GENERAL ORDERS,

HEAD QUARTERS,

CHOULTRY PLAIN, *1st September*, 1802.

G. O. By the Commander in Chief.

The Right Honorable the Governor in Council having addressed the Subjoined Orders to the Commander in Chief, to be published to the Army, they are accordingly published in Military Orders.

Fort St. George, 25th August, 1802.

G. O. By Government.

THE Right Honorable the Governor in Council has been pleased to establish the following Regulations connected with the Medical Regulations published in the General Orders of the 3d instant.

Detachments, or parties of Recruits, belonging to Regiments not on this Establishment, which may be placed in Garrison at Fort St. George, or any other Station under this Presidency, are directed to be drawn for at the rate of Sixty Cash per Man per day, and Twenty Cash in Medicine, by the Surgeon ordered to take Medical charge of them, who will defray the Hospital expences of the Sick.

When Sick Soldiers not belonging to any Detachment, or party of Recruits, not attached to any Regiment upon this Establishment, shall be placed in the General Hospital at the Presidency, or at any Subordinate Hospital, the Surgeon in charge of them shall draw from the Paymaster an allowance of 8 Fanams per Man per day on their account.

It having been found that the execution of that part of the General Order of the 3d instant, directing Hospital Surgeons to charge

charge upon honor for the Sick of European Regiments, under their care, will be attended with difficulty; and it having been ascertained by experience that the allowance of 8 Fanams per man per day, bears upon an average, a just proportion to the expence actually incurred in the victualling, cloathing &c. of European Sick, it is directed that Surgeons at the Head of fixed Hospitals shall be invariably allowed to charge 8 Fanams for such sick Europeans as may be placed under their care, drawing that allowance from the Paymaster of the Station, in two bills for each Regiment, accompanied by rolls specifying the names, and rank of the men, and the companies to which they may be attached, viz. One Bill for 5 Fanams, 40 Cash, and the other for two Fanams, Forty Cash per day, for each man so situated.

These Bills will be forwarded by Paymasters of Stations to the Military Paymaster General, who, in the case of the Company's Troops, is directed to transmit them to the Paymaster of the Garrison where the corps to which the sick respectively belong, may be stationed, in order that their amount may be deducted from the abstracts of the Surgeon, and the officers charged with the payment of Companies, according to the stated proportions, and in the case of His Majesty's Troops, the Military Paymaster General is directed to forward the Bills through the King's Deputy Paymaster General to the Paymasters of Regiments, by whom the requisite deductions will be made, and brought to account.

By Order of the Right Honorable the Governor in Council.

G. O. BY GOVERNMENT.

The Right Honorable the Governor in Council has been pleased to permit Lieutenant Colonel Richardson to resign the Appointment of Quarter Master General of the Army, and to proceed on furlough to Europe.

In accepting the resignation of Lieutenant Colonel Richardson, His Lordship in Council feels great satisfaction in recording his entire approbation of the conduct of that Officer during

The Governor in Council having received a report relative to the health of Mr. Assistant Surgeon Little which precludes the expectation of his being enabled to resume the duties of his profession, is pleased to direct that Mr. Little shall be transferred to the Non-effective List, and Pensioned on the pay of his present rank.

By Order of the Right Honorable the Governor in Council.

G. O. BY GOVERNMENT.

The Military Auditor General having stated to the Right Honorable the Governor in Council that frequent complaints have been made to him of the inattention of some Garrison Storekeepers to the orders of Government under date 31st October 1798, relative to the transmission at the end of each Month of Returns

Returns to the Regimental Paymasters of His Majesty's Regiments of the number of men belonging to the respective Regiments who may have been victualled by them for the previous Month, which inattention precludes the Paymasters from making the requisite stoppages at the proper periods, His Lordship in Council is pleased to direct that such Garrison Storekeepers as shall fail to comply with the Orders above quoted, within the time therein prescribed, shall be held responsible for the sums which may be retrenched in the distribution of King's subsistence, in consequence of their failure to transmit the necessary Returns.

G. O. BY GOVERNMENT.

The Right Honorable the Governor in Council has been pleased to publish in General Orders, the following Copies of Paragraphs

graphs contained in a Letter from the Honorable Court of Directors, dated the 28th April 1802.

Para 38.—Being of opinion that the appointment of an Adjutant to the Corps of Engineers, is, in time of Peace, an useless appointment, we direct that it be immediately revoked.

175.—The report of the great success of Mr. Surgeon Richardson in introducing the practice of inoculation for the Small Pox amongst the Natives in the Trichinopoly Country, has been perused with great satisfaction; and we approve of the compensation which was granted to that gentleman for the extraordinary expense and trouble incurred by him in this useful project—we shall have great pleasure in being advised that your endeavours for promoting inoculation in the other provinces under your Jurisdiction, have proved equally effectual.

142.—In our Military letter of the 20th January 1797, you were informed that the Fees paid by us for a Captain's Brevet Commission were (£. 8 15.) Eight Pounds fifteen Shillings; but by the additional Stamp Duty, the Fees on those issued after April 1797 were encreased to £. 9. 7. 6. you will therefore collect these Fees accordingly with respect to Subalterns, Commissions, none have been sent to you from us.

180.—Lieutenant Colonel Alexander Beatson retired from our Service the 7th instant, you will therefore discontinue his name in the List of our Army on your Establishment.

181.—We have permitted Major Ridgeway Mealy of your Establishment to remain another year in England.

Thomas Dickson,
Samuel Riviere,
William Currie,
John Whitfield,
Mathew Scott Moore,
William Scott,
William Somervell Mitchell.

186.—Application having been made to us by the Friends of Mr. Richard Howell Jones, whom we appointed an Assistant Surgeon to your Presidency of the season 1800, stating that he had taken his passage on the country ship *Upton Castle*, Captain Pavin, about June 1801, without knowing that it was necessary

that

that he should first have obtained our permission for that purpose, his Name was therefore omitted in the said List of Rank under the presumption that he had not proceeded to his appointment. Should you however be satisfied that Mr. Jones arrived at your Presidency in the above ship, we direct you to place him between Mr. Thomas Trotter and Mr. Alexander Tennent, being the rank to which he is entitled in the List of the season of 1800.

187.—Since making up the List of Rank of the Second Class of Assistant Surgeons for your Presidency of this season, we find that Mr. Thomas Dickson has taken his passage on the *Lord Nelson*, we therefore direct that you place him on the List abovementioned between Mr. William Willyams and Mr. Henry Fowle, being the Rank to which he is entitled in consequence of his proceeding on that ship.

HEAD QUARTERS, CHOULRTY PLAIN, 16*th Sept.* 1802.

G. O. By the Commander in Chief.

The following Extracts from the Proceedings of a General Court Martial held in *Seringapatam*, on the 1st of September 1802, for the trial of Captain Hugh Massey Fitzgerald of the Bombay European Regiment, on charges prefered against him by Captain Thomas Gibson of the same Corps—is published to the Army—The Sentence (under the authority delegated to him) having been confirmed by the Officer Commanding the Forces in *Mysore*.

SENTENCE.

1st CHARGE—The Court is of opinion that the Prisoner is not guilty of the 1st charge Viz. "disrespect to me his immediate Commanding Officer and irregular and un-officer-like conduct "in transmitting a Letter, addressed to me on duty to Lieutenant Colonel Boles, Commanding in the Province of *Malabar* and *Canara*, without my consent, and communicating "with him (Lieutenant Colonel Boles) on the subject of the "said Letter relating to Regimental business, before I have "decided on the merits of the case, and without sending his "representation through me, as expressed in the charge," But it is of opinion that the Prisoner is guilty of irregular conduct, in transmitting the aforesaid Letter to Lieutenant Colonel Boles as stated therein.

2d CHARGE

4d CHARGE.—The Court is of opinion that he is not guilty of writing an "insulting, threatening and mutinous Letter to me his immediate Commanding Officer on the 5th Instant, in answer to a "Letter on Service which I wrote to him on the same day." But it is of opinion that the Prisoner is guilty of writing an insulting and threatening Letter to his Commanding Officer, as stated in a part of the said charge.

The Court having found the Prisoner guilty of parts of the Charges alledged against him as above stated, which being a breach of the Articles of War, and to the Prejudice of good order and Military Discipline, it does therefore award and Sentence him the Prisoner Captain H. M. Fitzgerald, to be reprimanded in such manner as the Honorable Colonel Wellesley, Commanding the Forces in Mysore &c. &c. may think proper.

