President and Governor -
The Most Noble the Marquis of Tweeddale

23^d Decr
1845

Minute by - Adverting to the recent report from the Agent at Vizagapatam to former papers on the subject of the disturbances in the Golconda District, and to the Government records shewing the great extent to which apparently petty insurrections proceed, if not timely checked, is of opinion that the Commander in Chief should be requested to make arrangements for employing a sufficient force in the Hill District as soon as the season admits.

Observes that the information obtained by the Agent relative to the State of the District, and reported to Government cannot be fully relied on; and deems it necessary that that Officer should be required to afford, as early as possible, particulars regarding the locality of the Villages in the low Country, the names of the Hill Chiefs, &c. &c. and to report whether rewards should be offered for the apprehension of the Chief offenders, and a period fixed within which they should deliver themselves up unconditionally.

Thinks that the Agent should instruct his Acting Principal Assistant to investigate thoroughly the complaints made to him by the Hill Chiefs of Golconda, and report fully on the subject, and also whether any privileges enjoyed by the Hill Tribes under the Rajahs have been assumed by the Government which affect their means of subsistence &c. &c.

If any encroachment on their just and ancient rights has taken place, thinks the first step to be to do the people justice, and is opposed to increasing the revenue by trifling increased collections from this class of people.

Proposes that the Agent be called upon to state whether he considers it would be advantageous to the District to form a Sirkundy corps, and if so how to be raised, organized, and employed; and whether any reduction could be made in consequence in the number of the Ordinary Peons of the District.

Suggests that the Agent at Coajam be required to report whether he has reason to suppose that the disaffection

has extended at all to any of the Tracts under his

intelligence from the Punjab and to the arrival of
the 17th Regiment Native Infantry at Madras is of
opinion that operations in Golgondah may be undertaken
without delay and proposes with this view that the
Commander in Chief be requested to report the measures
necessary for this purpose -

Suggests that Colonel Campbell be entrusted
with the sole authority to direct the operations
unfettered by any interference on the part of the
Civil Authorities who should be instructed to afford
Colonel Campbell all such aid as he may require -

17th 8th 0th Minute by - The Members of Government having
apparently mis understood his object in proposing
the appointment of Colonel Campbell to the sole
charge of the operations in the Golgondah District
wishes to explain that he did not thereby contemplate
setting aside the Civil Authority altogether in the
full sense of the expression but with the view of
enabling the Agent to attend to his other important
duties Colonel Campbell might with advantage be
entrusted with the duty of directing the operations,
and, in event of success, the Agent to control and
conduct the after proceedings. - States that, except
in a Civil capacity Colonel Campbell cannot
conveniently be detached on this duty as the other
officers commanding Regiments in the neighbourhood
are his Seniors and the 41st Regiment Native
Infantry is not in an efficient state to be employed
in these Tracts.

Observes that Mr. Smollett's recent report
if confirmed may render further measures
unnecessary - - - - -

20th March 1840 3 Minute by — Observes that the Government possess
no correct information of the quantity of Timber suitable
to ship building in the Government Forests, or in private
Estates, or, in the Franciscan and Cochiti Territories, but
doubts not that those Governments would readily
concede to the British Government the preference over
other purchasers, whereby a large and valuable supply
of Timber might be obtained at an
early date.

Suggests the expediency of a qualified
Agent taken from the Dock Yard or from the Navy
being sent out for a limited time to examine the
