Does not accept of for repeating the Books
of the Accountant General's Office as suggested
by Mr. Underwood, and considers that,
before he is declared fully absolved from
the imputations charged against him by
the Accountant General, this Officer or his

Deputy late in Charge should have an early

Suggests the postponement of the pro-
posed Commemoration on Mr. Underwood
until the value of his labors has been
fully ascertained to test which thanks
that Mr. Underwood's Minute and Statements
accompanying, should be transmitted to
the Accountant General, the Clothing
Board, and the Military and Naval
Authorities that each may have an opportunity of
explaining the errors and irregularities
imputed to their respective Departments.

Does not think that the adjustments in
the accounts proposed by Mr. Underwood,
should at present be sanctioned it being
apparent that, if that gentleman's
views are correct, the system of keeping
the public accounts at Gibraltar is equally faulty
with that of the Madras Presidency. 20th August 1854

of the provisions of its Charter, and the
measures adopted to relieve it from
its embarrassments. But considers the
compliance with the application for
Government aid to meet these dif-

encourage that mismanagement
which may, and must eventually, lead
to failure if not timely checked.