"permitting the escape of two Prisoners confided to their charge to be conveyed from Nellore to Cumbum," which being contrary to good order and discipline, and a breach of the Rules and Articles of War, the court do sentence him the said Prisoner, Soubangee, to receive six hundred (600) lashes on his bare back in the usual manner, at such time and place as the Commander in Chief shall think fit; and afterwards to be dismissed from the Honorable Company's Service.

SENTENCE.—The Court having maturely considered the evidence for the prosecution of Gemal Ahmed, Private Trooper; as well as what the Prisoner has by himself and his witness urged in his defence, are of opinion that he is guilty of the crime preferred against him together with other prisoners, in the following words, viz. CONFIRMED.

The

The Sentences passed on the Prisoners Syed Mahomed Alley, Havildar Soubangee and Gemal Ahmed, private Troopers of the 1st Regiment Native Cavalry, to be carried into effect in front of that Corps as soon as possible after the receipt of this order.

The Prisoners Gholam Ally and Burzow Chan Naigs, and Ramgee, Shubodeen, Gopal Sein, Sied Abdul Cawder, Shandogee, Gevangee and Shaik Mohdeen, Private Troopers, of the 1st Regiment of Native Cavalry, having been acquitted of the charges preferred against them, are to be released from confinement, and return to their duty.

The Commander in Chief has remarked with much displeasure, that the gross neglect of duty of which the Prisoners Syed Mahomed Ally, Soubanjee, and Gemal Mahomed, have been found guilty, has appeared to the Court a matter of such trivial import, as their sentences even on revision seem to imply.—He exhorts all Officers in charge of Native corps to impress on the minds of the Native Officers and Soldiers under their command, the importance of that duty which the Prisoners above mentioned have so scandalously neglected—and the necessity for awarding an adequate punishment for offences of such magnitude, when guilt is established by incontrovertible proof.

This necessity seems to have been little understood by the Officers composing the Native Court Martial lately assembled at *Vellore*,—who have limited the punishment of a Native Non-Commissioned Officer found guilty of suffering the escape of Prisoners committed to his charge, to dismission from the Honorable Company's Service ! ! !

Lieutenant Wilson of the 2d Battalion 3d Regiment, who, acting as Judge Advocate, conducted the Proceedings of the Native General Court Martial at *Vellre*, is directed to join his Corps.

Subidar Rajah Beg, of the late 1st Madras Battalion, is posted to the 1st Battalion 10th Regiment from the 1st instant.

G. O. By Government.

The inconveniences arising from the exhisting mode of controling the Bazars attached to Military Stations under this Presidency have long afforded a source of anxious consideration to the mind of the Right Honorable the Governor in Council;

both in respect to the operation of those evils on the principles of military subordination, and as affecting the administration of the civil Government. The means which facilitated the introduction of this salutary reform under the Government of Fort William, were absolutely unattainable while a divided authority in the Carnatic continued to distract the measures of the executive Government; the Governor in Council has therefore been compelled to postpone the regulation of the Bazars, on the principles established in Bengal, which have long been recommended to his Lordship's attention, as well by the high authority from which they proceeded as by the salutary effects which they have produced: among the abundant advantages obtained from the consolidation of the British power in the Deckan, it is satisfactory to the mind of the Right Honorable the Governor in Council, that the treaties of the Carnatic and of Tanjore have removed the impediments which have opposed the adoption of this useful measure; while the progress already made under the operation of the same favourable causes on the improvement of the civil Government, of these territories, demands the abolition of a system, not less incompatible with the preservation of military order, than with the rights conferred on the native subjects of the empire under the protection of the civil tribunals.

Impelled by these considerations, the Right Honorable the Governor in Council has deemed it to be his duty at this time to revive the consideration of the mode in which the Military Bazars appear to have been conducted under this Presidency: the result of that consideration has satisfied His Lordship in Council, that the interference of Officers Commanding Forts or Stations with the regulation and controul of Bazar duties, and the appropriation to themselves of the perquisites of command, have a direct tendency to loosen the principles of subordination; to vitiate the due exercise of military authority; and to impede the regular supply of provisions for the Troops; His Lordship in Council has therefore been pleased to abolish the present means of such indefinite emolument, and to substitute the following system for the regulation of Military Bazars, and for the disposal of the produce of such taxes as may be levied on them by the authority of Government.

1st. "In conformity to the 2d, 3d, 4th, and 5th Articles of the 8th Section of the "Rules and Articles for the Better "Government of all of his Majesty's forces," and to the 2d "3d and 4th Articles of the 7th Section of the Rules and Ar- "ticles for the better Government of the Officers and Soldiers "in the service of the United Company of Merchants of "England

"England trading to the East Indies" all officers commanding Forts, Stations, or Cantonments are prohibited from and after the 1st day of January 1803, from being engaged directly or indirectly, in levying, receiving or being concerned in any tax, impost, or receipt, from the Bazar, or from any article of sopply; or receiving in any manner whatever any perquisite or emolument of command not expressly authorized by Government: and the Governor in Council publishes his determination that officers offending against this regulation, shall be brought to trial before a General Court Martial for a breach of the said Articles of war, as well as for disobedience of Military Orders, a determination which his Lordship announces his intention of having carried into effect without relaxation, under any circumstances whatever.

2d—The authority of officers commanding Forts or Cantonments over Military Bazars, or dealers of any description is hereby expressly limited, to the necessary means of preserving peace and good order, to the prohibition within the limits of their command of the sale of intoxicating drugs and liquors, to the extent that the health and discipline of the Troops may in their judgement require; and to the punishment of crimes strictly military which may be committed by the followers of the Army; and the Commander in Chief is requested to direct that, except in ordinary cases of riotous or disorderly conduct, the powers to be exercised by officers in command over persons coming under the description of followers of the army shall always be founded on the report of a Court of Enquiry, or the sentence of a Court Martial (as the case may be) regularly assembled to investigate the circumstances; and that the sentence or order which may be passed in consequence, shall be published in the Orderly Book of the Garrison or Cantonment.

3d—All disputes relative to property, all cases of civil injury, or matters relating to the general police of the country, belong exclusively to the jurisdiction of the Civil Magistrate; and Military officers shall not interfere therein.

4th—It is the intention and order of the Right Honorable the Governor in Council, that in all situations within the territories dependent on the Government of Fort St. George, Rice, Butchers Meats and all articles of food for the use of the Troops, shall be exempt from duties, or imposts, of whatever description, except by public authority; and it will be the duty of all Commissioned Officers, to report to the Commanding Officer, respectively, for the information of the Commander in Chief and of Government, any deviation from this order which may come to their knowledge.

5th—In order that no doubts may arise with regard to the

taxes

taxes levied by authority, it will be the duty of the Collector to furnish a list of authorized duties of each post within his districts to the commanding officer; who is hereby directed to post copies of the same for general information on the gates of the Garrison or public places of the Cantonment.

6th—The forcible seizure of sheep being equally improper and unnecessary where the market is known to be free, that practice is hereby expressly prohibited; in order however to prevent inconvenience from this material change of the present system of supplying sheep, particular instructions will be transmitted to the Collectors for the purpose of guarding against temporary deficiency.

7th—Taxes or revenues arising from Military Bazars shall be levied exclusively by the Collector of the district, on the same principles which regulate the ordinary collection of the revenue. Each Collector shall enter the revenues arising from military Bazars under a separate head in his Books, and at the expiration of each revenue year on the 11th July, the Board of Revenue shall report the total amount to Government, who will direct a distribution of this fund on the principles herein after detailed.

8th—The limits of the Military Bazar shall be determined by those of the Fort, Post, or Cantonment, according to the practice which has hitherto prevailed in those stations where the commanding officer has exercised a controling jurisdiction over the Bazar; and if any doubts should arise with regard to those limits, they shall be determined by reference to the Governor in Council.

9th—When Troops may be assembled for field service within the territories of *Fort St. George*, or when a subsidiary force cantoned or encamped in the territories of an Allied Power may be furnished with a separate Bazar with the sanction of such Ally; it will be the duty of the officer commanding to appoint an Officer to regulate under his authority the supply of the Bazar, and the duties on intoxicating drugs and other proper objects of taxation, such commanding officer shall from time to time appoint proper committees to examine and audit the accounts of the officer in charge of the Bazars, and the amount of the duties and customs thence arising shall be remitted to the General Treasury of *Fort St. George*, to form a part of the General Bazar Fund.

10th—Annually in the month of July, when a statement shall have been received of the amount so collected from Military Bazars, under the direction of the Board of Revenue, and of the amount remitted to the General Treasury from corps or detachments in the field, the Governor in Council will direct

the appointment of a committee of officers to report the proper distribution of the funds according to the following rules.

