The registers have been most carefully searched, and though, no doubt, there are some typographical errors, yet the substantial accuracy of the whole can be guaranteed.

Every entry has been copied and recopied three or four times, while the registers have been gone through entry by entry no less than four times to ensure accuracy. The labour involved has been immense, but with registers of such antiquity and value, an alphabetical index becomes a necessity. There are frequent searches to be made, which, without an index, are often productive of great labour without result.

It will be noticed that many of the names have an asterisk (*) before them. This, in the older entries, signifies that they have a monument or tombstone. In the last volume, 1851—1900, it signifies that the position of the grave is known, but in a great many cases there are earth graves only, without a tombstone of any kind.

Simultaneously, however, with the production of this index, an accurate plan and record of all the graves in St. Mary's Cemetery has been made.

There are about 3,000 graves in the cemetery, and every inscription has been copied into the special register book made for the purpose. It will, therefore, or ought to be, quite impossible in the future for grave stones to disappear, as so many have done in past years.

But in addition to those whose names are inscribed on the various tombs, there are a great many persons buried in family vaults, who are not commemorated by any inscription at all. A great number of these persons are indicated by a star in these lists, but, in the absence of information from members of the family, it is impossible to ensure accuracy. Where there is a family vault it may be reasonably inferred that members of the family are either interred within it, or close by.

There are about two hundred of these vaults, some of which are permanently closed, but many of them are still used from time to time for the interment of members of the family. The Government order on the subject of vaults is G.O., No. 208 of January 12, 1885: "*No grave or vault locally so called shall be opened within* 8 *years from the date of the last interment*" *and then*

by G.O., No. 7 of January 8, 1878,

only for widower or widow,
child,
nephew or niece,
brother or sister,
of a person buried in such vaults prior to January 8, 1878.

This has been altered by Rule xiii (2), G.O., No. 29 of the 23rd February 1898.

No vault to be opened within 14 *years of an interment unless previous interment is properly encased in air-tight cement.*

All applications for interment in a vault must be sanctioned by the Garrison Chaplain. To save unnecessary trouble, and possible disappointment, a register has been opened of persons who are entitled to such burial, and persons who claim the right to burial in St. Mary's should see that their names are duly registered. This book being only an index, further information about persons buried in St. Mary's Cemetery should be looked for in Mr. J. J. Cotton's "List of Inscriptions on Tombs or Monuments in the Madras Presidency." Only about 100 however of those interred in St. Mary's are mentioned by Mr. Cotton.

The compiler of this index trusts that its existence will save a great deal of labour, especially to future Garrison Chaplains, and if this is the case, the labour which he and his wife have spent upon it will be amply repaid.

Fort St. George,
June 1905.

A LIST OF PERSONS

COMMEMORATED ON TOMBSTONES IN ST. MARY'S CEMETERY DURING THE NINETEENTH CENTURY.

Some of these tombs are Cenotaphs—others are commemorative tablets on the family vault of persons buried elsewhere. Where no Christian name is given, the burial is probably that of an unbaptized child.
