——— *Educational Qualifications for Public Employment.*—(By the President). Admits the great importance of carrying out to the utmost extent the principle of the Governor-General's order of the 10th October as regards the higher grades of the public service, shows why he proposed a limitation of that order, and suggests pecuniary rewards as a substitute, in part for office. Observes that much of the reasoning of the University Board is founded on misapprehension. And in order to carry out the views of Government at once, proposes the formation of a Council of Education who should be authorized to name their Secretary, Government reserving to themselves the right of confirming the nomination or not	1st July	29

MINUTES—*continued.*		
Madras University.—Educational Qualifications for Public Employment.—(By the Hon. H. Chamier, Esq.). In the present state of educational establishments in this Presidency does not consider the formation of a Council of Education necessary or desirable, and assigns reasons for thinking that public examinations should be conducted by paid examiners of high qualifications; if, however, a Council of Education be determined upon, states the grounds why Mr. G. Norton should be requested to accept the office of President. Is of opinion that the appointment of gentlemen connected with the religious and other establishments is objectionable, and apprehends that the labors of a body so constituted will prove abortive. Thinks it a misapprehension to suppose that proper qualified gentlemen cannot be found to undertake the office of Governors, and is convinced that the object of the Governor-General's orders will be more satisfactorily carried out by the Board of Governors, than by a Council of Education	1845.	
——— (By the Hon. J. Bird, Esq.). Considers that a Board of Education should be established without delay, and that Mr. Norton should be the President. Thinks that the constitution of the University cannot be changed without the sanction of the Honorable Court	1st July	
——— (By the President). Concurs with the Hon. J. Bird as to the necessity of a Board of Education; states reasons for, and the advantage of, nominating a large number to form the Council, and shows the ground on which he considers it inexpedient to place Mr. Norton at the head of the Board ..	1st July	
——— (By the Hon. H. Chamier, Esq.). Does not object to the gentlemen proposed by the Most Noble the President to be Members of the Council of Education on account of any want of general qualifications for the duty, far from it, but solely to the appointment of gentlemen whose known views and principles are opposed to the system of national education contemplated. Conceives that the Council of Education will, at present, have comparatively nothing to do, and that if it should be finally resolved to appoint one, trusts that Mr. Norton's claim to preside over it will be further considered. As an order of the Governor-General on an important subject is being carried out, thinks the proceedings of this Govt. should be reported to the Govt. of India.	1st July	
——— (Do.) Refers to opinion given in a previous minute that, on the general subject of Native education, this Govt. should report its proceedings to the Govt. of India, and to this suggestion renewed on a draft of a resolution which has not been noticed; and observes that, to obviate the illegality of granting pecuniary rewards without the sanction of the Supreme Govt., the draft has been now altered so as to authorize the grant out of the funds set apart for the purposes of education, a measure opposed to the Act directing that no salary, *gratuity* or *allowance*, be given without the previous sanction of the Govt. of India, and considers the proceedings of this Govt. in this matter to be irregular. Adverting to the printed papers submitted by the Court of Directors to Parliament on the subject of Native education, observes that the University Board is returned "as the Board of Education" at Madras, and that evidently no other Board is contemplated or considered necessary; if, however, one is finally determined upon, hopes that the recorded opinion of the majority of the Board, that Mr. Norton should be the President, will not be overlooked. Requests that this minute, with all papers connected with the subject, may be communicated to the Government of India, or a distinct refusal recorded in order that he may be justified in forwarding copies of his minutes without the intervention of Government	9th Sept.

MINUTES—*continued.*		
Madras University.—Educational Qualifications for Public Employment.—(By the President). Observes that the Hon. Mr. Bird concurred in the draft of the resolution of Govt. on the subject of extending sound and liberal education at this Presidency with the alterations proposed by Mr. Bird himself, the measures were passed by the Board. Agrees with Mr. Bird that it is competent to this Govt. of its own authority to appropriate a portion of the funds placed at its disposal for the purposes of education, for pecuniary prizes to be annually competed for. Considers it also within the province of the local Govt. to adopt such measures as it may deem advisable for carrying out the views of the Governor-Genl., and this Govt. to be the most competent to determine to what extent the Governor-General's order for Bengal should be carried out at this Presidency. Sees therefore no grounds for reference to the Government of India, but is at the same time prepared, if the controlling authority see cause to interfere, to carry out its orders to the letter. Is satisfied that the views expressed in the draft in question are in strict accordance with the recent orders of the Honorable Court, and that hitherto the measures of this Government on the subject of education have been referred to the Home authorities. Enters fully into the grounds for not acquiescing in Mr. Chamier's proposition for the appointment of Mr. Norton, the Advocate-General, as President to the Council of Education, and considers that the gentlemen composing this Board should be left independent in the election of their own President. Desires the Secretary to submit the draft with all papers referring to it, and requests the opinion of the Junior Member of Council on the question ..	1845.	
——— (By the Hon. H. Dickinson, Esq.). Assigns reasons for thinking that it is not desirable or even practicable to adopt at this Presidency the Governor-General's Minute of 14th October 1844 to its full extent. Considers that the system of employing in public offices young men who have attained a certain standard of education should be gradually introduced, and concurs with the Most Noble the President in thinking that the number to be so employed should be limited at first to two a year, and increased if circumstances should render it fit. Is in favor of the grant of pecuniary rewards, also of the early establishment, if practicable, of the Provincial schools to which he considers Europeans alone should be appointed as head masters. Suggests that the Honorable Court be urged to sanction the measure. Is of opinion that a Council of Education should be formed without delay and be entrusted with the superintendence and control of all Government educational establishments, and that a Secretary with a suitable salary should be attached to it, and considers it open to this Government to give the pecuniary rewards and incur the expenses without reference to the Government of India from the funds at its disposal ..	9th Sept.	24
——— (By the Hon. H. Chamier, Esq.). Offers explanation regarding a seeming misapprehension of a statement made by him, that properly-qualified gentlemen would readily be found to hold the office of Governors of the —, and urges further reasons for objecting to the proposed Members of the Council of Education. States why ignorance of the native languages could not be objected to against Mr. Norton's appointment to the Council, and does not know on what grounds the compliment paid to the Mussulman and Hindoo Members of the same Board should not have been equally paid to any European Members of the University Board. Anticipates the failure of all that has been done towards the great object of Native education from the day on which the appointment of the proposed Council of Education shall be notified in the official Gazette	9th Sept. 30th Sept.	25 12