11*th*—The following officers shall be exclusively entitled to share in the distribution of this fund viz. Officers appointed by authority of Government to the command of Divisions, Districts, Garrisons, Cantonments, or field Corps or Detachments, to the exclusion of all officers Commanding Detachments from Stations or Corps in the ordinary routine of the service, without the express appointment of Government.

12*th*—Officers entitled to share in this fund, shall be distinguished according to the three following classes viz.

Officers Commanding.
1st, Divisions.
2d, Districts.
3d, Garrisons or Cantonments.

and the principle of distribution shall be as follows: the portion allotted to officers of the first class, shall be double the amount of that allotted to officers of the second; and the portion of Officers of the second shall be double the amount allotted to those of the third class. Officers in command of field detachments shall be classed by the committees of distribution in the first, second, or third class according to the force under their command; and shall be entitled to share double the amount allotted to officers of the same class in fixed situations.

13*th*—The distribution being approved by the Governor in Council shall be published in General Orders to the Army—and the payment provided for in the same manner as in a distribution of Off-reckonings.

These Regulations for the conduct of Military Bazars, and for appropriating the pecuniary advantages arising therefrom, shall be carried into effect from and after the 1st day of January 1803.

By order of the Right Honorable the Governor in Council.

His Lordship in Council, in order to facilitate the adjustment of claims for cloathing, has been pleased to establish the following regulations which are directed to be observed accordingly.

In all cases of casualty arising from the death, discharge, transfer to another Corps, or to the non-effective establishment of any Native Officer or Soldier, of Cavalry, Infantry, Pioneers, or Artillery Lascars, to whom cloathing may be due, the Officer commanding the corps in which such casualty occurs, shall draw from the Paymaster of the station, in separate abstracts for each year, accompanied by a roll of the names and rank of the persons to whom such cloathing is due, the value of such cloathing at the annexed rates, which he shall pay to the Officers or Soldiers discharged or removed, or to the heirs of deceased Soldiers on their receipts, prior to their quitting the Corps.—Duplicates of such abstracts and rolls shall accompany the monthly returns of Corps to the Adjutant General's Office; and a General Roll of payments for the preceding year shall be annually transmitted from each corps and department on the 1st of January to that office.

The Paymaster of stations shall enter all payments made on account of arrears of cloathing to Native Troops in a separate account, a copy of which, accompanied by the abstracts as vouchers, they shall regularly transmit to the Military Paymaster General, who will carry the whole to the annual debit of the off-reckoning fund, for the year expressed in the abstract.

Officers in command of corps will understand that the title of Native troops to cloathing for any particular year, depends on the claimants having been on the strength of the Corps on the 31st of December of that year, without attention to broken periods:—and they will on this principle adjust the accounts and regulate the payments for arrears of cloathing.

6th—The above eſtabliſhment ſhall be muſtered monthly by the officer commanding *Seringapatam*, or by a ſtaff officer authorized by him; and the Agent is to make a monthly return of this eſtabliſhent to the Military Board.

7th—In addition to the eſtabliſhment of Artificers &c. on Monthly Pay, (as detailed in the 4th Paragraph) the Agent is empowered to entertain on daily pay, ſuch number of ſubordinate Artificers of various deſcriptions, as the extent and nature of the work in hand may render neceſſary.

8th—Daily entries of the number, deſcription, and pay of Extra Artificers thus employed at the manufactory ſhall be inſerted

ferted in a book to be kept by the Agent for that purpose, and at all times open to the inspection of the officer commanding *Seringapatam*. The agent to make weekly reports of the number of such artificers daily employed, to the officer commanding *Seringapatam*, and monthly reports of a similar nature to the Military Board.

9*th*—The pay of all occasional artificers to be regulated by the eſtabliſhed rates of the ſtation, as certified monthly by the officer commanding *Seringapatam* and the ſuperintendent of the Police—whoſe certificate muſt accompany the abſtracts of the Agent.

10*th*—The ſalary of the Agent and the pay of his eſtabliſhment, occaſional artificers (including the pay of the Company of Stone Laſcars attached) ſhall be drawn by him in arrears from the Paymaſter of *Seringapatam*, on a monthly abſtract ſigned by the Agent and counterſigned by the officer commanding *Seringapatam*—The pay of the Conductor attached to be included, but drawn *in advance*. Each abſtract to bear annexed a declaration on honour by the Agent that the various payments charged in ſuch abſtract have been or will be bonâ fide diſburſed by him to the perſons, and for the purpoſes ſtated in the abſtract, and that he neither directly or indirectly has derived or will derive any benefit or advantage whatſoever from the ſame beyond the eſtabliſhed ſalary allowed to him by the regulations of Government.

11*th*—The Agent is authorized to draw from the Paymaſter of *Seringapatam* on an eſtimate which he will prepare on the 1ſt of every month, the ſum which may be neceſſary for the payment of occaſional Artificers to be employed during that month—The eſtimate to be ſubmitted to and counterſigned by the officer commanding *Seringapatam*, and the amount of advances when made are to be entered by the Paymaſter in a ſuſpenſe account, and carried to the perſonal debit of the Agent until regularly accounted for by him, in the ſettlement of his next abſtract for the pay of his eſtabliſhment.

12*th*—A ſimilar mode is to be adopted regarding the advances required when circumſtances may induce the Military Board to employ the Agent in the purchaſe of materials for the manufactory. His Bills for materials ſo ſupplied are to bear a declaration on honour ſimilar in effect to that required with the abſtracts for this eſtabliſhment, and the advances made are to be placed to his perſonal debit, until the Bill of the Purchaſes has been regularly paſſed for payment by the Military Board.

13*th*—Timber for the uſe of the manufactory ſhall be procured by contract for felling and piling in the woods ſuch trees as are of a proper quality and growth; and by purchaſe of ſuch

kind

kind of timber, as the forests do not produce on the borders of *Mysore* what is there felled will be removed to *Seringapatam*, and delivered to the Agent under the detailed Regulations for that branch of the department, which are hereunto annexed.

14*th*—Brass, Steel, Iron, and all other materials together with Tools for Artificers and such other implements required in the manufactory, as cannot be there made, shall be supplied to the Agent from the public stores, on quarterly indents to be prepared by him, countersigned by the officer commanding *Seringapatam*, and transmitted for sanction to the Military Board.

15*th*—When articles are required which cannot be furnished from the public stores, the circumstance is to be reported without delay to the Military Board, who will take measures for procuring them by other means.

16*th*—In all cases of supply either from the public stores or by purchase under authority, the Agent will be held responsible that the articles furnished are good and perfectly fit for the service—as it will be his duty to object against receiving any that are not of this description. On all receipts of stores of any kind, he must apply for a committee to examine and report on the articles tendered for the use of the department, this committee of which the Agent is to be a member, will be ordered on his application by the officer commanding *Seringapatam*, and its proceedings must be transmitted to the Military Board.

17*th*—The Agent shall keep regular books stating in the most clear and explicit manner the receipts, issues, and remains of materials of every kind, and he will be held responsible that, under a reasonable allowance for loss in working up, the quantity of materials expended corresponds with the articles fabricated and delivered into store. These Books shall be made up monthly, and a copy shall be forwarded quarterly to the Military Board, accompanied by a return of Tools, exhibiting under the several heads of serviceable, repairable and unserviceable the state of each—a return of articles prepared at the manufactory and delivered into store during the preceding quarter, and a statement of component part and unfinished work on hand.

18*th*—When the manufactory has been properly established, and a sufficient time for preparation has elapsed, it shall be considered as a fixed regulation that no timber shall be used in the construction of ordnance carriages or other articles of Military store, that has not been felled at least two years: nor shall any of the component parts of ordnance or other carriage be fitted together, until such parts shall have been blocked out in the rough and piled in that state to season, for at least six months.

19*th*—All ordnance carriages and other articles of Military Store prepared at the manufactory, shall be subject to the following inspection and surveys, viz.

1st—The wood works as clocked out, after having been piled six months to season.

2d—The component parts of wood, Iron and Brass, when ready to be put together.

3d—The wheels and other parts of carriage when fitted together, before the Tires of the wheels, bolts, screws, and other parts of Iron work are fixed and rivetted.

4th—The entire work when complete and ready for delivery to the *Commissary of Stores*, who must invariably be a member of these committees.

In these several stages of its progress, the Agent will apply to the officer commanding *Seringapatam* to order a competent committee of Survey to inspect the work, as often as the quantity ready for inspection may render it expedient.

