for a few months after the Treaty was allowed to be an irregularity and was corrected immediately, and that at the adjustment of the balances due to Mysore in 1803 no claim to compensation for Canara duties was noticed by the Resident or the Board of Revenue—5th, that in 1800 Government concurred with the Board of Revenue and the Collector of Canara that the usual Road duties alone should be collected on the Produce of Bilghie passing thro' Nuggar. The claim therefore is not substantiated. Extract from the Minutes of— That the Honorable the Governor-in-Council after due consideration of the arguments of Mr. Græme against the extension for three lives of the grant of 2 villages to Ramasawmy, a servant of the Mysore Residency, has not seen any reason to alter the resolution of the Board on the 1st April 1828—That the profits of the villages are less than Rupees 2,000 per annum—That the extension of the grant was not founded, as stated by Mr. Græme, on the opinion of the Honorable Court but on the statement of the Resident that it was not the intention of Sir T. Munro that there should be any distinction between this grant

COUNCIL—cont.

and the recent ones to other natives—That the opinion of the late and the present Resident was taken on the subject—That if there was ever room for doubts as to the merits of Ramasawmy, they ought to have been stated before Government had committed itself by the promise contained in its letter to the late Resident of the 13th March 1827—That no such doubts were stated at the time by Mr. Græme or by any other member of the Council, and that this mode of proceeding is objectionable.

Cons., 18th Apr., No. 6, p. 1245.

Extract from the Minutes of— With respect to the Minute of Mr. Græme's accounting for the supposed unnecessary delay in stating his Dissent to the shrotrium of Ramasawmy—in which he declares his ignorance at the time, that the grant was to be conferred for 3 lives—it is observed that the Board distinctly recollect a reference to the Secretary at the time, who produced a minute of Sir Thomas Munro's with the order of Government thereon, in which it was stated that all grants ought to be for that period, and that if thought too valuable it would be better to reduce the amount than to shorten the duration; it was resolved therefore without a dissentient voice [Mr. Græme also being present] that the grant to Ramasawmy should be for 3 lives, nor was there anything hasty or contrary to custom in these proceedings, the papers having been circulated, as is usual on all but unimportant or very pressing business, to all the members of Government previous to the meeting of the Board—The Minute of Mr. Græme must therefore be considered as having failed in its object.