Madras University.—Educational Qualifications for Public Employment.—(By the President). To avoid misapprehension considers it necessary to remark that, in selecting the gentlemen composing the Council of Education, he was guided not only by their influential position in the service and their acknowledged qualifications, but by the fact that gentlemen holding similar offices formed the Boards of Education at Calcutta and Bombay. Observes that the University Board at this Presidency was constituted in a similar manner, and does not see the validity of the objection now raised. Observes that all the Military Members are well acquainted with the Native character, and believes them to possess a knowledge of one or other of the Native languages; thinks the course he has pursued to be best calculated to give effect to the Governor-General's views in which he fully concurs. Is pleased to know that in placing the nomination of Governors to the University Board in the President's hands, Mr. Norton has been enabled to obtain coadjutors from those whose assistance he considers of most value ..	30th Sept.	13
Memorial of Mr. S. Crawford.—(By the Hon. H. Chamier, Esq.). Signifying that he concurred in the sentiments expressed in the Hon. Mr. Bird's minute on the case by becoming a party to the despatch conveying it, and hopes that the Court may be pleased now to regard him as a fit object for their compassionate consideration	25th Mar.	8
——— (By the President). Stating the grounds of his requesting the special attention of the Honorable Court to Mr. Bird's views on the case, and still hopes that they may receive the special consideration of the Court, and that Mr. C. P. Brown's case receive, at the same time, their indulgent consideration ..	25th Mar.	9
Memorials of Paroosarama Moodelly.—(By the Hon. H. Chamier, Esq.). For reasons stated declines to be a party to submitting the — for the further consideration of the Honorable Court ..	11th Nov.	34
——— (By the President). States that the notes of the Junior Member of Council, on certain passages of the Hon. Mr. Chamier's minute, express his own views of the draft of Minutes of Consultation in the case of Paroosarama, in regard to whose dismissal the opinion of Government has been already expressed, and, understanding that all memorials should be submitted to the Honorable Court with the views of Government, observes that the present application being for a pension, in consideration of lengthened services under Government, the grounds upon which the Government would submit his case for further consideration appears to him unobjectionable	11th Nov.	36
——— (By the Hon. H. Chamier, Esq.). Suggests the addition to the notes of the Junior Member transcribed on the Most Noble the President's Minute of the 3rd November, list of certain others, as fully illustrative of Mr. Dickinson's opinion on the case	11th Nov.	37
Memorial of Surgeon W. G. Davidson.—(By the Hon. H. Chamier, Esq.). Is of opinion that the Medical Board were not justified in refusing to submit the — to Government. Considers that Surgeon Davidson has reason to complain of the injunction laid upon him to reside in Black Town, whilst Surgeon Sanderson is permitted to live at a distance from the scene of his only duty. Cannot understand how the Port and Marine Surgeon has obtained exemption from the obligation to reside on the beach, a majority of the Board appearing to consider it necessary. Suggests therefore that the Medical Board be called upon to explain why they have required Surgeon Davidson to reside in Black Town without requiring the Port and Marine Surgeon to live on the Beach	18th Nov.	57