20th—It will be the duties of the committees of inspection and survey to reject on each stage of preparation, such parts of carriages, or other articles of store produced to them, as they may consider objectionable, either from defective materials, or workmanship.—But it is to be clearly understood, that as the Agent is impowered and required to reject in the first instance all materials which are not of the best quality, and as it is his duty to see them put together in a proper and workmanlike manner, the reports of such committees in no degree relieve the Agent from his responsibility for the efficiency of all carriages and other articles of store, prepared by him.

21st—The reports of the committees to be delivered to the officer commanding *Seringapatam* for transmission to the Military Board.

22d—When ordnance carriages and other articles of Military Equipment prepared at the manufactory are finished, and have been approved by the inspecting committees, they shall be marked with the company's mark, the initials of the Agent's name, and the year of their construction, and delivered unpainted to the charge of the Commissary of Stores at *Seringapatam* on his receipts—Reports of all such deliveries shall be made monthly by the Agent to the Military Board.

23d—The various models now lodged in the Arsenal of *Fort St. George*, and the patterns of carriages in use under the presidency of *Fort St. George*, shall be delivered to the Agent at *Seringapatam*, and lodged in his custody together with patterns of the other articles of Military Store, which the manufactory at *Seringapatam* is ultimately intended to supply, from these patterns no deviation is to be made, unless authorized by the previous sanction of the Military Board.

24*th*—The number of carriages to be conſtructed monthly by the agent, will be fixed by the orders of the Military Board, and the determination of the Board on this point, will neceſſarily regulate the number and nature of extra Artificers, which the agent will be permitted to employ—but as it muſt be conſidered as a rule never to be departed from, but under the moſt preſſing exigency of Service, that no ordnance carriages, ammunition Boxes, or other articles of that nature are to be *put together* during the rainy ſeaſon, the agent will ſo arrange the diſtribution and employment of his Artificers, as to prepare during the rainy months the Iron work and other component parts, in ſuch proportions, as may enable him to put together and finiſh in the dryeſt ſeaſon, the number of carriages required in the year, on the average computation of the number ordered to be made each month.

25*th*—In order to aſcertain the relative expenſe of the propoſed ſyſtem, compared with the former charges under a ſyſtem of contract—the Paymaſter of *Seringapatam* will furniſh to the Secretary of the Military Board, an annual ſtatement on the 1ſt day of March, exhibiting the amount of all payments made by him on account of the gun carriage &c. manufactory during the preceding year, this account to include the agent's ſalary—Pay of his department fixed and variable—Bills of contractor for Timber, and amount of purchaſes made on account of the manufactory.—From this account and the ſtatement of iſſue to the manufactory from the public ſtores, the Secretary of the Military Board ſhall prepare and annually ſubmit to the Board an account, carrying the aggregate amount of charges to the *debit*, and the computed value of articles ſupplied to the ſtores and of ſtock on hand to the *credit* of the manufactory—The value of articles which have been ſupplied being eſtimated at the average rate of their coſt under the ſyſtem of contract or agency for the laſt ten years—a table of which ſhall, for that purpoſe, be prepared by the Secretary of the Board.

26*th*—In order to ſimplify this compariſon, the buſineſs of the manufactory muſt for the firſt two years be confined to the conſtruction of new ordnance carriages and Carts, which from the chief items of expence in this department—ſhould the ſyſtem be found in this particular to anſwer expectation, the proviſion of all the ſmaller articles, and the repair of carriages for the ſupply of the *Myſore* and adjacent diſtricts, may be added to the duties of the agent with equal if not ſuperior benefit to the public intereſts.

27*th*—As Government have been pleaſed to grant a very liberal allowance to the Agent, and conſiderable confidence is repoſed in him, theſe advantages are neceſſarily connected with

proportionate

proportionate responsibility on his part and that responsibility for the proper and efficient conduct of every branch of the important department confided to his management, is hereby declared to attach to him, in the fullest manner.

Regulations for the Provision of Timber for the Gun Carriage manufactory at *Seringapatam*.

1*st*—Timber for the consumption of the manufactory, shall be annually provided by contract, to be entered into under the authority of the Military Board.

2*d*—The contractor shall engage to cut wood of the best quality, and of the kind and dimensions prescribed by the Military Board.

3*d*—A Conductor with a small party of Lascars and Sepoys shall be employed in Superintending the cutting of Timber, and the Conductor shall continue in charge of it while it remains in the forest.

4*th*—The Timber after it is felled shall be squared, numbered, marked with the scantling of each piece, and the date of its being cut, and collected into Piles in stations of the forest accessible to the Company's carriages and cattle, by the contractor under the direction and inspection of the Conductor.

5*th*—After the Timber is collected into Piles, it shall be delivered over by the contractor to the conductor, who will grant receipts for the quantity transferred to his charge.

6*th*—Previously to the collection of the Timber into Piles, the Conductor shall ascertain that it is of the described quality and dimension, squared, marked and numbered, and that the situation of the proposed Pile is accessible to the Company's carriages and cattle. He is to enter in a register the number of Beams received, the dimensions of each, and the number and date marked upon it.

7*th*—The Conductor shall prepare copies of this Register in duplicate—One to be transmitted to the agent, the other to the officer commanding at *Seringapatam*.

8*th*—The Contractor shall be paid by the Paymaster of *Seringapatam* on his Bill for the quantity of Timber felled and delivered, agreeably to contract, supported by the Conductor's receipts, such Bill being first transmitted by the Paymaster to the Military Board, and passed by the Board's authority for payment.

9*th*—When the Timber piled in the forest, is in some degree seasoned, the Conductor shall report its state to the agent, who will indent on the Officer in charge of public cattle for Bullocks to convey it to *Seringapatam*.

10th—On the arrival of the Timber at *Seringapatam*, the agent will receive charge of it, and place it in Piles to season.

11th—The Agent will be held responsible that the quantities brought to account at the manufactory shall correspond with those entered on the Conductor's register; should there appear to be any difference either in quantity or quality on its arrival at *Seringapatam*, the agent will report the circumstance to the officer commanding that garrison, who will order a committee to ascertain the cause, and forward its proceedings to the Military Board.

12th—The Agent shall keep a separate account of Timber received, and issued, writing off from his stock in hand the quantity issued from time to time for the use of the manufactory, on the previous authority of the Military Board; to whom he will state the quantity required for the probable consumption of the department, as often as he may find it expedient to do so.

G. O. By Government.

1st—The Right Honorable the Governor in Council having considered it to be expedient to substitute definite regulations in place of the various orders issued at different periods relative to the payment of family certificates, accordingly establishes the following regulations on that head, and directs all former orders and regulations on the same subject to be cancelled from the publication hereof.

2d—When the Commander in Chief shall deem it necessary to sanction the issue of certificates to the families of any Corps ordered for field service, the same will be declared in General Orders or signified to the officer commanding the Corps and the Military Auditor General; the certificates are then to be drawn out according to the annexed form No. 1. Signed by the officer commanding the Troop, or Company, and countersigned by the officer in the actual command of the Corps, and the sum granted is invariably to be expressed in the currency established for Military disbursements under this Presidency, viz. in Star Pagodas, Fanams, and Cash.

3d—Officers are to make out in triplicate, correct rolls of all certificates so granted in their respective Troops, or Companies, observing that seperate rolls must be made for each station where the certificates are payable; headed according to form No. 2. One of these to be delivered to the Paymaster of the Army or Detachment, for his guidance in making the necessary deductions, the other *two* to be transmitted by the officer commanding the Corps to the office of audit, from whence *one* will be passed to the station Paymaster, having been previously authenticated by the signature of the Military Auditor General.

4th—Accurate copies of the above rolls and of all casualties are to be preserved by officers in charge of Troops or Companies, which are to be inspected occasionally by the officer in the command of the Corps, and in case of the removal of any officer from a Troop or Company, it shall be considered the duty of the commanding officer to ascertain that the *Rolls* and *Lists of casualties* are delivered over in a correct state to the officer succeeding to the charge.

5th—Officers commanding Troops or Companies, are to make out *duplicate* Rolls of casualties as they occur, which are to be presented for the countersignature of the officer commanding the Corps

Corps &c. who will forward them to the office of audit without loss of time. If it shall be necessary at one time to report several casualties and the certificates are payable at different stations, the communications are to be made in separate and distinct rolls which are invariably to be headed "Casualty Roll of family Certificates payable at *(here insert the station or its dependents....)*"

6th—The notification of casualties being thus made in duplicate to the office of Audit, *one* copy when authenticated by an official signature will immediately be passed on to the Paymasters whom it concerns.

