TO the EDITOR of the COURIER,

To the ENTOR of the COURLER,

Sir,

When we call our eyes back on the history
of mankind, and trace than through their feveril fuccessions to their original, as one since we
discover them breaking our in great and memorable actions, at another we find them such in
soft and signorance, nearly led in darkness and
obscurity:—the present age, which will occupy
acomplesions place in the page of history, has
allered y produced changes and revolutions which
will attorish, nay ever tagger the belief of posterity, and fill portends events—the page of their
separate of the well.* In a thort
space of time we have feen kingdoms divided
and united!—Nations transferred from one,
Sovereign to another:—Conqueers saised to
shee face of hardend and the Well.* In a thort
space of time we have feen kingdoms divided
and united!—Nations transferred from one,
Sovereign to another:—Conqueers saised
to shee yet the state of the saised of the said of the
sain, to see his own country have the chief insheen case to important a period,—and fall and undanneted, above to trave, the impending storm
but I egget to say there are divisions among to
us, which—'the trifler are first story to the said
us, which—'the trifler are divisions among to
us, which—'the trifler are divisions among to
us, which—'the trifler controlated light of the
proposition of them were not their intertured humany and many principles are in regard
to Religion 8 barely he has a right to adhere
to the principles in which he was educated—the
tenigion I profess may appear as strange to
them, for want of early induction, as his toom to
monstar Max, because he believes in Machourt,
so long-as he gives himself no impertinent
rooble show my faith. Cas it be supported that
Heavier page strelly—In my humble opinion the
Allemghty who displays such infinite variety in
all his works, no more intended that all man,
kind should follow for religion, plan that they
flowed be all of one colour,—foek the fame langaug,—observe the fame customs, or wear the
following and the fam

Father and the upport and the virtual state of the Universal Father. Permit me now to make a few observations on national projudices:—the natural effect of on national projudices:—the natural effect of on national projudices:—the natural effect of microw, mean ideax; and what appears to prefectly attending its the aversion which some people bear in their minds to all their who thind in the people have in their minds to all their who did not happen to be born on a whe jume part with the indicate, what does it figosffy where a man was born I can it be an long or a difference; a ment or a crime, to be born on any particular for of the Close I—I flower by the form any particular for the crime would point out what Country it a wife havenful to the whole bear have it. What climate? What latitude? It under the Equator?—On why materially conclude they must be greated; at a loft for something to value thenselves upon, who are proud of the place of their birth.—A recent circumstance which came within my observation, who are proud of the place of their birth.—A recent circumstance which came within my observation. The single constitution of the lines to argue them.—Whether we have prejudices or differencies may fabilit, this is not the time to argue them.—Whether we are how compelled its am aution, to have recourse or arms, in order to repel the ambirious entropy of the mind with a continual continuation of the place of the property of the mind with a continuation of the place of the property of the continuation of the place of the property of the continuation of the place of the property of the surprise of the property.

CONTINENTAL ARMIES.

few extradts from the Caraffere Militaire may not be uninteresting to our readers. In giving which, we shall follow the author's arrangement of the different European Armies.

THE FRENCH ARMY.

THE FRENCH ARMY.

This Revolution differganized the Military; and the ancient officers, who did not embrace the new principles, either retired, emigrated, or were all dinated. To them faceceded men raif-def from the ranks, or thole who gave pools of attachment to the new order of things. The driven the ranks of the work of the result of the farmy, was downpied of troops of the line, without order, and of taw and unexperienced volunters. The experienced deleast in the leginning, but the war in the mean time was formig both officers and folkiers. The fythem of textoriotroduced by Robelpiarre, alfoconcurring both officers and folkiers. The fythem of textoriotroduced by Robelpiarre, alfoconcurring both officers and folkiers. The fythem of textoriotroduced by Robelpiarre, alfoconcurring both officers and folkiers. The fythem of textoriotroduced by Robelpiarre, alfoconcurring. The French agencials readily different to target and their instruction to regularity, enable the French and the continuence of the folkiers, the lightness of their baggage, and their instruction to regularity, enable the French and the continuence of the folkiers, the lightness of their baggage, and their nate and the regularity and the continuence of the folkiers, the lightness of their baggage, and their for example, the folkiers, the folkiers of the folkiers of the folkiers, the folkiers of the folkiers of the folkiers, the folkiers of the folkiers of the folkiers of the folkiers, the folkiers of the folkier

diment, flarp-thourers, tight minattry and Choffarr. More than once their thry-thourers have desided arthms of importance. When the content of the content o

Auftrians become like a flock of floory different fed, and incapable of being re-quited. They carry their fear of being out flooked, to a degree which is ridiculous and extravagant; it might indeed be called a national different or

might unteed be easied a sational unforber weakerfi.

