It shall have been shewn that it was objectionable to entrust the next Senior Officer to Major Nash present, with the Command of his Regt. One reason why the G.O. 17 Jan 1834 No 24 do positively prohibit the appointt of Majors to the Command of Corps to which they do not belong, was, the consideration due to meritorious & efficient Officers of the Rank of Captain who might casually fall into the temporary Command of their Regt & whose supercession by an Officer of the Rank of Major belonging to another Regt might be considered a hardship and as a reflection on their Character as Officers —	10th Do