7th—In order to prevent confusion, it is further to be understood that all communications on the subject of family payments, whether withdrawing such payments or granting them, are also to be made in separate and distinct rolls headed as occasion may require, either Casualty Roll of Family Certificates &c. or List of Family Certificates &c.

8th—As it will frequently happen, that officers commanding Corps in the field may have the means of giving notice of casualties to the Paymasters of stations, where a part of the families reside sooner than by the circuitous route of the Presidency, they are to consider it their indispensable duty to forward such notice direct, as well as to the Military Auditor General; and the Paymasters are to discontinue payments upon receiving such communications from commanding officers, altho' they may precede for a considerable time those which may be sent from the office of Audit.

9th—When a family certificate has been once granted, it is not to be recalled, except in cases of actual casualty by death, desertion &c. or unless on good and sufficient reasons being assigned by the party to the commanding officer of the Corps, who will discourage as much as possible, all such applications as tending to introduce inevitable confusion, and in all such cases the stoppages account of the recalled certificates, are not to cease until they are presented at the office where the Corps &c. is paid. The Paymaster will then be able to settle any arrears that may appear to be due, transmitting the original certificate as the voucher upon which such arrears has been paid.

10th—A list of all casualties reported to the office of Audit in the course of the month, is to be delivered to the Paymaster with the abstracts in which the deductions on account of family certificates are made, and at the same time a *Statement* signed by the officer commanding the Corps, according to the annexed form No. 3. shewing the amount of stoppages to be made from each Troop, Company &c. on account of family certificates, payable at the different stations of the Army for that month.

11th—As soon as the monthly payments are completed, the Paymaster of the Army or detachment shall compile from these regimental vouchers one general statement—Form No. 4. which shall exhibit the total amount of stoppages made by him in the course of the month from the different corps &c. within his range of payment, and this statement is to be transmitted with every necessary explanation annexed, for the information of the Military Auditor General.

12th—Paymasters of stations where the families reside, are on no account whatever to pay any certificates which are not included in the rolls officially transmitted to them from the office of Audit: if a certificate shall be presented for payment drawn according to the prescribed form, and with the proper signatures, but of which the Paymaster has received no regular intimation, he will forward a copy to the Military Auditor General that the necessary authority for the payment of it, may be obtained without loss of time.

13th—Paymasters of stations will be held responsible that the payment upon all certificates are discontinued after the receipt of casualties at their respective offices; and to enable the Military Auditor General to ascertain that due attention has been paid to this regulation, each Paymaster is required to transmit to the office of Audit on the 1st of every month, a list of the casualties which may have been communicated to him in the course of the month preceding, and the particular periods when such communications reached his office, are to be specified.

14th—Similar Lists of casulties are to be transmitted by Paymasters of stations every month to the Paymaster of the Army or Detachment in the field, by whom the Corps to which the casulties relate are paid, who will compare them with the list of casualties in his office by which the stoppages for the same month have been regulated, and report immediately any variation he may observe to the Military Auditor General, with such information as may be necessary to explain the cause of it.

15th—Paymasters of stations are directed to furnish the Paymaster of the Army or Detachment in the field every month, with a statement exhibiting the amount paid by him to the Families of each Corps, department &c. in the month preceding: transmitting at the same time duplicate of such statement to the Military Auditor General, who upon comparing it with the stoppages brought to account by the Paymaster of the Army &c. will see at one view if the totals correspond, and can adopt the necessary measures for adjusting any difference that may have arisen between the amount of payments and stoppages.

16th—All Payments on account of family certificates are to be entered in detail in a seperate disbursement, supported by corresponding

ponding rolls for the purpose of being audited in the same regular manner, as other military charges for effecting which, they are to appear under the head "Disbursement, on account of Family Payments" in the same order of arrangement as is prescribed for all other disbursements, and the Military Paymaster General will pass no sum to the credit of any Paymaster on account of family payments, which shall not have been audited and passed agreeably to the regulations and orders of Government, established for the conduct of the Office of Audit.

17th—The Paymaster of the Army or Detachment in field, is to enter in his monthly disbursements the full amount of the pay and allowances of the Troops; to give credit in his abstract of receipts and disbursements for the amount of stoppages on account of family payments.

18th—Officers upon field service are authorized to grant family certificates, payable at such station as they may judge to be most convenient, but it is to be understood, that these certificates are to be invariably recalled, when the officers who granted them return into garrison.

19th—The communications relative to the recall of officers family certificates, are to be made through the office of the Military Auditor General; and Paymasters are not to discontinue their deductions from the abstracts of Officers, who have recalled their certificates, until they shall have received intimation from the Military Auditor General, that the payment on these certificates has ceased.

27th December 1802.

G. O. BY GOVERNMENT.

The following compilation of medical regulations prepared under the authority of the Commander in Chief, being calculated to define and simplify the conduct of the duties of the medical department, and to provide rules for the conduct of that department during peace and in the field, the Right Honorable the Governor in Council is pleased to publish it, and to direct that all former medical regulations not consistent with those now published, shall be considered to be abolished.

REGULATIONS IN TIME OF PEACE.

1st—The Medical Board shall Superintend under the authority of the Commander in Chief, the whole of the Military medical department under the Presidency of *Fort St. George.*

2d—

2d—To assist in the performance of this important duty, Superintending Surgeons to be selected from the Head Surgeons or seniors of the establishment when properly qualified, shall be appointed to exercise medical superintendence and controul under directions of the Medical Board and Commander in Chief, in the several principal military divisions of the Army.

3d—Superintending Surgeons being attached generally to the divisions in which they are doing duty, will be relieved from the immediate charge of hospitals, and the situation of general hospitals being found to be no longer necessary in the service, is accordingly abolished, excepting one at the Presidency, which is retained, and placed under the immediate superintendence of the Medical Board.

4th—A Garrison Surgeon shall be permanently appointed to each of the principal military stations of *Masulipatam*, *Vellore*, *Trichinopoly*, *Seringapatam*, *Cannanore*, and *Bellary*, placed in charge of a garrison hospital for the reception of the sick of all descriptions who may not belong to Corps, or be provided with medical assistance, and allowed to draw for the European Invalids and Pensioners, Natives, Invalids, and all other troops doing duty in the garrison, who may be put under his medical charge (details from European regiments excepted) at the rate of 60 Cash per day, and 20 Cash in medicine for each European, and 4 Pagodas per hundred for the natives.

5th—The Garrison Surgeons of the above stations shall each be permitted to draw a monthly allowance of 20 Pagodas for medical establishment.

6th—The Garrison Surgeons of *Masulipatam*, *Trichinopoly*, *Seringapatam*, *Cannanore*, and *Bellary*, shall be placed in charge, and regulate the receipts and issues of the medical stores for the divisions to which they are respectively attached, under the inspection and controul of Superintending Surgeons; and shall be entitled to draw on that account, an allowance of 30 Pagodas per month for stationary and office establishment.

7th—This regulation rendering the situation of deputy Medical Storekeeper unnecessary, that appointment is directed to be abolished.

8th—The general order of the 4th December 1793, directing that "for all stations of European Invalids and Pensioners, of "whatever number, and for all detachments and garrisons com- "posed of effective Europeans not exceeding two hundred men, "a fixed monthly allowance shall be granted to the Surgeon "of the garrison, station or detachment for victualling, cloath- "ing, country or bazar medicines, and every hospital ex- "pence, Europe medicines excepted, for each European on the "strength of the garrison or detachment, the sum of 30 Fanams

"per

per month, when it exceeds the number of 100 men, and the sum of 45 Fanams or one Star Pagoda, when the number of men exceeds fifty, and does not amount to one hundred, and the sum of 60 Fanams or one Star Pagoda, and fifteen Fanams when the number does not amount to fifty," is repealed, and in lieu of those allowances 60 Cash per day, and 20 Cash in medicine is to be drawn for each individual of the above descriptions (details from European Regiments excepted) by the Surgeon in charge, besides the usual Stoppage of 2 Fanams 40 Cash per day, to be received from the pay of each man in hospital, and for each European Pensioner when in hospital, the smallness of whose pay will not admit of any stoppage being made from it, an allowance of 2 Fanams 40 Cash shall be drawn by the Surgeon from the Paymaster in a bill certified by the commanding officer of the station.

9*th*—The expence of sick Europeans occasionally left in places at a distance from their regiment must be defrayed by their regimental Surgeon, who will draw the regulated allowance for every man present in *India* with his corps, the Surgeon in whose care the absent sick remain, shall receive the hospital stoppages, and charge besides the regimental Surgeon with the additional expences incurred on their account, and in case of detachments being sent from European regiments, the Surgeon will furnish and be at all times responsible for such necessaries and servants, as may be requisite for the use of the sick and wounded.

