SCHEME OF CATALOGUES.

The Descriptive Catalogue of Sanskrit Manuscripts in this Library has been issued in twenty-eight volumes and is still in progress. This series has been issued by subjects in Volumes I to XXIV; and Volumes XXV to XXVIII are supplemental volumes. The Descriptive Catalogue deals with manuscripts that had been acquired for the Library till the end of 1910.

The manuscripts that have been acquired since 1911 for the Library are described in a new series called "The Triennial Catalogue of Manuscripts—Sanskrit," each volume containing the description of the collections made during a triennium. Each triennial catalogue contains separately an Author Index, a Subject Index and a General Index. Triennial catalogues ending with 1931 have already been issued and the rest are in progress.

An Alphabetical Index to the titles of Sanskrit manuscripts in this Library is available in two volumes. Volume I has already been issued and it contains the titles from अ to म. Volume II is being issued and it will contain the titles from य to ह together with a supplement bringing the titles up to 31st March 1940.

The volume that is now issued is an Author Index to all the Sanskrit manuscripts listed in the above volumes and is a companion volume to the Alphabetical Index volumes containing the titles of works in Sanskrit.

II

ORIGIN AND DEVELOPMENT OF THE LIBRARY.

COLLECTIONS.

From 1800 to 1850 A.D., several manuscript collections like the Mackenzie, East India House, Brown, etc., were

paid for by the Court of Directors of the East India Company, London, and transferred to their Madras Agent for preservation.

MACKENZIE COLLECTION.

Colonel Colin Mackenzie came to India in 1782 as a Cadet of Engineers on the Madras Establishment of the East India Company, desirous of prosecuting in India his oriental researches which had already become his hobby, when entrusted with the searching for and gathering together of all available information respecting the knowledge possessed by the Hindus of Mathematics in general and of the nature and use of Logarithms in particular, by the 5th Lord of Murchistoun, who was eager to write a life of his ancestor, John Napier, the inventor of English Logarithms.

From 1782 to 1818 the Colonel collected various collections of manuscripts, coins, inscriptions, maps and plans bearing on the literature, religion, history and manners and customs of the people in South India in as many of the alphabets as were current in the south, besides numerous additions from Ceylon and Java.

In 1818, before proceeding to Calcutta to take up his new duties as Surveyor-General of India, he appears to have sent home to England, presumably to the Court of Directors of the East India Company, seven folio volumes of materials relating to the geography and history of the country with general and provincial maps. Colonel Mackenzie took his collections to Calcutta and added to them and worked at them till his death in 1821. With the sanction of the Court of Directors, the Marquis of Hastings, then Governor-General of India, purchased the collection on behalf of the East India Company from the widow of the deceased for £10,000. The collection, which was in no fewer than fourteen languages and sixteen different characters, was catalogued by Wilson, when at Calcutta. A portion of this

collection as well as several volumes of manuscript translations were sent to England in three batches in 1823, 1825 and on a subsequent date. The whole of the books and tracts in the languages of southern India and the inscriptions were lodged in the Madras College Library in 1828. From 1830, the collection was in the hands of the Madras Literary Society. In 1847 it was retransferred to the "College Library". About 1838, the Rev. William Taylor prepared, under the orders of the Government of Madras and with the sanction of the Court of Directors of the East India Company, a catalogue of the Mackenzie collection, which formed the third volume of "A Catalogue Raisonnee of Oriental Manuscripts in the Library of the College, Fort St. George, in charge of the Board of Examiners."

The Mackenzie collection is now in three different places, one at Madras and the other two at Calcutta and the Library attached to the India Office.

THE EAST INDIA HOUSE COLLECTION.

About 1837, Mr. C. P. Brown of the Madras Civil Service found in the India House Library a collection of manuscripts in Tamil, Telugu and Kanarese characters belonging to Dr. Leyden, who was in India from 1803 to 1811. Dr. Leyden was a great traveller and linguist. His collection was bought at his death by the Company and lodged at the India House. The collection was transferred to the Madras Literary Society in 1844 and Mr. Brown's lists of the collection appeared in No. 33 of the Journal of the Literary Society for 1847. In 1847 it was retransferred to its permanent home, the College Library at Madras.