Memorial of Surgeon W. G. Davidson.—(By the President). Suggests that the Medical Board be called upon distinctly to report on the several points noticed in the —, and to state whether it is absolutely necessary to the public interests that that gentleman should reside in Black Town	18th Nov.	58
Memorial of the East Indian Community.—(By the President). Has always viewed the orders of the Governor-General and those of the Honorable Court as not intended to exclude any class from the openings held out to office, and considers therefore that the orders of this Government, equally with those of the Governor-General upon the principle of which they are founded, apply to all classes without distinction. As doubts, however, are raised, suggests a reference being made to the Government of India	2nd Dec.	30
——— (By the Hon. H. Chamier, Esq.). Believes that the restriction which the memorialists profess to apprehend was not contemplated in the Resolution of Government of 28th June 1845, and observes that if they will not avail themselves of the benefits of the Government institutions as at present constituted, they cannot expect that separate provisions should be made for instruction on all religions and creeds	2nd Dec.	31
Pay Abstracts.—(By the Hon. H. Chamier, Esq.). Notices instances of irregularity in the preparation of — of certain Military offices at the Presidency and of the Sea Custom House, and suggests that attention be drawn by a G.O.G., to the rules of 22nd November 1833, as applicable to the Military as well as Civil offices	22nd July	2
——— (By the President). Suggests that the points noticed in the Hon. Mr. Chamier's Minute of the 21st June last be communicated to the Military Auditor-General, with instructions to prepare a revised form of abstract for Military payments	9th Dec.	30
Provincial Schools.—(By the President).—With reference to the recent instructions from the Honorable Court, considers the application from the President and Governors of the University to establish — premature, and is of opinion that the Board should be requested at present to devote themselves exclusively to the development of the establishment in operation under their charge	13th May	24
——— (By the Hon. H. Chamier, Esq.). Thinks that the establishment of — should be authorized, as the reasoning of the University Board is conclusive on the points noticed, and hopes it may prove equally satisfactory to the Honorable Court	13th May	25
——— (By the Hon. J. Bird, Esq.). Is of opinion that there is no want of authority to establish — whenever competent masters can be found	13th May	26
Resignation of Mr. T. Clarke, Tamil Translator to Government.—(By the President). Proposing to refer, for the Hon. Court's instructions, certain questions resulting from Mr. T. Clarke's refusal, from conscientious motives, to aid in the examination of the boys of the Madras University, and thinks that that gentleman's resignation should be accepted, and he informed that he has committed an error of judgment, and exposed the Government to much inconvenience by his refusal to act	15th Apr.	28
——— (By the Hon. H. Chamier, Esq.). States the grounds for his opinion that Mr. Clarke should be dismissed from the office of Tamil Translator to Government for disobedience of orders, and as a mark of the disapprobation with which his conduct is viewed	15th Apr.	29

Resignation of Mr. T Clarke, Tamil Translator to Government.—(By the Hon. J. Bird, Esq.). Entirely disapproves of Mr. Clarke's conduct, and is of opinion that he should be removed from his appointment, and his conduct reported to the Honorable Court	15th Apr.	30
——— (By the Hon. H. Chamier, Esq.). Protests against the opinion of a majority of the Board being set aside to give effect to that of the President alone in the case of Mr. Clarke. .	15th Apr.	31
——— (By the Hon. J. Bird, Esq.). Considers the views of the Hon. Mr. Chamier on Mr. Clarke's case to be correct, and, expressing himself satisfied with Mr. Clarke's vacating his appointment, would leave it to the Honorable Court to exculpate or punish him	15th Apr.	32
——— (By the President). Is unwilling to do more than notify the displeasure of Government on a question of conscience, from not feeling assured as to the extent the Honorable Court would desire to visit the act as an offence, whose views on this point will serve us a guide to similar cases in future	15th Apr.	33
Rules for the despatch and supervision of the business of the Government.—(By the President). Would never think of proposing any measure which would have the appearance of placing the Secretariat above the Members of Council. States why he approved of the memorandum submitted by the Chief Secretary for the despatch of business. Did not expect any such construction as that put on it, or he would merely have remarked that the papers would be circulated under the orders of the President. Observes that the system recommended would only extend to the other departments, that followed by the Military Secretary. Directs, as proposed by the Members of Council, all papers to be sent in the first instance to the President	2nd Dec.	48
——— (By the Hon. H. Dickinson, Esq.). In explanation of his note inserted in the memorandum circulated by the Chief Secretary, under date the 17th October last, which he fears was misapprehended by the Most Noble the President, but that his proposition was that the Most Noble the President should himself select the course which he preferred, and that whether the papers were first sent to the Most Noble the President or to the Members of Council, the rule should be made absolute, without any power of selection being vested in the Secretariat. For reasons stated, suggests that the system of forwarding the papers to the Council may be reverted to, and also that they be first sent to the Senior Member of Council	2nd Dec.	49
——— (By the President). Observes that he is unable to take any other view of the notes of the Members of Council than that he has so frequently stated, and as the course which proposed as the best was not assented to, sees no course open but to pass the draft as submitted	2nd Dec.	52
South Beach Road.—(By the President). Suggesting that the requisition of the Chief Magistrate for a portion of the Government House compound required to afford the public direct access to the South Beach from the Mount Road be complied with, as no inconvenience is likely to be experienced by the grant	4th Nov.	3-4
Suspension Bridge over the Cooum River near Ashton's Shop.—(By the President). Doubts the durability of a — and is of opinion that one of masonry will be more economical in the end. Suggests therefore that one of the latter description be constructed at the public expense, the Justices in Sessions defraying the cost of the approaches to, and the road over it, and that the Military Board be requested to report at an early date on the plan and estimate submitted by the Justices	12th Aug.	12