10*th*—It having been found from experience that the allowance of 8 Fanams per man per day, bears upon an average a just proportion to the amount of expences actually incurred in the victualling, cloathing &c. of European sick, it is directed that Surgeons at the head of fixed hospitals, shall be invariably authorized to charge 8 Fanams for such sick Europeans as may be placed under their care, drawing that allowance from the Paymaster of the station in two bills for each regiment, accompanied by rolls specifying the names and rank of the men, and the companies to which they may be attached, viz. One bill for 5 Fahams 40 Cash, and the other for 2 Fanams 40 Cash for each man so situated.

11*th*—These bills will be forwarded by Paymasters of stations to the Military Paymaster General, who in the case of the Company's troops, is directed to transmit them to the Paymaster of the garrison, where the corps to which the sick respectively belong may be stationed, in order that their amount may be deducted from the abstracts of the Surgeon, and the officers charged with the payment of companies, according to the stated proportions, and in the case of His Majesty's Troops, the Military Paymaster General is directed to forward the bills through the

King's Deputy Paymaster General, to the Paymasters of regiments by whom the requisite deductions will be made, and brought to account.

12th—Detachments or parties of recruits belonging to regiments not on this Establishment, which may be placed in garrison at *Fort St. George*, or any other station under this Presidency, are directed to be drawn for at the rate of 60 Cash per man per day, and 20 Cash in medicine by the Surgeon ordered to take medical charge of them, who will defray the hospital expences of the sick.

13th—When sick soldiers not belonging to any detachment, or party of recruits, nor attached to any regiment upon this establishment, shall be placed in the general hospital at the Presidency, or at any subordinate hospital, the Surgeon in charge of them, shall draw from the Paymaster an allowance of 8 Fanams per man per day on their account.

14th—In consideration of the divided state of the corps of Artillery, the operation of the 9th Paragraph of this regulation as far as it relates to the mode of drawing for these corps, and defraying the expences of their absent sick is suspended, the Surgeons of Artillery will therefore in future respectively draw for the number of men present for duty at Head Quarters at the usual rate of 60 Cash in money, and 20 in medicines, and the Surgeons or Assistants doing duty with detachments from these corps, will draw from the Paymaster 1 Fanam per man per day, according to numbers in lieu of all medical charges.

15th—In addition to the present allowance of 4 Pagodas per month for every hundred men, the following establishment of medical servants, is allotted to each Battalion of Native Infantry, to be regularly returned and mustered, and drawn for in abstract by the Surgeon.

1 Dresser at 4 Pagodas per month.
1 Ditto, at 3 Pagodas per month, (in the field.)
2 Toties at 2 Pagodas each—ditto.—ditto.

16th—The appointment of Black Doctor to a Battalion is discontinued, such of the Black Doctors as are qualified for the situation are directed to be appointed dressers.

17th—The situations of garrison Surgeon of *Chicacole*, *Palamcottah*, *Madura*, *Dindigul*, and *Chittledroog*, being no longer necessary from the small number of troops doing duty at those stations, are abolished, and the senior regimental Surgeons are to be placed in medical charge of those garrisons drawing 25 Pagodas per month for medical expenditure, and the regulated allowances for the European and Native troops of all descriptions under their immediate care.

18th—

18th—A conſiderable expence having been unneceſſarily incurred by the practice of diſpatching for the uſe of corps, European medicines in an unprepared ſtate, it is directed that this practice ſhall be diſcontinued, and that the medicines to be in future iſſued from the office of the Medical Storekeeper of *Fort St. George*, or from the medical ſtores at the ſubordinate ſtations, ſhall be compounded and prepared for uſe under the ſuperintendence of the officers in charge of the ſtores previouſly to their being iſſued by them.

19th—In conſequence of this regulation, the ſervants hitherto employed with corps for the purpoſe of compounding European medicines will be no longer required, and are to be accordingly diſcontinued.

20th—The allowances hitherto granted to Surgeons of European regiments for the carriage of hoſpital cotts with the bedding and cloathing, on the occaſional removal of the regiments, are ordered to be diſcontinued, in thoſe caſes where an exchange ſhall take place, in the ſtations of European corps, the Surgeons may have the means of arranging mutually an exchange in the property of the hoſpital cotts, but when circumſtances ſhall not admit of ſuch an arrangement being effected, the expence incident to the movement of the cotts is to be defrayed by the regimental Surgeons.

21ſt—It is directed that the expence attending the carriage of European medicines in the field, ſhall be in future defrayed by the regimental Surgeons of European corps from their preſent allowances, and that the Medical Storekeeper at the Preſidency ſhall on the occaſional movement of corps during peace, provide for the carriage of bazar and country medicines, without any further allowance on that account.

22d—It appearing that the duties of ſuperintendence and controul over the whole medical department in the province of *Malabar* can be exerciſed by one Superintending Surgeon, the appointment of Superintending Surgeon of the Southern Diviſion of *Malabar* is annulled, and the medical authority of the remaining Superintending Surgeon is extended over the whole of that province.

23d—It will be the eſpecial duty of Superintending Surgeons of diviſions by a frequent perſonal inſpection of all regimental or other hoſpitals within the limits of their range, to enſure the moſt unqualified attention to their profeſſional duties on the part of the Subordinate Surgeons and Aſſiſtants, to inſpect with particular attention the journals of their medical practice, to correct the errors of experience or deficient medical knowledge by inſtruction to thoſe who require it, to enforce attention in the compilation of the Journals of ſubordinate officers, to extract

from

from them, such medical facts as appear to merit notice from their uncommon or important nature, to report the result of their inspection and superintendance, the state of the sick, and the conduct of the subordinate Surgeons and Assistants, monthly to the Medical Board, accompanying this general report by the original journals of the subordinate medical officers, pointing out to the Board's observation, any remarkable cases and transmitting copies of all orders, comments, instructions, approbation or censure, which they have thought proper to convey to the subordinate medical officers in the course of the preceding month.

24*th*—It shall be the particular duty of the Medical Board to superintend the management of all hospitals, to examine the reports of the superintending Surgeons, to enforce their attention to the duties of the division under their respective superintendance, to convey through them such orders and instructions as the nature of the reports which they receive, or the orders of Government and the Commander in Chief may require, to inspect the journals of all medical practitioners, to give such directions for the regulation and improvement of their practice as such inspection may point out as necessary, to comment on erroneous practice, to check every appearance of negligence or impropriety; to encourage merit by approbation; and correct inattention by reproof.

25*th*—It will be considered the duty of the Medical Board, after an accurate inspection of the medical journals, to certify on each that it has been examined, to annex the comments originating from such inspection, and to preserve with care and under a clear methodical arrangement, the original journals, reports, and observations of medical practitioners under their orders. The Board from the mass of information obtained will select such cases as appear uncommon in their nature connected with interesting medical facts, or exhibit the results of particular practice digesting them in the form of reports and observations on medical facts, to be recorded on their proceedings, copied, and circulated to the superintending Surgeons for their information, and that of the subordinate medical officers under their authority, and transmitted to the Medical Boards of the other Presidencies.

26*th*—The office of immediate superintendence at this Presidency will be performed by the Medical Board, the 2d and 3d members of which Board will visit the Hospitals in rotation weekly, and receive the monthly journals and reports from the Surgeons in charge of them.

27*th*—The Medical Board will make a monthly report to the Commander in Chief, for his and the information of Government

vernment, of the ſick of the Army in the form preſcribed by that board for the Surgeons in *Malabar*, ſubſtituting for the medical remarks which it contains, ſuch obſervations as the reports they receive may enable them to give of local cauſes of diſeaſes, within the probable power of Government or the Commander in Chief to diminiſh or remove, and ſtating how far the medical officers attached to ſtations and corps in the performance of their medical duties are entitled to recommendation for attention and talent, or to cenſure, from the abſence of thoſe claims to favourable notice.

28*th*—The Medical Board will continue to check the Indents, and ſuperintend the expenditure of medicines and medical ſtores to the full extent of their preſent powers over that branch of the medical ſyſtem; to the performance of which duty, the preſent alterations in the regulations of the medical ſervice, will give additional facility.

29*th*—The Senior Surgeon in any garriſon or ſtation ſhall be authorized to inſpect the hoſpitals of the junior Surgeons in that garriſon, and report his obſervations to the Superintending Surgeon of the diviſion in which he is placed.