BROWN'S COLLECTION.

On completing the cataloguing of the East India House Collection, Mr. Brown donated to the company his own valuable collection of manuscripts, which is almost entirely

in Telugu character, one half of the collection being in Sanskrit and the other half in Telugu. To this collection, Mr. Brown was continually making additions up to the date of his departure to England in 1855.

With the consent of the Honourable Court of the East India Company, the Government appointed Mr. W. Taylor, a distinguished orientalist, in 1853 to publish a Catalogue Raisonnee of the contents of the East India House and Brown's Collections, similar in character to Professor Wilson's catalogue of the Mackenzie manuscripts. Between 1857 and 1860 Taylor published his "Catalogue Raisonnee" in three volumes, noticing all the manuscripts, which were then lodged in the Board's Library.

Some years later, the manuscripts of all these collections were transferred to the Director of Public Instruction and he had them stored in a godown in his office at Nungambakam in charge of an attender.

On the 14th August 1867, the Rev. T. Foulkes, Chaplain of Vepery, reported to Government on the damaged condition in which the manuscripts were stored and recommended that these should be placed in charge of a responsible officer. Government accordingly appointed a Committee on the 6th February 1869 to report upon the best means of preventing further injury accruing to the Library of Oriental Manuscripts. In G.O. No. 83, dated 15th March 1869, Government directed Mr. Pickford, the Sanskrit Professor of the Presidency College, to be in charge of the Oriental Manuscripts. In G.O. No. 46, dated 10th February 1870, Government ordered the expeditious removal of the manuscripts from the Director's compound to the New Presidency College in the South Beach.

In their new location, the manuscripts continued to be housed till 1895, when the collection seems to have been shifted to a small room in the Government Secretariat Buildings in the Fort. St. George. Again in 1896, the collection appears to have been shifted to the old theatre

buildings attached to the Museum Buildings in Egmore. In 1939, early in January, the collection was again shifted and it is now housed in the middle tier of the New University Library Buildings on the South Beach Road near the Marina.

CURATOR.

Mr. Pickford was designated the Librarian of the Oriental Manuscripts Library and his work was honorary. He was in charge of the Library from July 1869 to March 1870. Dr. Gustav Oppert was appointed permanent Professor of Sanskrit in the Presidency College from 14th November 1872.

In G.O. No. 250, dated 11th August 1873, Government appreciated the nature of the material contained in the Oriental Manuscripts Library and issued their order in the following terms :—

“The Governor in Council recognizes the responsibility, that is entailed on Government by the possession of this valuable, and in many respects unique, collection, and deems it conclusively established from the several reports on the condition of the manuscripts, that very much more than nominal responsibility for their custody is required of the Sanskrit Professor, if the value of the collection is to be fully appreciated and maintained, and its contents rendered available for the purposes of students in India and Europe. In the belief that Dr. Oppert is both able and willing to do all that the literary world can desire in the matter, and appreciating the lively interest that he manifests in the charge, the Governor in Council resolves to attach to the office of Curator as held by the Sanskrit Professor a special remuneration of Rs. 50 monthly, on the understanding that it is recognized as part of the Professor’s duty to place and maintain the collection in order, and to compile a catalogue of contents to facilitate reference. Dr. Oppert will submit his proposals for more elaborate catalogues suited to the purposes of students in Europe. He can arrange for any printing work that may be

necessary for the cataloguing at the Government Press, and will obtain from the Presidency District Engineer, and submit for sanction an estimate for the cases necessary for the proper arrangement and preservation of the manuscripts. The Government will await his definite proposals on the subject of the establishment. The allowance and other charges will be debited to 'Educational' under 'Provincial.'"

From the above date the Librarian came to be designated as the Curator of the Government Oriental Manuscripts Library and the allowance of Rs. 50 per month sanctioned in the above Government Order was raised to Rs. 100 per month in G.O. No. 35, dated 5th February 1875 (with retrospective effect).

Since 1893, the office of Curator has been entirely honorary.

CURATORS.

Pickford	July 1869 to March 1870.
Venkatasubba Sastri (Acting).	March 1870 to 21st Dec. 1870.
Seshagiri Sastri (Acting) ..	4th Aug. 1871 to 13th Nov. 1872.
