- From ditto*— Submitting letters received from the Collectors of Tinnevely, Cuddapah, Trichinopoly, Tanjore and Salem, in reply to a circular letter addressed to them drawing their immediate attention to the orders of Government for employing the people during the present scarcity. The Collector of Tinnevely represents that the propriety of his district renders it unnecessary to undertake any public works for relieving the inhabitants. The Civil Engineer of the Ceded districts states that all the roads in the Cuddapah district are bad, that it is useless to attempt extensive repair without the aid of a body of Pioneers, that the road from Madras to Bellary is about 126 miles in length and the repair of it would alone cost about a lakh of rupees. He submits two estimates for renewing a very bad part of the road near Mundalur amounting to Rs. 1,096-13-6, instructions will be given to prepare a detailed report of the whole of the road. The Collector of Trichinopoly forwards an estimate amounting to Rs. 1,115-6-7 for repairing the four principal roads in his district. The principal Collector of Tanjore submits a rough estimate of the expense of repairing some of the roads in order to facilitate the traffic of the country and proposes that the disbursement should be made from the accumulated fund of maniemis, although there is no distress in the district. The principal Collector of Salem represents that the extensive repairs now carried on to the different roads in his district will afford employment to those who are desirous of obtaining work and

INSPECTOR-GENERAL OF CIVIL ESTIMATES—*cont.*

that no additional estimate on that account is necessary and thinks that tank repair is more suitable employment to the inhabitants than any other description of work.