30*th*.—As it is impoſſible that the practice of military hoſpitals can be properly conducted, unleſs the Surgeons keep accurate journals of their practice, and as ſuch journals alone can afford to the Medical Board and ſuperintending Surgeons the means of appreciating the capacity and attention of ſubordinate officers when removed from their perſonal inſpection, each Surgeon or Aſſiſtant in medical charge of hoſpitals, garriſons, military ſtations, regiments, battalions, or details of troops ſhall keep.

1*ſt*—A journal of his practice in which the name, age, general conſtitution, diſeaſe, and treatment, of his patients ſhall be regularly entered and fully detailed, together with the day of their reſpective admiſſion, diſcharge, or dead.

2*d*—A Regiſter agreeably to form No. 1 ſerving as an index to the journal.

3*d*—An abſtract of diſeaſes to be annexed to the regiſter as by form No. 2, and

4*th*—A return of the expenditure of medicines and wine, founded upon the regiſtered preſcription entered on the journal, and exhibiting the receipts, iſſues, and remains, of each deſcription of medical ſtores, in the courſe of the month.

31*ſt*—A copy of the journal and reports ſhall be tranſmitted on or before the 20th day of each month, by Surgeons and Aſſiſtant Surgeons (with the exception already ſtated of thoſe at the Preſidency) to the ſuperintending Surgeon of the diviſions when in garriſon or cantonment, and to the ſenior ſtaff Surgeon of the

the army or detachment when in the field, accompanied by such general medical observations as may result from the occurrences of the month, as may be calculated to elucidate the local causes of prevalent diseases, or in any way lead to the extension of professional knowledge.

32*d*—That part of the general order of the 14th April 1802, which directs that "all recommendations for the appointments "of the Surgeons or Assistant Surgeons to corps or application "for furlough, shall be in future stated to his Lordship in "Council by the Commander in Chief" is corrected, and it is ordered that such appointments and furloughs shall be regulated by the authority of the Commander in Chief, agreeably to the rule observed in the case of all other military officers, without being submitted to the sanction of Government.—It is further ordered that all recommendations for promotion in the medical branch of the military service, and for the appointments of Surgeons to divisions, hospitals, and stations, shall be submitted to the Governor in Council by the Commander in Chief.

33*d*—This order is not intended to lessen the authority of medical superintendence and controul vested in the Medical Board and superintending Surgeons, over the subordinate part of the medical Service, and the Surgeons attached to Corps will accordingly continue to obey such orders and instructions regarding their professional duties, as they may receive from their superior officers of their department.

34*th*—When leave of absence is granted to a Surgeon or Assistant Surgeon, the circumstance is to be reported without delay by the superintending Surgeon of his division to the Medical Board.

The indentures of Assistant Surgeons arriving from *Europe*, will be delivered to the Medical Board, and submitted by that Board to the Commander in Chief, to be laid by him before Government.

9th—The field Apothecary is to tranſmit regular returns to the Medical Storekeeper at the Preſidency, of the iſſues of medicines and medical ſtores, to be accompanied or followed by the original indents and receipts as caſe occaſions for tranſmiſſion may occur.

12th—The Surgeons of the field hoſpitals ſhall be ſupplied with Europe inſtruments and medicines from the public ſtores in camp, on regular indents, but country and bazar medicines for the ſick in ſuch field hoſpitals, ſhall be provided at their own expence, out of the allowance made to them for the care of the ſick under their charge.

13th—The field Apothecary to indent on the Medical Storekeeper for a ſupply equal to three months expenditure of European medicines and inſtruments, for the uſe of the whole army.

14th—In addition to the quarterly ſupply of wines and country medicines carried by the regimental Surgeons, a further three

three months supply of these articles in advance to be placed in charge of the field Apothecary, and issued on quarterly indents to the respective regimental Surgeons, when the period to which they will be supplied on marching shall be expired.

15th—The medical storekeeper is to provide at the expence of Government in the first instance, and to forward to the field Apothecary, a supply of Europe medicines and instruments, Hospital cloathing, servants, wines, and country medicines, calculated as equal to the consumption of a certain number of men for a given length of time, according to the instructions which he shall receive from the Commander in Chief.—These supplies to be carried and the servants wages defrayed at the public expence, until it may be found necessary to establish a field hospital, when the whole or such a portion of the servants as according to the number of sick may be required will be delivered to the Surgeon appointed to the charge of the field hospital, on whom the payment of their wages will subsequently devolve. The wines, country medicines, and hospital stores, will also be issued to him by regular indent on the field Apothecary, to whom the hospital Surgeon will pay the amount according to the rate charged to the Honorable Company by the medical storekeeper, with an advance of 10 per cent on account of charges.

18th—The indents made on the field Apothecary by the Surgeon placed in charge of a field hospital for instruments and Europe medicines, on account of the sick in such field hospital, shall be regulated by the number of patients under his charge like all other indents of the same nature subject to the future audit and controul of the Medical Board at the Presidency,—

these

these indents are therefore to specify the number of sick in the field hospital at the time, and the period to which the articles indented for are calculated to last for a given number of men, which information together with monthly returns of the number of sick daily in the field hospital to be transmitted to the Medical Board by the field superintending Surgeon, will enable that board to judge of the extent to which such supplies should be admitted, and it is also to be understood that all indents from the hospital Surgeon on the field Apothecary in camp, are to be submitted to the inspection of the Commander in Chief after having the sanction and countersignature of the field superintending Surgeon.

19th—When a patient shall be removed from a regimental to a field hospital he is to be no longer included in the daily indents for provisions, but dry batta at the rate of 3 Fanams 30 Cash per day is to be drawn by the hospital Surgeon with the usual stoppage of 1 Fanam 40 Cash, in addition to which the Surgeon in charge of a field hospital is to receive from the regimental Surgeon 5 Fanams per man per day, for which the sick are to be furnished with every necessary article, europe medicines and instruments excepted, which are to be supplied on indent as already directed.

20th—The dry batta paid on account of the sick in field hospitals will be drawn monthly by the Surgeon in charge, in the following proportions viz. from the Commissary of provisions or Paymaster according as the hospital may be situated, the difference (being 1 Fanam 67½ Cash per day) between the established deductions and the amount of dry batta, and for the remainder (being 1 Fanam 42½ Cash per day) the Surgeon will send a monthly bill with a list of the mens names to the regimental Paymaster of His Majesty's Corps and to the Paymaster of the Army or station for the Company's corps, who will pay or remit the amount to the Surgeon and stop the same from the respective companies to which the men belong instead of the deductions being credited in the distribution or abstract.

21st—The field hospital Surgeons monthly charge against each regimental Surgeon to be certified by the Commanding Officer of the corps as corresponding with the number of sick and the days they were in hospital, and to be then sent to the Paymaster of the Army, in order that the amount may be deducted from the abstracts of those Surgeons respectively.

22d—Sheep and rice for the use of the sick in the field hospital will be furnished to the Surgeons in charge, by indent on the Commissary of provisions at the rate at which they are issued to the troops.

23d—Puckallies to be furnished to the field hospital from the corps in the field, in proportion to the number of their sick in such hospital.

24th—The regimental Surgeons in transmitting their sick reports to the field superintending Surgeon, shall include returns of their hospital, cloathing, bedding and medical servants in use with the corps in camp.

25th—The field superintending Surgeon in visiting the regimental hospitals, will issue such orders as he may occasionally judge requisite for the removal of patients from the regimental to the field hospital, to which orders prompt obedience must be paid.

NATIVE CORPS.

27th—An additional allowance of 10 Pagodas per month to be granted to the Surgeon or Assistant Surgeon in medical charge of each Regiment of Native Cavalry, on account of medical expenditure.

28th—For such Sepoys, Gun Lascars, and Pioneers as may be so materially wounded, as to require in the opinion of the Commanding officer of the corps particular attendance, the Surgeon under whose charge they may be placed shall be allowed to draw (and a half fanam per day for each man until he is cured.—The bill for this charge is to be accompanied by a bill descriptive of their wounds, to be certified by the officer commanding the corps or station.

29th—Surgeons of Native Corps to draw in the proportion of one cooley for every 100 men, for the carriage of instruments and medicines of every description.

30th—As on many occasions it will be impossible to procure in camp, wines, spirits and the other articles coming under the denomination of country medicines, Surgeons of Native corps will be allowed to purchase from the field Apothecary those articles, at the same rate at which they will be issued to the Surgeons in charge of field hospitals.