The Auftrian AARILERRY is excellent but infeed of being an accelfary, it is fometimes made a principal; infeed of aiding the troops, the troops are obliged to guard and defend is and rander themfelves fubbrevient to the difficience of its movements. Their care to guard this cannon, and the dangerous point of honour as preferring what coght to be confidered only as the tools of influments of war, have on more than one occasion cased the defeat of the Auftain chain infantity; this might have been avoided, and they either had no cannon, or confined to lofe them.

The Auftain Cavalaris proverbially good.

The French always avoid coming in contact with it.

Infe Audrian Cayalax is proverbially good. The French always avoid coming in contact with it.

The Audrian Cayalax is proverbially good. The French always avoid coming in contact with it.

The Audrian Cayalax is a contact good of the respective of French and good of the respective of the French and of the respective of the Property of troops in what they call a Cut are of Poerry, and in Guands of every, kind, which are frequently ufeled. One part of their troops is a diffance from the Battle, and the other is always basten before the Battle is begun; and dindtact from the Battle, and the other is always basten before the Battle is begun; and dindtact from the Battle, and the other is always basten before the Battle is begun; and dindtact from the Battle, and the other is always basten before the Battle is begun; and dintenting and at fuchs a diffance, that the different corps are beaten and overthrown with the different corps are beaten and overthrown with a continuous contact of the respective. The method to which the Audrians invariably attach themfelves in all cafes, occasions this injurious diffribution of their troops, and conife weakens them.

Their Generals have committed the groffer and mon fratal blunders; the French ton have been guilty of the moth flaggant errors on their different many, that a fuperiority, not of mixery ference, but of intelligence, joined to their great activity, and their bodies of referve, has always and the second of the french grown will infallible prefevere, much effect of the reduced the French from the evil effect of the operation of the French, and If we reflect on the operation of the French, and it has to frugge lengly againers, of incorder the french grown will infallible prefevere, much of occasion will infallible prefevere, much of the french grown will infallible prefevere, and of careful to a second from the evil effect of the operation of the French and in marching forward. The French have not been accudenced to freil transage and leaff fuch as an able and upright g

HAGUE,-29th. April.

HACUE,—2016. April.

The phlegm of the Durch character has been, for some time, changing to slury against the French, and in particular against their Chief Rules, whole measures of precaution to guard this country against an hostile attack, will no doubt bring another onerous imposition upon us in the course of the preferst year; an imposition which we understand that many of the richest persons in this country are preparing to escape by emigration, to seek in other climates a country lest exposed than this to those various and impositions by strangers, to which we have been here so perpetually subject during these last nine years, and which become so include the proposable, that all sations, all parties, those even who are mutually the most opposite in their opinions, agree in loud imprecations against a government to which ours is subject by its weaknets, and since Belgium has become a part of France, by statal vicinity of confines. Hague, 30th April.—The French Ambassador received dispatches by a Courier last night. Their contents have been communicated in the Chief Chief

ment Sei Cutton Houfe, 27th Sept. 1803.

FRENCH LAW OF DIVORCE.

FRENCH LAW OF DIVORCE.

We observe, that in the Laws respecting Divorce in the new Civil Code of France, a woman divorced on account of adultery, is prohibed to marry her paramout. This regulation was attempted to be introduced in Rogland two or three years ago. Person advorced by musticed, and on more than twenty; the hoshand 25, and the wife 25, or not above 45. After application for divorce by consent, a very straight still gridle gridle, and the parties cannot marry again for three years. In the Tribunate there were 46 in favour of the law, and 19 against it.

The Magistra, of the 24th contains a decree of the Consult, the object of which is to facilitate the payment of the Creditors to the French Republic, who are sither foreigners, or reside in foreign countries. The creditors is deliver to the French Ambashador, or Knowy, resident in the construction.

sicate the certificate: and, upon its being tranf-mitted to Paris, the creditor will be paid.