31st—In order to provide for the care of the native sick who may be left behind their corps upon its being ordered into the field, or to march to a distant station, the Right Honorable the Governor in Council is pleased to direct that a list of the men who may be so situated shall be sent by the officer commanding the corps to the commanding officer on the spot; or if proceeding from a cantonment where there are no other troops, to the commanding officer of the nearest station; in either case the men who require medical attendance are to be placed in charge of the Surgeon or Assistant Surgeon of such station, who will be permitted to draw 40 Cash per day for each man actually in hospital, on account of medicines and attendants until he is sufficiently recovered to do duty at the station where he may be, should no opportunity occur at the time for his joining the corps to which he belongs; but the bill or abstract of the Surgeon or Assistant Surgeon for this allowance, is to be countersigned by the commanding officer of the station, who is to certify thereon, that the number of men drawn for, were actually attended and supplied with medicines for the number of days charged, and is to take the earliest opportunity of forwarding the recovered men to their corps.

32d—When it may become necessary to order any of the native sick into a field hospital, the Surgeon in charge of such hospital, shall be allowed to draw 60 Cash per day for each man, while in the hospital under the certificate before specified.

33d—The whole public carriage of the sick of the Army to be under the entire management and controul of the field superintending Surgeon, one head Writer and 1 Dooly Maistry to be allowed him, to assist in performing this essential duty.

34th—When corps are detached from the Army the Regimental Surgeon will arrange with the field superintending Surgeon for the proportion of carriage for the sick, and be held responsible, for whatever may be placed under his charge on this account.

35th—The Medical Storekeeper at the Presidency shall have at all times in readiness at such advanced station or stations as the Commander in Chief may direct, a stock of country and bazar medicines equal to the probable consumption of three months for the number of European Troops in the field, for the purpose of supplying the regimental Surgeons with such articles on indent as before regulated.

G. O. By the Commander in Chief.

In consequence of various references to authority of the Commander in Chief regarding the right of officers not holding the rank of Lieutenant Colonel to draw the batta of a superior rank to that which they regimentally hold, when in the temporary command of corps, his Excellency is pleased to publish the following regulation for the future guidance of officers so situated:—but, it is to be clearly understood that this definition of the title of officers to superior batta, *has no retrospect*.

The allowance of superior batta to officers under the rank of Lieutenant Colonel holding the temporary command of corps, is intended by Government to compensate for the additional expences incidental to such temporary command;—and it is therefore invariably to be drawn by the senior officer under the rank of Lieutenant Colonel actually present commanding and doing duty with the corps, whether in a collected or divided state; *not* by the senior officer appointed to the corps, when *absent* from it by leave, on detached duty—from sickness, or from any other cause; if such absence shall exceed three days.

The abstracts of officers becoming entitled to superior batta from the occasional absence of a senior officer, for any period between the monthly returns of the corps, to be countersigned, and such temporary command certified, by the officer commanding the garrison or station, to warrant payment.

The orders of the 22d December 1801, having in some instances been misunderstood, the Commander in Chief thinks proper to publish to the Army, that altho' the senior officer of a corps

on occasions of temporary absence, from whatever cause, retains the power of giving orders to the junior officer exercising temporary command in his absence, for the inferior arrangement and discipline of the corps; yet, the senior officer actually present and doing duty with it whether in a collected or divided state, shall sign the returns, and draw (if under the rank of Lieutenant Colonel) the superior batta annexed to the command of the corps.

The proceedings of a General Court Martial held at *Trichinopoly* the 27th day of December 1802, by order of the officer commanding the southern division of the army (under authority from the Commander in Chief.—) and of which Lieutenant Colonel Picton was president, having been approved, and confirmed, the following parts are published to the army.

CHARGES

CHARGES.—Exhibited against Mr. Benjamin Humpage.

Mr. Benjamin Humpage, Assistant Surgeon of the 2d Battalion, 13th Regiment Native Infantry this day ordered by me under arrest, on the following charges.

1st—For having written an improper and disrespectful letter dated the 16th instant to the Adjutant, Lieutenant Whyte, in consequence of a message from me his immediate commanding officer, sent by that officer to communicate to Mr. Humpage, the regimental order published the 8th day of February 1802 (under the authority of the Colonel of the regiment) as requiring his attention.

2d—For frivolous, vexatious, and disrespectful conduct towards me his immediate commanding officer, while he was in attendance on me, in inspecting the hospital and sick of the corps and garrison, on Sunday the 17th instant, followed up by very improper Letters written by him to me, and to the Adjutant for my information from the 17th instant to this day inclusive.

3d—For a neglect of duty in disobedience of the standing orders of the Battalion 13th Article under the head, of "hospital and Sick," and of the Battalion order dated the 15th March 1802, and contumaciously persisting in the same, notwithstanding the order of the 17th instant, positively directing an immediate compliance, under the frivolous and unbecoming pretext that the orders which he has received from Government, relative to the sick in his charge, are of that nature, as to take up the whole of his time, and that consequently the Battalion orders must be neglected he not being able to execute the former.

His conduct in these instances being to the prejudice of good order and military subordination.

Dinapore, 20th October, 1802.

(Signed) JAMES INNES, *Lieutenant Colonel*
Commanding 2d Bat. 13th Nat. Regt. and Dinapore.

(Signed) FREDERICK PIERCE,
Deputy Adjutant General of the Army.

SENTENCE.—The court after mature deliberation and a full consideration of all that has been advanced in evidence in support of the charges, and also what the prisoner Mr. Assistant Surgeon Humpage has urged in his defence, are of the following opinion viz.

That the prisoner Mr. Assistant Surgeon Humpage is not guilty of the crime exhibited against him, as set forth in the first article of the charge, viz. "Having written an improper "and disrespectful Letter dated the 16th of October to the Ad"jutant, Lieutenant Whyte, in consequence of a Message from "Lieutenant Colonel Innes his immediate commanding offi"cer, sent by that officer to communicate to Mr. Humpage "the regimental order published the 8th of February 1802 "(under the authority of the Colonel of the regiment) as re"quiring his attention."—and they do therefore acquit him of the same.

2d—That the prisoner Mr. Assistant Surgeon Humpage is not guilty of the crime laid to his charge, as set forth in the 2d article of the charges exhibited against him, viz. "frivolous, "vexatious, and disrespectful conduct to Lieutenant Colonel "Innes his immediate commanding officer, while he was in "attendance on him in inspecting the hospital and sick of the "corps and garrison on Sunday 17th of October, followed up "by very improper Letters written by him to Lieutenant Colonel

"Colonel Innes, and the Adjutant for his information from "the 17th October to the 19th of the same month inclusive," but they are of opinion that his conduct in the hospital on the 17th October was frivolous and vexatious.

3d—That the prisoner Mr. Assistant Surgeon Humpage is guilty of the crime laid to his charge in the 3d article of the charges, viz. a neglect of "duty in disobedience of the standing "orders of the Hospital 13th article, under the head of "hos-"pital and Sick," and "of the Battalion ordered dated 18th "March 1802,—and contumaciously persisting in the same not "withstanding the order of 17th of October, positively di-"recting an immediate compliance, under the frivolous and "unbecoming pretext, that the orders which he has received "from Government relative to the Sick in his charge, are of "that nature as to take up the whole of his time, and that "consequently the Battalion orders must be neglected he not "being able to execute the former," and that in the instances "in which he is found guilty, his conduct is to the prejudice "of good order and "military subordination."

4th—The court are further of opinion that the prisoner Mr. Benjamin Humpage is not guilty of the crime set forth in the additional charge, viz. "refractory and unbecoming conduct "from the 12th of December (the day it was notified to him "that a Court Martial was orderer to assemble for his trial and "in contempt of the garrison A. O. of the 19th October last, "sanctioned by the approbation of the officer, commanding "the division, improperly withdrawing his attendance from "the hospital several days under the pretence of ill health "occasioned by his having been in arrest at large, for two "months, without giving any intimation of the same (as it "was his duty to have done) for the information of the com-"manding officer, and for having neglected to discharge from "the hospital several recovered Men on the 17th and 18th of "December, conformable to the 5th article of the standing "orders, under the head of "hospital and Sick," they there-"fore acquit him of the same as therein expressed, but they are of opinion that the aforesaid prisoner Mr. B. Humpage is guilty of neglecting to discharge certain recovered men from the hospital conformably to Battalion orders,—which together with other crimes of which Mr. B. Humpage has been found guilty being in breach of the articles of war, in such cases made and provided the court do therefore adjudge and sentence that the prisoner Mr. Benjamin Humpage, Assistant Surgeon, be suspended from rank and pay for the space of two calender months, to commence from the confirmation of these proceedings, and to be reprimanded in division orders by the officer commanding the southern division of the army, and the same is hereby adjudged and sentenced accordingly.
